.....

I am requesting the House State Affairs Committee schedule a hearing on House Bill 266 at their earliest convenience. HB 266 is a simple housekeeping measure. The bill affects a small number teachers caught in the phasing out of BIA schools in Alaska.

House Bill 266 passed of House HESS Committee on April 26, 1991.

Thank you for your consideration of this matter.

**SUBJECT: House Bill 266, An Act relating to Bureau of Indian Affairs contract employment.**

.....  
House Bill 266, an Act relating to the Bureau of Indian Affairs contract employment, will provide corrective measures for a small group of former Bureau of Indian Affairs staff members. In historical perspective, when the BIA was removing itself from providing educational opportunities in Alaska some areas of the state felt more comfortable with a known entity, the BIA, than with the replacement organization, REAA. In response, the BIA by contract to local school boards continued to operate for a period of time. The employees of the BIA contract schools were not incorporated in the roll-over to the state retirement system. HB 266 will allow approximately ten to fifteen teachers to pay into and use their contract BIA years for vesting purposes in the Teacher Retirement System.

I have enclosed a summary of a typical BIA contract situation presented by one of the affected teachers. I believe that the enclosed summary pretty succinctly states the inequities of the BIA contract dilemma.

The fiscal impact of HB 266 is so minimal that we are expecting a zero fiscal note.

Contact person for HB 266 is Tom Ackerly at 3779 in Capital 515.

Dear Ms. Smith,

I am writing to you out of frustration after speaking with several Retirement Field Representatives and corresponding with them over the past school year. My wife and I are in a unique situation and I need your help to sort this out as it is extremely important to us. Here is the situation.

In June of 1982 my wife and I were hired as full time certificated teachers for the Kashunamuit School District in Chevak, Alaska. When we arrived in the village we discovered that this public school was a BIA Contract School. The BIA financed the school and provided maintenance on the building but the local School Board ran the district. We taught in this district for three years.

In June of 1985 we moved to Trapper Creek, Alaska where we received employment in the Matanuska-Susitna Borough School District. At that time I inquired with the TRS to find out how to buy in the three years we had just spent in Chevak. I received a letter dated 5/6/86 from Beverly Reeves stating that I could buy the three years as BIA service. Several years passed before I decided to begin paying in to the TRS to buy these years.

My wife and I are currently employed with the Kenai Peninsula Borough School district and this past fall I decided we both should buy in these three years. I began making phone calls to the TRS and found out something very disturbing. They considered Chevak to be a private school.

AP 12 191 11:05 AM HI 207 182 4288

Not only would we have to purchase these years at the higher outside service rate but these three years would not count towards the twenty years of service needed to be eligible to retire nor towards the eight years of service it takes to become vested. It is this last part I find most difficult to accept.

Please understand that I am aware that there are rules and regulations that the TRS representatives are using to make this determination. This however does not stop me from believing that three years spent in an Alaska Public School should count towards the twenty that are required for retirement and towards the eight required for vesting. The issue of having to buy them at the outside service rate also seems unfair but would be tolerable if they applied towards the twenty or the eight. Do you feel that this is fair? I feel that this is a very small oversight affecting very few people in a system that in general does an outstanding job in its fairness and accuracy to its' members. It is an oversight because here is a group of Alaska teachers who have not been accommodated or rewarded for their service.

What can you do to help me? What can I do? Any help will be greatly appreciated. Your interest in and empathy to our situation will give us hope. Enclosed you will find copies of the related correspondence I have received from the TRS to facilitate your speedy understanding of the situation. Thank you in advance.

Dear Mr. Esposito:

Your frustration regarding your teaching service with Kashunamuit School District in Chevak, Alaska is understandable, although I have no latitude in this case.

The three years that you are claiming cannot be treated as Bureau of Indian Affairs (BIA) service since the Kashunamuit School District was under the Indian Reorganization Act from July 1, 1980 through June 30, 1985, and not operated by the BIA. According to Teacher's Retirement System statute, service for the Kashunamuit School must be treated as Alaska private school service and claimed as Outside Service.

You have claimed that the May 6, 1986 letter from Beverly Reeves stated that you could buy in the three years as BIA service. In reviewing the letter, it appears that Ms. Reeves was simply notifying you of your indebtedness amount plus interest for the "outside service and/or BIA service". Ms. Reeves is an accountant and as such, does not make the determinations of service qualification. She also recommended that you contact Caramel Walder, the Anchorage office supervisor, if you had any questions.

