Response ?

RECEIVED FEB 3 1989

HCR 64 SRB 401
Seward, Alaska 99664
January 28, 1989

Dear Senator Pourchot:

Because of an unusual interpretation of the Alaska Teachers' Retirement Law, I find myself seeking your help.

Any teacher with twenty years in the classroom, EITHER full-time or part-time, may retire. I, however, cannot retire because my twenty years of service are divided - I have taught ten years full-time and ten years part-time.

The Law defines part-time as at least 50% of a teaching day. I feel that my ten years of full-time (100%) added to my ten years of part-time (50%) should give me the service credit I need. I have been informed that my "100% years" can not be counted as "at least 50%". If I had taught 99% of a day instead of 100%, there would be no problem.

Someone who has taught part-time for 20 years has actually contributed 25% less to the retirement system than I, yet he can retire while I cannot. I am only asking for the same percentage of benefits. The "system" actually gains a 25% 'freebie' contribution from me if they give me a 20 year part-time retirement.

I left full-time teaching when my children were born; I returned to full-time teaching when they entered school. Many women in my profession have done the same - are we to be penalized because we and our school districts felt it was important we spend time with our young children? There are seven other women in the Seward schools with mixed time. Do we all lose the years we varied from full and part-time posts? I have been informed I have two choices - I can either put in TEN MORE years of part-time, or TEN MORE years of full-time. Why do I have to put in 30 years, when other need put in only 20?

Attached please find a copy of a letter from Shirley Forquer of Homer, Alaska. She is fighting the same battle. The letter has all of the information concerning steps she has taken.

Please support Senate Bill 14 as it comes before your body for consideration.

Dear NEA Delegate Assembly Member,

Prior to 1986, half-time teachers in the Teachers' Retirement System had to put two half-time years together to count for vesting and retirement. That meant that half-time teachers were not eligible for vestment until they had taught 16 years, and that they could not get the "20 and out" until they had taught for 40 years.

In 1985, HB 228 was introduced by Sund, Davis, Miller, et al. As I understand it, the wording in the original bill was such that it would have taken care of the problem we are up against now. Apparently due to financial consideration, the bill in its final form ended up reading as follows: "A member is eligible for a normal retirement if the member ... (7) has at least one-half year of membership as a part-time teacher for each of 20 school years."

Thinking that with my nine full-time years and eleven half-time years I would fulfill the "at least" provision of the bill, I inquired at TRS about my status. I was flatly denied, along with Sharon Traber of Seward who has 10 and 10.

TRS feels that the bill was passed to give teachers who made a "career" of half-time teaching a chance to retire. I have no quarrel with letting 20 year half-time teachers retire. I do not feel, however, that it is fair to deny the third category of career teachers the chance to retire. Anyone who has taught a combination of full and half years for 20 years in the State has put more time and money into the system than the 20 half-year people. TRS is telling us that we must double up our half-time years and teach anywhere from 25 to 30 years total to get the same right everyone else has at 20 years.

I have been working with Rep. Navarre and Swackhammer, and Sharon Traber has been working with Sen. Szymanski and ~~Duncan~~ Kertulla in trying to find a way to remedy this problem. I talked with Judy Salo on November 30 and she suggested that I write to the DA members so you would be sure to address the situation at Delegate Assembly in January. Following are some of the points that need to be considered.

1. TRS is in good monetary condition and should not be denying retirement to teachers who have put their time and money into the system.

2. To date (12/88) no one has become eligible to retire under the 20 half-year provision. Apparently only a tiny number of teachers will ever be eligible. Was it passed as someone's special interest bill?

3. Teachers with combination years are not asking to be paid the same monetary benefits as a 20 year full-time teacher -- only that we be given the right to retire in the same number of years as everyone else.

