The Honorable Bettye Fahrenkamp, Chairman
Senate Resources Committee
P.O. Box V
Juneau, Alaska

Dear Senator Fahrenkamp:

To assist your committee in its consideration of Senate Bill 140, I am writing to provide a synopsis of the Owsichek decision and its implications for creating an area management system for allocating guide access to big game.

1. SYNOPSIS OF THE OWSICHEK DECISION.

On October 21, 1988, the Alaska Supreme Court decided that the statutes and regulations that underlie the state's exclusive guide area system ("EGA") are unconstitutional. 1/

On December 8, the court granted the state's request that the effect of this decision be postponed until June 1, 1989. Therefore, the EGA system is currently enforceable. Beginning in June, the system will have no legal effect, and any licensed person may guide hunters in a game management unit for which he or she is certified. 2/

1/ The court uses the term "exclusive guide areas" to describe not only joint use areas but also "restricted guide areas," a term used to describe EGA's since 1986 when the term appeared in AS 08.54.195.

2/ When a guide is licensed by the Division of Occupational Licensing, he or she is "certified" to conduct hunts in only those game management units where the guide has experience. Except for older guides who were "grandfathered" into more units, most guides are limited by regulation to certification in not more than three game management units. 12 AAC 38.200.

(Footnote Continued)

The supreme court based the Owsichek decision on its interpretation of the "common use clause," i.e., article VIII, section 3 of the Alaska Constitution. This clause says, "Wherever occurring in their natural state, fish, wildlife, and waters are reserved to the people for common use."

This was the first time the court was called on to interpret the common use clause with respect to wildlife. In earlier decisions, it had discussed the clause in the context of state waters (Wernberg and CWC Fisheries) and in the context of fish (Ostrosky and Johns). In light of its earlier decisions, the court declared that the "common use clause was intended to guarantee broad public access to natural resources."

In order to further clarify the meaning of the common use clause, the court looked at the constitutional history of this clause and at the historic development of wildlife law in general. Concerning the constitutional history, the court said that the purpose of the clause was "anti-monopoly." It also found that the framers of the constitution intended to prohibit "exclusive grants or special privileges" and intended that the public "retain broad access to fish, wildlife and water resources."

In discussing the development of wildlife law, the court said that the common use clause "constitutionalized" the state's public trust duty toward wildlife. This is a duty to manage these resources for the benefit of all the people.

The court summarized its interpretation of the common use clause by stating that the clause was intended to put into the constitution "certain trust principles guaranteeing access to

(Footnote Continued)

At the time of the court's decision, 256 licensed guides had been assigned either exclusive or joint use guide areas. One hundred and eighty four licensed guides had no area to guide in. Therefore, after June 1 the Owsichek decision means that 134 more guides will be able to guide hunts in any of the game units for which they are certified. The additional hunting pressure, of course, varies from unit to unit. For example, the number of eligible guides in units 1, 2, 3, and 4 (southeast Alaska) will increase three-fold (from 13 to 33) while the number of eligible guides in unit 17 (Togiak - Dillingham area) will increase over six fold (from 17 to 129).

the fish, wildlife and water resources of the state" and, at a minimum, this meant a "prohibition against any monopolistic grants or special privileges." It also stated that the clause makes no distinction between use for personal purposes and use for professional purposes; common use applies to commercial guiding as well as recreational hunting.

In deciding that the EGA's violated these principles, the court noted the following features of the system:

1. The EGA system gave one guide the right to exclude all other guides from conducting hunts in his or her EGA. This right was based on the area holder's seniority, that is, his or her use, occupancy, and investment in the area.
2. EGA rights had no time limit, and the system of transferring them, based as it was on the selling of "improvements" and a holder's designation of his or her successor, allowed the selling of areas as if they were a property interest.
3. The assignment of EGA's was not based primarily on wildlife management concerns. The system could not be justified as a game management tool and therefore was unlike licensing requirements, bag limitations, and seasonal restrictions which were proper and "time-honored methods of conserving the resources." In this regard, it is important to note that the court said that even if used as a wildlife management tool, this would not "save the EGA system from unconstitutionality under the anti-monopolistic common use clause."