Since the TRS laws are very clear on this issue, it appears that the only remedy available to you is through statutory revision. I suggest that you contact your local legislative representatives and discuss any remedy with them.

Mr. Frederick Esposito

I can certainly sympathize with your circumstance, and wish you well in seeking a legislative solution.

Story line for reference in support of HB266

My wife and I were hired by the Kashunamuit School District in August 1982. This school district consisted of one K - 12 school located in Chevak, Alaska. At the time we were told that this district was a "BIA Contract" school district. When we inquired as to what that meant we were informed that simply referred to the fact that the BIA gave the people of Chevak the money to run their own school. The history ran like this:

Chevak had a BIA school for quite a number of years and felt very good and comfortable with the way the school was run. When, in the late 1970's, the BIA began to pull out of running schools in Alaska, Chevak and the villages of Cheforak and Tuluksak (K - 8 schools only) negotiated with the BIA an arrangement by which the villages could retain control over their schools while the BIA provided operating funds and building maintenance.

The village of Chevak elected a school board and the Kashunamuit School District was formed. The school district functioned as any other single site district in Alaska. The school board was publicly elected and they in turn hired a superintendent, office staff, cooks, teachers, and aids. The district applied for and received several grants through the Alaska Department of Education and received funds under several Title programs such as Title 2. Teachers with the school participated in state-wide, Alaska Department of Education sponsored inservices, workshops, programs, etc.. The Alaska Department of Education came out to the school and evaluated programs and curriculum as they would any other public school in Alaska. The district allowed all students in the attendance area to attend the school regardless of sex, creed, race, or religion and their hiring policy was the same.

This arrangement lasted until 1986 when the BIA announced they would not provide funds to operate the school for the following 1986-87 school year. At that time the school district lobbied for and received from the legislature funds to become an REAA school district. Lana and I left the school district in 1986 and subsequently became employed in the Kenai Peninsula Borough School District and still are. When we contacted the Teacher Retirement System about purchasing our three years spent teaching in Chevak we were informed in a letter from Sally Smith, TRS Director, that due to the fact that there were very few of these schools and that they were around for only a short period of time that the TRS had never included them. She indicated to me that the only way to correct this

oversight was through legislation which she encouraged me to do.

Currently there are 10 teachers in Alaska that I know would qualify to purchase these years should the legislation pass. I strongly encourage you to consider rectifying this situation which penalizes a few Alaskans for service in our rural Alaskan schools.

Dear Representative Navarre,

I would like to thank you for submitting HB 266 to the legislature for passage. This is a bill that greatly effects myself and my wife as we taught for three years in Chevak, Alaska while it was a BIA contract school. There is no reason why this service should not be covered by the Teachers Retirement System. These schools were public Alaskan schools subject to the same curriculum and graduation requirements as any other they just were funded 100% by the federal government. According to Jim Griffin, retired BIA Contract Officer, who over saw these contract schools they were no different than the BIA day schools which are covered by the TRS. Your efforts to correct this inequity in the system is greatly appreciated.

Mr. Navarre,

Please support H.B. 266.

I am writing to express my concern for the passage of this bill. Since I am directly affected by the outcome of this bill, I strongly urge you to also support this bill.

I taught in Chevak (Kashunimuit School District), from 1982-1984. At this time it was a BIA contracted school and not involved in the Teacher Retirement System of Alaska. The passage of H.B. 266, will very easily correct an unjust and unfair situation for a small amount of teachers who have taught in Alaska under a BIA contracted system.

Your interest and support in passing H.B. 266 is greatly appreciated.

Mr. Navarre,

I am writing to express my concern and support for H.B. 266. As I am directly effected by the outcome of this bill, I strongly urge you to also support this bill. For the past 4 years, I have been buying in my three teaching years from a B.I.A. contracted school. I taught in Chevak (Kashunimuit School District), from 1982-1985 and was under the impression from the Teacher Retirement System, that it was instate experience and will count toward years for retirement. Now I find out this is not true.

The passage of H.B. 266, will very easily correct an unjust and unfair situation for a small amount of teachers who have taught in Alaska under a BIA contracted system.