4. Our 20 years of combined time are just as "career worthy" as someone else's 20 full-time or half-time careers.

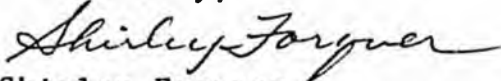

5. The word "part-time" in provision 7 of the retirement options effectively denies a teacher mobility in moving between half and full-time positions. For example, if a person teaches half-time for 15 years and suddenly finds themselves in the economic position of needing to teach full time (death of a spouse, divorce, spouse loses job, etc.) TRS would immediately cut their 15 years to $7\frac{1}{2}$ years of membership credit. By switching to full-time, the person would have to now teach $12\frac{1}{2}$ more years to take the 20 and out option. Otherwise, they would have to stay with the half-time position. If they switch, they will end up teaching $27\frac{1}{2}$ years for the 20 and out.

6. Someone who teaches for 10 full-time years first and then switches to half-time for whatever reason (raising a family, medical condition, etc.) is just as bad off. They would either have to keep teaching full-time, or teach 20 more years as a half-time teacher for a total of 30 years to fulfill the 20 and out provision.

If all the above sounds confusing, please believe it is to any teacher who has both full and half-time years in their career. It is also very frustrating, because option seven in AS 14.25.110(a) should not have done that to us. Getting a bill introduced with a simple word change is our best hope of curing this inequity.

Rest assured that the people at TRS are going to put up a fight. I strongly feel however, that we are being denied equal rights, and that they should be working for the people in their system instead of against them.

Yours truly,

Shirley Forquer

ACKNOWLEDGEMENTS

The 1987 Uniform Crime Report for the State of Alaska was compiled from data submitted to the Department of Public Safety from twenty-seven law enforcement agencies within Alaska. The excellent cooperation offered the Department of Public Safety by the Chiefs of Police and agency heads is gratefully acknowledged.

Special appreciation is extended to the Federal Bureau of Investigation, Uniform Crime Reporting Section for the assistance provided to the Alaska program.

UNIFORM CRIME REPORTING PROGRAM SUMMARY

The major source of data used to measure the trend and distribution of crime in Alaska is the Uniform Crime Reporting (UCR) Program. Under this program, monthly crime report data is collected from local law enforcement agencies statewide for the purpose of measuring the level of criminal activity within the state. Seven offense categories, selected because of their seriousness and frequency, have been defined as crime index offenses. The offenses of murder, forcible rape, robbery and aggravated assault comprise the violent crimes. The offenses of burglary, larceny/theft, and motor vehicle theft comprise the property crimes.

The UCR Program was established in 1930 by the International Association of Chiefs of Police (IACP) when the need was recognized for crime statistics through which they could gain a basic understanding of the nature and scope of the nation's crime problem. The FBI took over the responsibility of receiving, tabulating and publishing the crime statistics which are voluntarily submitted by police agencies.

The UCR statistics represent the basis for public awareness of crime and are the major source for a statistical understanding of the local and national crime problem.

The statistics are issued annually during the month of August by the FBI in the publication, Crime in the United States.

The Department of Public Safety was delegated the responsibility for the Alaska Uniform Crime statistical program effective June 1, 1982.

Be advised that the statistical data presented in this publication are based on definitions and guidelines mandated by the Federal Uniform Crime Reporting Program and not state or local guidelines/definitions.

ALASKA CRIME CLOCK 1987

one
CRIME INDEX
OFFENSE
every 19 min. 24 sec.

one
VIOLENT CRIME
every 3 hours 45 min.

one
PROPERTY CRIME
every 21 min. 13 sec.

one
MURDER
every 7 days 3 hours

one
FORCIBLE RAPE
every 26 hours 14 min.

one
ROBBERY
every 23 hours 14 min.

one
AGGRAVATED ASSAULT
every 5 hours 34 min.

one
BURGLARY
every 1 hour 46 min.

one
LARCENY - THEFT
every 30 min. 13 sec.

one
MOTOR VEHICLE THEFT
every 3 hours 35 min.

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

NEG. MANSLAUGHTER AND SIMPLE ASSAULTS ARE NOT INCLUDED IN THE UCR CRIME INDEX.

*BASED ON FEMALE POPULATION.