Finally, the court had made a distinction between the EGA's on one hand and state leases and exclusive concessions on the other. The latter are permissible because they are of limited duration, because they are subject to competitive bidding, because they are limited by contract terms and restrictions, and because the state receives compensation for them.

II. IMPLICATIONS FOR A NEW AREA MANAGEMENT SYSTEM

The Legislative Task Force on Guiding and Big Game has recommended that the state develop a new area management system for allocating access to guiding opportunities among licensed guides. It has recommended the establishment of a land-based concession system. While the Department of Law could defend this type of system, we believe that it would ultimately fail a legal challenge.

We may be able to defend a concession system based on an analogy to the state's current shore fisheries lease program. That program enables the Department of Natural Resources to lease small tracts of shoreline for use by persons who hold set net permits under the state's fisheries limited entry program. For a guide area system to qualify for this analogy and answer some of the concerns raised by Owsichek, the concessions would have to be limited to state owned lands, would have to involve small tracts of land, would have to be limited in duration (one to three years), and would have to provide equal opportunity of access for all qualified guides when the concession was available for reassignment.

Even with these features, we believe that a concession system would still be found unconstitutional because of the severe manner that it would impinge on the common use guarantee as expressed in Owsichek. The analogy to the shore fisheries lease program is weakened by several factors. That program is tied directly to the state's limited entry program, a system of limiting access to fishery resources that has constitutional underpinning. A guide concession would limit access to game opportunities without an equivalent constitutional basis. 3/

State concessions and leases, as such, are not included in the common use clause. When their purpose is to allocate access to resources like timber and grazing land, the state is freer to grant exclusive rights. When allocating exclusive access to fish, wildlife, or waters, however, a land-based system would conflict with the principle of broad public access guaranteed by the common use clause.

3/ In 1972 the Alaska Constitution was amended to allow the state to limit entry into fisheries. Ak. Const. art. VIII, §15. In a later case, the Supreme Court held that although fisheries limited entry is inconsistent with the "common use" clause, this system was validated by the 1972 amendment. State v. Ostrosky, 667 P.2d 1184 (Alaska 1983), appeal dismissed 467 U.S. 1201, 81 L.Ed. 2d 339 (1984).

There is no provision in the constitution that allows for limiting entry to game resources, and currently there is no proposal for such an amendment. (Amendments to the constitution are accomplished by a proposal by each house, passed by at least a 2/3 vote, followed by a majority vote of the public at the next general election. Ak. Const. art. XIII, §1.)

The Honorable Bettye Fahrenkamp
Chairwoman, Senate Resources Committee

February 14, 1989
Page 5

Even if a system were developed that served only game management purposes and not the economic welfare of a segment of the guiding industry, it would not be safe. The Owsichek court noted that the common use clause precluded exclusive guide areas even if they could be justified as a wildlife management tool. ^{4/} In the court's view, the traditional game management tools -- licensing requirements, bag limits, and seasonal restrictions -- apparently are sufficient to protect the resource without conflicting with the clause. A court would recognize that the state can respond to any increased pressure on game resources by requiring hunter registration, permit drawing, or other methods now available to the Board of Game. Although these techniques may bring unpredictability to the business of guiding, we believe that a court would favor them over a system that has inherent constitutional problems.

In conclusion, a constitutional amendment is the only certain step that will guarantee a stable, long-term system that allows some, but not all qualified guides to have access to game resources in a particular area. We believe that any statutory, land-based system that does not have explicit constitutional underpinning and that resembles even remotely the EGA scheme that was struck down in Owsichek will be destined to the same fate.