Your interest and support in passing H.B. 266 is greatly appreciated.

27 • Sec. 7. AS 26.15.160 is amended to read:

28 Sec. 26.15.160. EXTENSION OF CHAPTER TO MEMBERS OF THE ALASKA  
29 TERRITORIAL GUARD AND TO VETERANS OF KOREA AND VIET NAM. The  
30 provisions of this chapter, except those provisions relating to the payment of bonuses, are  
31 extended to persons who served in the Alaska Territorial Guard, who served other than

1 dishonorably on active duty between June 25, 1950, and January 31, 1955, who served other than  
2 dishonorably on active duty between August 4, 1964, and November 7, 1975, and to dependents  
3 of those persons, subject to the following provisions and eligibility qualifications.

4 (1) Persons are eligible

5 (A) who served in the Alaska Territorial Guard, who were discharged  
6 other than dishonorably from the armed forces of the United States, or who are released  
7 to a reserve component; and

8 (B) who at the time of entry into the service were bona fide residents of  
9 the territory or State of Alaska and had been residents of the territory or state for not less  
10 than one year before their entry into the service; and who have returned to the territory  
11 or state within a reasonable length of time after the end of their service in the Alaska  
12 Territorial Guard or their discharge or separation as residents with the intention of  
13 remaining in the territory or state; or who, not being bona fide residents of the territory  
14 before their entry into the service, have lived in the territory or state for at least five years  
15 following their release from active military service; and

16 (C) who served in the armed forces of the United States for 90 days or  
17 more, or whose service was for a lesser period because of injury or disability incurred in  
18 line of duty, between June 25, 1950, and January 31, 1955, or who served in the armed  
19 forces of the United States for 90 days or more or whose service was for a lesser period  
20 because of injury or disability incurred in line of duty, between August 4, 1964, and  
21 July 1, 1977, or who served in the Alaska Territorial Guard for 90 days or more or  
22 whose service in the Alaska Territorial Guard was for a lesser period because of  
23 injury or disability incurred in the line of duty.

24 (2) Persons are eligible who were dependent upon a member of the Alaska  
25 Territorial Guard or armed forces or upon a veteran, including persons who served in the  
26 Alaska Territorial Guard, eligible for the benefits of this chapter at the time of the member's  
27 or veteran's death if the member or veteran was a resident of the territory for one year before  
28 entry into service and died before November 5, 1975. Dependents must be unmarried and the  
29 deceased veteran or member of the armed forces must have been their chief means of support  
30 and they must be either a widow, widower, minor child, or a mother, father, sister, or brother

2 chapter may be exercised only if they have no surviving parent and have an appointed guardian  
3 who may apply on their behalf for the benefits of this chapter for their care, support, or  
4 education.

5 (3) A person who is eligible for veteran's benefits under the laws of any other  
6 state or territory is not eligible for the benefits of this section unless the person has lived in the  
7 state or territory for at least five years following the end of the person's service in the Alaska  
8 Territorial Guard or release from active military service. A World War II veteran who  
9 received a bonus under former AS 26.15.120 and former AS 26.15.150 need not repay the bonus  
10 in order to qualify under the loan provisions of this section.

11 (4) For persons otherwise eligible for the benefits under this section, who did not  
12 return to the state or territory within one year after the end of the persons' service in the  
13 Alaska Territorial Guard or separation from the service unless prevented from doing so for  
14 medical, educational, or other valid purposes approved by the Department of Commerce and  
15 Economic Development within one year after the end of the persons' service in the Alaska  
16 Territorial Guard or separation from the service, an additional requirement of four years'  
17 residence in the state or territory before their entry into the service is imposed to entitle them to  
18 the benefit provisions of this section.

The Territorial Guard consisted of approximately 4,500 members when it was dissolved in 1947.

In 1992, those people would range in age from 63 to 79 years of age. Using a straight line calculation, approximately 87.5 percent of the former members would be 65 years of age or older today. For that reason, the question of disability does not arise in that group, since they already qualify for the exemption program because of their age.

Of the remaining 12.5 percent (563) who could range in age from 63 to 64, we have made the following assumptions:

- (a) 60 percent own their own homes;
- (b) 20 percent reside in property-taxing jurisdictions;
- (c) 95 percent of the properties are taxable under federal law;

approximately 10 percent have a disability rating of 50 percent or more; and approximately 10 percent are widows between the ages of 60 and 65 (the factor of 20 percent results in 13 participants as noted below).