CRIME ANALYSIS - Alaska

Alaska experienced a significant decrease, 15.4%, in the total number of Crime Index offenses for 1987. Violent crimes - murder, forcible rape, robbery and aggravated assault - decreased overall by 21%, with murder experiencing the only increase, up 4.1%. The sharpest decline occurred in aggravated assaults, which dropped by 24.7% compared to 1986. The total property crime offenses - burglary, larceny/theft and motor vehicle theft - recorded its first decrease in five years, declining by 15.6%. Motor vehicle thefts had the highest reduction, 19.8%, with burglaries showing a comparable decrease of 18.8% over the previous year.

CRIME AND POPULATION IN ALASKA

The basic measurements used for crime statistics are the number of Part I crimes per population base. This crime index rate is the number of incidents or crimes per 100,000 inhabitants. Table I is a comparison of the total Part I crimes and rates for Alaska for the period 1983 through 1987. Table II shows the percentage of changes between 1986 and 1987 in the number of Part I crimes and in the crime index rate. Figure I is a graphical representation of the population growth, total Part I crimes and the total crime rate for Alaska for the 1983 through 1987 time period.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

No Alaska law enforcement officers were killed in 1987. This is the first time since 1981 that Alaska has experienced no law enforcement officers killed during a reporting year. During 1987, 207 police officers were assaulted compared to 239 in 1986. Of the officers assaulted in 1987, 39 (18.9%) sustained personal injury, primarily from hands, fists or feet of the assailant. Most assaults occurred to officers assigned to one-man vehicles, who were either alone or assisting other officers. Eighty-one percent of the police assaults were cleared by arrest.

MURDER

TREND

	<u>NUMBER OF OFFENSES</u>	<u>% CHANGE</u>	<u>RATE PER 100,000 % CHANGE</u>
1983	65		
1984	54	-17.0	-19.0
1985	52	-4.0	-5.0
1986	49	-6.0	-7.0
1987	51	+4.1	+5.5

Murder and non-negligent manslaughter, as defined in the Uniform Crime Program, is the willful (non-negligent) killing of one human being by another.

1987 SUMMARY

A total of 51 murders occurred in 1987. The number of murders increased 4.1% compared to 1986.

Murders accounted for 2.2% of all violent crimes and .18% of the total crime index. The murder rate in Alaska was 9.5 per 100,000 population.

The age group 25-29 had the largest number of offenders with 16%. Males made up 88% of the murder offenders.

Firearms were used in 61% of the murders, cutting instruments 12%, blunt objects 2%, other weapons 14%, strangulation 12%.

Victims in the age group 25-29 comprised 23% of those killed. White males in this age group were the most frequent victims. Relationships of murder victims to offenders within the family accounted for 22%, acquaintances 43%, strangers 6%, boyfriend/girlfriend 12%, ex-husband 2%, neighbor 4%, unknown 12%.

The most murders occurred in March and May with eight occurring for each month. June, August and November recorded the fewest murders with two reported for each month.

1987	333	-9.0%	-6.5%

Forcible rape, as defined in Uniform Crime Reporting, is the carnal knowledge of a female forcibly and against her will.

1987 SUMMARY

A total of 333 rapes were reported in 1987. This is an 9% decrease over the previous year.

Rapes accounted for 14% of all violent crimes and 1.2% of the total crime index. The number of rapes committed per 100,000 was 129 statewide.

Seventy-nine percent of the rapes were by force and 21% of the rapes reported were attempts to rape.

The age group of 25-29 accounted for the highest percentage of persons arrested for forcible rape with 31 percent.

The month showing the most frequent rapes was March with 35, and August had the lowest number with 19.

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or violence and/or by putting the victim in fear.

1987 SUMMARY

In 1987, 376 robberies took place in Alaska. During this year, robberies decreased 17.5% compared to 1986.

Robberies accounted for 16% of all violent crimes and 1.3% of the total crime index. The robbery rate in 1987 was 69.9 per 100,000.

The age group 30-34 accounted for the largest percentage of persons arrested for robbery with 15%. Males represented 95 percent of the total arrests made for this crime.

Strongarm robberies comprised 48% of robberies committed. Firearms were used in 32% of all robberies, cutting instruments in 13%, and other weapons 7%.

Most robberies that occurred were highway robberies, 40%, followed by 19% of the robberies occurring at commercial locations.

The greatest number of robberies occurred in December with 40 and the lowest number occurred in March with 17.