GRACE BERG SCHAIBLE

TO: SENATOR FAHRENKAMP, AND ALL SENATE RESOURCE COMMITTEE MEMBERS
 REPRESENTATIVE MENARD, AND ALL HOUSE RESOURCE COMMITTEE MEMBERS

The Alaska Outfitters Association, Inc. (AOA) supports SB 140 and HB 112 at this time. The AOA does have some comments on the bill and some areas of concern. The AOA is not offering any amendments at this time, however should the bill receive what the AOA considers to be negative editing the AOA will become more involved.

AS 08.54.300. CREATION AND MEMBERSHIP OF BOARD

The new board could have a better balance of commercial use members. The different activities represented by the board should not be lumped together. Each activity has its own specific considerations that can only be understood by representation on the board. Please consider that the broad scope of the Task Force duties was not understood by many who are affected by the results, such as wilderness lodge operators, marine charter boat operators and transporters other than air taxis, consequently these other commercial users did not say much at the Task Force hearings.

Sec. 08.54.310. DUTIES AND POWERS

On page 3 lines 26 through 29, the concern is that this may be setting the foundation for another restricted guide area concept, contrary to the Owsichek decision.

Sec. 08.54.470. COMMERCIAL USE PERMIT HOLDER

The definition of other big game commercial services is too vague and has no definitions. Possibly lines 6 through 10 on page 12 would read better in this manner; In this section "other big game commercial services" includes provision of accommodations and services as defined by the board by regulation.

Sec. 13 TRANSITIONAL OUTFITTERS

Page 26, line 12; A few outfitters with camps registered on federal lands were instructed by representatives of the Department of Public Safety not to register their camps with the state. These few outfitters should be allowed to participate. This may be achieved by a judgement call by Occupational Licensing.

(2)

Page 26, line 17; The AOA would like to see the oral portion of the guide-outfitter exam waived for transitional outfitters or given by someone other than a registered guide. The guide-outfitter exam should be offered as many times as possible during the outfitter transitional period, with the first exam before the 1989 fall hunting season and with ample time after the effective date for study.

Page 26, line 28; There is no business license classified "big game outfitter", with evidence in accordance with number (3) of this section, on this page, any business license for recreational services should be appropriate.

Page 28, line 4; The outfitter affidavit should be considered as confidential information, not information available to the general public.

The AOA wanted a longer transitional period with a different structure but we will accept this, however we ask that you keep in mind the topics mentioned.

Thank you for taking the time to read this list of AOA concerns. We appreciate the interest that our senators and representatives have shown the AOA and look forward to a good working relationship with you in the future.

In closing, please do all you can to pass this legislation in the best possible form and as quickly as possible.

Respectfully,
Paul Ellis

Senator Fahrenkamp:

I very much appreciate being able to present this testimony to the Committee regarding SB 140 and the bill extending the Task Force Study period.

It is very important that action be taken on both these bills. There is a very pertinent consideration that SB 140 does not address - that of determining the legal way to allot commercial use of areas. However, SB 140 should move ahead regardless.

I have several concerns with the bill. First, the composition of the Commercial Services Board - I feel more guides should be on that board. Another point is conservation fees. I believe that the "25% of tag" fee should be added to the tag fee up front. Collecting from the commercial user is going to be extremely cumbersome.

I also would like to see the Master Guide rating retained with perhaps some upgrading of the requirements.

Thank you for considering these points.

I am a registered guide in Kodiak. I have been guiding 9 yrs. I did not have my own area. I would like to make the following remarks on the new G/O bill. 1. I strongly oppose the reduction in penalties from a felony to a misdemeanor. This is only going to encourage people to try to get away with more things than they already do. 2. I don't like the idea of someone who has not put the time in, in the field like I did to get my license to be able to get a registered license just because he outlived for a couple of years. 3. I think on the makeup of the board that I number 3 should be a guide from the time when exclusive areas were ~~legal~~ legal so that 2 "Outfitters" don't get on. That would be unfair for the guides we have been the only ones who have been compromised + been

TESTIMONY OF THE ALASKA AIR CARRIERS ASSOCIATION
REGARDING SENATE BILL 140/HOUSE BILL 112
BEFORE THE JOINT HOUSE/SENATE
RESOURCE COMMITTEE
February 8, 1989
Juneau, Alaska

Senator Fahrenkamp, Representatives Menard and Jacko, and members of the House and Senate Resource Committees, my name is John Hajdukavich and I am here today on behalf of the Alaska Air Carriers Association.