Each of the exemptions would equate to a property tax value of about \$1,000. The resulting computation would be 13 participants at \$1,000 for each exemption, or \$13,000.

This fiscal note assumes the Legislature would provide \$13,000 in additional funding for the program for fiscal years 1992 and 1993 (with the 10 percent inflation added for 1993). After that two year period, these remaining veterans will qualify as a result of their age, so no additional impact to the program is shown from that point on.

ANALYSIS: (Attach a separate page if necessary.) It is unknown how many former Territorial Guard members who are more than 50 percent disabled from their service are still alive and less than 60 years old, but is anticipated that the numbers are very small. While this bill may have some negative fiscal effect on ADP&G, it would be minimal.

House Special Committee on Military and

**DATE:** April 13, 1991

**RE:** Statutes Not Covered Under House Bill 271

This memorandum is in response to your query regarding the veteran benefits for Alaska Territorial Guard members which are not included in House Bill 271.

According to Legal Services, there are three specific statutes not included: AS 26.05.224, AS 26.05.295 and AS 26.05.296.

The first aforementioned statute, AS 26.05.224, refers to retirement benefits of active members of the Alaska National Guard or the Alaska Naval Militia. The Guard member has to have been on active Guard duty on or after January 1, 1969, while the Militia member on or after July 1, 1980, to be eligible for a retirement pension. This statute also refers to death benefits to a designated beneficiary of a member who had served at least five years with the Guard or the Militia. Territorial service is included when calculating eligibility for retirement benefits under AS 26.05.225.

AS 26.05.295 is the statute that allows for educational assistance to enlisted personnel in the Guard or Militia in accordance with the Military Service Act of 1967 (50 U.S.C. App. 451-456, 458-471) in Alaska educational facilities. Each active member of the Guard or Militia must complete at least six years of service to be fully eligible for this benefit.

The final statute, AS 26.05.296, allows the adjutant general to authorize the payment of not more than 50% of the cost of tuition and required fees for each active or retired member of the Guard or Militia who attends an educational, vocational or technical training school in Alaska. This is contingent upon available funding. This statute is not effective if other V.A. educational benefits are used.

**TO:** Representative Ivan Ivan  
Attn: Tom

**FROM:** Theresa L. Bannister <sup>tb</sup>  
Legislative Counsel

You have requested a sectional summary of the above described bill.

As a preliminary matter, note that a sectional summary of a bill should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents.

Section 1 includes under "veterans organizations" certain organizations that consist of persons who served in the Alaska Territorial Guard. This definition is in the chapter regulating games of chance and skill.

Section 2 authorizes persons who served in the Alaska Territorial Guard and were disabled to receive free resident hunting and sport fishing licenses, if they meet certain other listed conditions.

Section 3 defines "veteran" to include members of the Alaska Territorial Guard who satisfy certain criteria. This will enable those persons to qualify for certain housing benefits extended to veterans by the Alaska State Housing Authority.

Section 4 makes members of the Alaska Territorial Guard who satisfy certain criteria and their widows and widowers eligible for veterans' interest rates extended by the Alaska Housing Finance Corporation.

Section 5 defines "veteran" for AS 26.10.060 to include persons who served in the Alaska Territorial Guard.

Section 6 defines "veteran" for the chapter on veterans benefits to include a person who served in the Alaska Territorial Guard.

Representative Ivan Ivan

Section 7 extends AS 26.15 (except for the provisions in the chapter on the payment of bonuses), the chapter on veterans loans, to persons who served in the Alaska Territorial Guard and who satisfy certain other criteria.

Section 8 extends the special motor vehicle registration benefits for disabled persons to persons disabled in the line of duty while serving in the Alaska Territorial Guard.

Section 9 authorizes the Department of Public Safety to issue special registration veteran motor vehicle license plates to persons who served in the Alaska Territorial Guard.

Section 10 extends certain municipal tax exemptions for disabled veterans to persons who served in the Alaska Territorial Guard and who satisfy certain other criteria.

Section 11 authorizes a municipality to provide an additional real property exemption to persons who were disabled in the line of duty while serving in the Alaska Territorial Guard or to their widows or widowers.