The bill before you today deals mainly with the regulation of guides and outfitters. It is a carry-over of the debate last year which centered on regulating the outfitters, who were previously unregulated and growing rapidly. We think that the Legislature acted appropriately last year by passing SB 191. Since then, the Supreme Court decided that the existing system of exclusive guide areas was unconstitutional, and the Guide/Outfitters Task Force prepared recommendations which would create a new system of commercial users of big game. Many of the Task Force recommendations are included in SB 140.

The Alaska Air Carriers Association, which currently represents sixty-six carriers, believes that most of the bill seems reasonable, except for two sections. The first is Section 08.54.400, on page 8, which creates a new system of licensed "transporters." We believe this section should be deleted for the following reasons:

1. Air carriers are engaged in the transportation of persons from point to point, regardless of the purpose of one's trip. Almost all carriers charge point-to point fares, not fares

which differ for hunters or other air travelers. ;Most carriers derive a small portion of their revenue from the transportation of hunters. It makes no sense to require carriers to obtain another license specifically for the purpose of transporting hunters to the field. We already have federal 135 certificates and must register all of our aircraft with the Department of Commerce (\$50/aircraft fee) after proof that we have adequate liability insurance (\$150,000/seat).

2. This section also requires transporters to pay a commercial use permit fee. Apparently the theory behind this requirement is that because we derive commercial benefit from game, which is a common property resource, we should pay a fee. We strongly disagree with that theory for the same reason cited above - we simply transport people from point A to point B for the same charter fee, regardless of the intended activity of that person.

If the State wants to tax businesses which benefit from our game resources, then to be fair, the State would have to tax a hunter's trip to Alaska (for non-residents), the sporting goods stores, the grocery stores, the hotels, and any other services that the hunter uses while in Alaska. Arbitrarily singling out the last leg of the trip - the charter to the remote lake or air strip where the hunting takes place - is not reasonable.

The logical extension of this theory, if enacted into statute here for hunting, is to begin charging a transportation tax on any use of state land for any purpose - fishing, hiking,

photography, rafting, etc., as each represent uses of a common property resource. We simply disagree.

3. Another reason cited for these requirements is to "protect the resource." The proposed requirements are a very inefficient means to this end. The best way to "protect the resource" is more effective and frequent field presence of wildlife protection officers. The simplest way to raise money for this purpose is to increase the big game tag fees - because it is the hunters themselves who derive the greatest benefit from the harvest of game - and because it does not require additional administrative costs to collect the increased fees. If air carriers pay the fee for each hunter which harvests game, we will be forced to pass on that fee to the hunter anyway.

4. Existing law already requires air carriers to report activities relating to the transportation of hunters and the harvest of game, and there are stiff fines associated with violation. If there is a problem with compliance of the existing law, it would make more sense to simply increase the fine and do a better job of monitoring the reports, and the same result will be achieved.

AACA's second concern with SB 140 is the proposed repeal of the existing requirement that guides and outfitters obtain Part 135 certificates, just like all other air carriers. The legislature acted responsibly by requiring professional and equal standards for anyone transporting passengers for hire. Guide and outfitters argue that they should not be subject to same require-

ments because their flying is "incidental" to their business. Whether the flying is incidental or not is irrelevant. To protect public safety, anyone who receives compensation is whole or in part for flying people should be subject to the same basic standards of quality and professionalism. Under SB 140, guide/outfitters may fly hunters to the field with only a private pilots' license and an annual plane inspection. There is no requirement for a commercial pilot's license for liability insurance, or other standards required for all other carriers.

We intend to meet with representatives of the guide/outfitters and the Task Force to discuss our continued concerns with SB 140 and to see if there are mutually acceptable solutions which will resolve them.

We thank you for the opportunity to testify on this legislation.

Madam chairman and members of the Committee

I am not representing any of these organizations

own personal views.

I would like to thank the task
force for there work on this very complex
issue by bring forth a bill that a majority
of the users groups can support, but as
was brought out at Monday teleconference
the job is only half done now comes the
job of making up a management plan for
the whole state which all user groups
can support which is going to take a lot of
work by everyone that is involved and I
would like the Legislature to Pass SB 139 +
HB 113 for a start.

On SB 140 + HB 112

The Big Game Commercial Services Board
home office should be in Anchorage

2

so it would be more available to the public, guide-outfitters and Transporters.

There are some changes I think need to be made.

On page 4 lines 12 and 21 after the word hunting the word Fishing should be added. I think it is very important to include the words Fishing, Fishermen or Fish in the bill where ever it is needed. A lot of fishing takes place along with guide-outfitters hunt and would be used very much by a Transporter. Other areas in the bill where the word fishing should be added after the word hunting are as follows

Page 14 lines 8 and 9

Page 15 lines 2, 12, 23 and 24

Page 17 line 22

Page 18 line 10 use the word Fishermen

Page 21 line 7 add Fishermen and line 17 add Fishing.

On page 4 lines 22+23, Page 5 lines 13+14 Delete the words "For which the person was fined more than \$500 or imprisoned for more than five days" Any violation of Fish and Game laws should be used in

issuing or revoking a license. A dollar valuation or imprisonment should not be used in judging any violation of Fish and Game regulation and should be brought before the Big Game Commercial Service Board. a violation is a ~~real~~ violation and should be treated as such.

Under Transporter License Sec. 08. 54. 7.00
Pages ~~8~~⁸, ~~9~~⁹ and ~~10~~¹⁰. There should be some wording to the effect that if a transporter is illegally transporting Fish and Game his Transporter license will be revoked and a renewal denied.

Above all the resource has to be protected at all cost.

This concludes my testimony and I would like to thank the committee for this opportunity to testify.

My husband, Jack has been in Alaska 20 years. He began as a packer 19 yrs ago - he worked his way through the system, becoming a registered guide, then a master guide. His major ~~concern~~ ^{concern} is the transition from outfitter to guides. It would be nice to have ^{more} ~~some~~ ^{stricter} qualifications for outfitters to do, in the year what it took Jack 19 yrs. to do. If the transition passes, then what about looking into a rating system such as is in place already for the guides, that is, assistant guide, registered guide, then master guide. Then clients would know who they are hiring & what their knowledge & experience is.

One 2nd concern is the composition of the new board. We would like to see a person on there who actually represents the guide profession - with the 2 positions for the guide-outfitter available →

It would be possible that those 2 positions

We would recommend retaining the

We urge the extension of the Trial Fee.

Dear Members,

Dear Chair

I'm here today to testify about my current situation as a Licensed Alaskan Registered Guide and how this Guide Task Force Bill (SB-140) relates to me and my future livelihood.

I started my guiding career 10 years ago as a assistant guide and after gaining the years of experience needed to be able to qualify for the registered guide examination and meeting those qualifications, I successfully passed the exam. That was eleven years ago and I'm still very proud to be an Alaskan Registered Guide today!

Over the years I have seen alot of changes that have to deal with the guiding industry. The current Guide Board that was established in the early 1970's and shortly there after the guide area system which was copied from the British Columbia guiding industry and adapted to Alaska's needs. I remember well the difficulty that was undertaken for all guides to adapt and give into this system of restricted guiding areas and the new regulations for guiding and its activities.

The Guide's Board task to impliment this system was monumental during its first conceptions. As time went on and guides began to settle into the area concepts and guide laws, I recall the atmosphere of guiding to become somewhat more personal with real concerns as to ones future in this guiding industry. The years of D-2 and the land grabs sure hurt Alaskan Residents, and the effect was devistating to hundreds of guides who operated their businesses in these areas. As we now begin to look back on that time period not so long ago I wonder if most Alaskan's are not just begining to realize what was lost in the late 70"s.

The past several years as I have become more involved with a concern for the future and making a living in this guiding business, I have invested like many other guides have, a considerable amount of monies into my business based on the system which has been in place now for 15 years. I have a camp located on the Alaska Peninsual and on Kodiak Island where I conduct my guiding services for my clients. The recent supreme court decision has effected my livilihood considerable, and what a surprise to me to now have everything I've worked for tossed out and the lawful rug pulled out from under my feet. The supreme courts decision was obviously based on a very narrow view point towards one persons individual rights, and to say it wasn't a game management tool is beyond that judge's comprehension I feel!

Needless to say the supreme court must of realized their fruitful error with this decision because of its effect on a whole Industry and hundreds of people's livelihoods. thus granting in early December the courts Stay until June 1. My guess would be that thinking some changes would be made to correct the problems discribed in the courts decision of October 21, 1988.

Through many efforts of individuals concerned with their future livelihoods a panal meeting took place in early December which involved all State, Federal land, and Fish & Game agencies. This was the first ever such a gathering of different and varied agencies to deal with one main concern, the policies for guides in the coming future and those actions. To me this meeting had a very important outcome, the Interior Fish & wildlife Dept. came forth with their interium plans for all Federal Refuge Lands, thus putting a limit on the number of commercial users to the level of 1988 which deal with services for Big Game Hunting. Because i guide on Kodiak Island Wildlife Refuge this interium decision was very important due to the fact a emergency Board of Game meeting scheduled for mid-January was cancelled which had plans to deal with a crisis situation that had came up because of the supreme courts decision. Its been very obvious that the Federal agencies and our State Fish and Game Dept. recognized the important of guide areas as an important management tool for the game resources.

During Governor's Sheffield's administration approximately 7 years ago when the guide board was under the sunset review process there was a amendment to delete the portion that addressed transportors, because of a conflict with federal FAA laws. During this same time period Alaska started a large scale advertising plan to build the tourism industry in Alaska. From that time of revamping the guide laws and all the advertising to have more people interested in coming to Alaska, the door was opened to a group of unregulated commercial users for which Senate Bill 191 would finally reconize for what they are worth. I think Senator Cognilli's plan for a task force to deal with this issue was in fact a good one. The undertaking of that job by the Task Force has given proof that the Wildlife Resources in Alaska are important, and that a part of the commercial tourism industry using those resources is very viable to Alaska's future. The recommendations that the Task Force have come forth with, I feel are in the best interest of Alaska's Wildlife Resources. You would think from the previous years of many numerous teleconferences and now with the undertaking by your own Task Force and with all its public input these past months that the issues have been covered and the problems, with solutions reconized.

This coming March Board of Game hearings in Anchorage will determine my future in the guiding profession for those

seasons greatly affecting me will be determined at that time. I will be faced with the possibilities on the Alaska Peninsula of having my Moose season completely closed and the Brown Bear seasons changed or shortened because of the over reaction by the Dept. of Fish and Game. There are nearly two hundred guides whom are licensed for this region called unit 9, but with only about one-third of these being active in previous years. It doesn't take a master mind to see that the resource could easily suffer if all these commercial users hit this region because of this court decision opening up this State to over harvest. This was the problem in the 60's and is exactly what brought about the Guide Board and the Area Concept in the first place. I don't want to tell my clients they can't plan their hunting trips for this spring or for next fall. I don't like being in the situation of knowing that in thirty days from now I may be put out of business because of new regulations governing the Big Game Seasons in my region, that is not very comforting believe me! How would you like to explain this to your clients and return their deposit for services you have promised but no longer can produce. I don't like to think that the State of Alaska lead me down the path all these years holding a carrot out in front. I by my own choosing got into this guiding profession and I am dam proud for doing so, because I believe in our Alaska Renewable Resources and this professsion is very unique for North America and to Alaska, its one of a kind!

Senate and House Resources Members page 6

I do honestly feel the State in good faith has given me the methods, means, and the rights to conduct my guiding business under the current system which has been in place for some 15 years. Now to only find out that the system has failed the test is really disheartening. I don't for one minute think the State of Alaska in good faith under the direction of the Guide Board set up the guiding industry to its current level and the guiding area system to have it all through out the window! I do feel the State of Alaska has responsibilities to the people in the guiding industry and all Alaskans to address these problems in a fast timely manner. I would like to ask that this 16th legislature take to heart this plea of testimony to deal with these issues quickly in order to get laws and direction in place to protect the Wildlife Resources of Alaska and get some stability back into the guiding industry.

Thank you all for taking the time to listen and for the efforts of the Guide Task Force.

Sincerely,

SB 140

Dear Ms. Fahrenkamp:

I am Bernd Gaedeke, master guide #43, a 28 year resident of Alaska and a full-time guide/outfitter since 1967.

When I first obtained my registered guide license in 1967 I felt extremely proud to become a member of a fairly exclusive group of dedicated and respected professionals. In those days it was still easy to find an area that was not already claimed by another guide. Although there was no exclusive guide area concept at that time, there was a gentlemen's agreement among the guides as to who operated where and any conflicts that arose were usually settled in a gentlemanly fashion. Hunting seasons were much longer and harvest quotas were more generous. I remember when the sheep hunts in the Brooks Range opened on July 15 and the limit was two sheep per hunter.

But within just a few years the number of guides increased rapidly as did the number of hunters. The seasons and bag limits were reduced in order to protect our game resources. Unfortunately there was also an increasing number of guides who were more interested in making big money than in protecting our game populations. These were the so-called vacuum cleaner guides, most of whom are fortunately no longer with us.

Suddenly the guiding industry was out of control and measures had to be taken to not only protect our resource, but to protect a profession that contributes millions of dollars to our economy. The exclusive guide area concept was conceived with the overwhelming support of the guides. The assignment of exclusive guide areas certainly had its flaws, but it was a valuable resource management tool for the Dep't. of Fish & Game as well as for Fish & Wildlife protection. It also gave the guides parameters within which they could operate and plan from year to year how many hunters could be booked in their exclusive areas on a sustained yield basis.

Many guides suffered a severe, if not lethal blow when the many new national parks were established under ANILCA in '79. I, for one, lost 50% of my exclusive area to the Gates of the Arctic N.P. I lost my entire sheep hunting area as well as prime bear, moose and caribou habitat. Other guides lost everything and simply gave up.

But despite the numerous set-backs a good number of guides have prevailed and continue to offer some of the best professional services in the world. Guides have always been individuals who could stand on their own two feet and have never depended on the government to bail them out when the chips were falling.

The events that have transpired in recent years have made it evident to all of us and hopefully to all of you that legislation must be enacted in this session if we are to survive as a viable industry. An ever growing number of irresponsible and unethical so-called Outfitters have made a mockery of the guiding industry by being able to pretty much do as they damned well please. I believe that the Legislature should have acted several years ago instead of dragging their feet from one session to the next. We're all getting tired of testifying year after year on the same issues. I personally would like to get on with my life instead of living in limbo from one season to the next, never knowing what tomorrow will bring. I have invested hundreds of thousands of dollars in lodges, camps, inholdings, aircraft and equipment.

I feel it is our state's responsibility to protect our interests as well as those rights granted to us some 15 years ago. We are licensed professionals who have in good faith entered a contractual agreement with our government. We are managing a renewable resource in a responsible manner. Our fees and dues and insurance premiums (as required on all federally managed lands) are climbing at a staggering rate. I often ask myself lately why I'm still in this business, but having invested the best 23 years of my life in an honorable profession, enjoying the outdoors and the many good clients who keep coming back year after year, and especially being totally self-reliant make it all pretty hard to just give up and walk away from. Our backs are to the wall and we're not going to retreat any farther.

I know that chairman Springer and his task force have worked very hard at trying to address all the problems that face us. There are some items which I don't fully support, but since time is of the utmost importance in resolving this conflict, I urge you to do so expeditiously.

The bottom line is our resource which must be protected from exploitation. The game board is scheduled to deliberate from March 6 through the 22nd. It is essential that they know laws will be passed during this legislative session which will prevent a total collapse of the present guiding system. Without such assurances they will be forced to place restrictions on the taking of game in numerous critical areas of the state. And this, in turn, will jeopardize the contractual agreements we have signed with our clients.

As a final comment I'd like to recommend that the task force's proposal to re-name the presently licensed master guides and registered guides as Guide/Outfitters, be altered to continue issuance of a Master Guide/Outfitter license to those who are currently licensed as master guides and to allow others the opportunity to achieve the master status under present guidelines. After all, there are master and bachelor degrees issued at our universities and numerous other professions have masters as well as journeymen. I see no valid reason why I should be given a demotion that I did not deserve.

Thank you for your time and PLEASE, resolve this critical issue for once and for all.

I am an assistant guide on Kodiak and have worked for 3 years as one. Now with SB140 it lets any outfitter with no field experience take a test & become a registered guide which will flood an already overpopulated area, who will be competing with the guides who originally guided in a specific area for years & affecting the livelihood of many people who rely only on guiding as their livelihood.

My name is Mary Bishop. I represent myself only, although I am especially influenced by my activities as a board member of Alaska Fish & Wildlife Spyward — which you may recognize as the State's "crimestopper" program for fish & game violations.

I strongly support legislation like SB 140. I believe it's necessary to regulate all businesses that provide services to big game hunters.

I recently read that the illegal taking of wildlife resources is the 2nd largest illegal dollar grossing activity — 2nd only to drugs. It's an international industry 2nd only to drugs. I don't see Alaskans realize what a potential — or real — problem we have.

~~on a hand.~~

I strongly support our privilege to hunt — but every illegal or unethical activity related to hunting endangers that privilege. I believe legislation like this will aid our state's enforcement agency in its effort to keep tabs on what's going on out in the field. I think that is essential.

I have the following comments on this proposed Legislation:

1. The Big Game Commercial Services board should include representation from Private, Non-native landowners as well as consumer groups.
2. The Big Game Conservation Fee will be passed on to the hunter and will result in increased expense to the hunter. With the increase in license & tag fee's also being proposed will make too much of an increase in one year. This fee is due only if an animal is killed, However the increase fees will probably be charged to the hunter if he kills an animal or not.
3. Adding Mountain Goat to the list of species which a nonresident needs a guide is an obvious attempt to increase income to guides in those areas which have goats. Would an outfitted hunt provided by a licensed guide-outfitter but with out a guide being with you when you killed the animal qualify under this provision?
4. This bill adds additional regulation to the providers of these services. This will increase cost to the hunter and will result in fewer hunters in the state. Then the guides will want a non-resident quota for tags to insure ~~profitability~~ profitability for their business.
5. The Big Game Commercial Services Board should only be concerned with the licensing and regulating of providers of services to Big Game hunters. Let the Fish and Game regulate the wildlife ~~resource~~ resource. This would be to do away with restricted areas for guides. Fish and Game ~~should~~ should regulate the number of animals taken in each game management unit.