Section 12 defines "veteran" to include persons with 90 days or more of service in the Alaska Territorial Guard. This change extends the veterans preference established under the section (restricted residential land sales for veterans) to these persons.

Section 13 extends the veterans' land discount for certain state land purchases to persons who served in the Alaska Territorial Guard, if they satisfy certain other criteria.

Section 14 extends the state employment preferences for veterans and disabled veterans to persons who served in the Alaska Territorial Guard and who meet certain other criteria.

Section 15 defines "veteran" for AS 44.35 to include a person who served in the Alaska Territorial Guard. Among other things, AS 44.35 establishes the duties and powers of the Department of Military and Veterans' Affairs and authorizes the construction of veterans memorials.

If I may be of further assistance, please advise.

## MEMORANDUM

TO: Representative Ivan M. Ivan

FROM: Dale O. Brandt *DB*  
Legislative Analyst

RE: Alaska Territorial Guard  
Research Request 91.238

You asked about the history of the Alaska Territorial Guard; when it was established, what it did and why it was disbanded. This subject is well chronicled in the 1969 book, *Men of the Tundra*, by "Muktuk" Marston, the nickname given to Major Marvin R. Marston by Eskimos under his command.

When Governor Gruening took office on December 5, 1939, there had never been a National Guard in Alaska. Due to increasing interest in national and territorial defense, he petitioned the War Department for authority to organize an Alaska National Guard. That came about in mid-1940 with the organization of the 1st Battalion, 297th Infantry. However, the Alaska National Guard was ordered into federal service on September 15, 1941, and sent to the lower 48 for training--three months before the bombing of Pearl Harbor.

With the integration of the Alaska National Guard into federal service, and therefore removed from the role of local defense, Governor Gruening obtained approval from the 77th Congress to establish the Alaska Territorial Guard. Under regulations prescribed by the Secretary of War, the Territorial Guard was to be organized through voluntary enlistments. Only spare arms and equipment would be made available for use. In 1942, at the request of the governor, Captain Carl Scheibner was assigned as military aide for the Ketchikan region and Major Marvin R. Marston was assigned the central and western regions.

Because of the vast unprotected western and northern Alaska coasts and Japanese activities on St. Lawrence Island in 1941, a Japanese invasion somewhere in that area was feared. In response to that threat, Major "Muktuk" Marston organized 3,000 Natives into Territorial Guard units. The population of Eskimos in Major Marston's forces outnumbered the Aleuts and Athapaskans about three to one. In a 1976 book, *The U.S. Army in Alaska*, by the 172nd Infantry Brigade, it is explained that the object was to have a homeland security force (in the absence of the Alaska National Guard) primarily to watch the long coastlines, pass warnings and assist the regular armed services in repelling enemy attacks.

Representative Ivan  
April 11, 1991  
Page 2

Calling on his previous arctic experience in Canada, Major Marston often travelled by dog sled from village to village to explain the threat of war to the Natives and ask for voluntary enlistment. Nearly all able-bodied men responded. Working without pay, and using spare WWI rifles and ammunition, the Natives of the Territorial Guard served throughout the war years.

Twenty years later, in 1966, the State of Alaska awarded service medals to all members of the Territorial Guard. Many members were deceased or could no longer be found, but efforts were made to present the awards to surviving family members.

In June 1942, the Japanese attacked Dutch Harbor and later captured the Aleutian outposts of Kiska and Attu. War in the Aleutians ended with the retaking of Kiska in August 1943. There were no other Japanese attacks against Alaska and there is no record of the Alaska Territorial Guard involved in enemy combat. The Japanese surrendered to the United States and its allies in August 1945.

On March 31, 1947, its wartime mission over, the Alaska Territorial Guard was disbanded by the U.S. Army, leaving Alaska without a guard unit.

In 1948, Governor Gruening asked the War Department to re-establish the Alaska National Guard. Although met with opposition from National Guard Headquarters, he insisted that the "tundra army" be included in the reorganization of guard units. In July 1949 the National Guard Bureau authorized the formation of two scout battalions in northern and western Alaska, where the Territorial Guard had served.

Many former Territorial Guardsmen became members of the newly formed Scout Battalions. Thus, the Alaska Territorial Guard was the forerunner to the "Eskimo Scout Battalions" which today consists of three battalions of Alaska National Guard units serving in the northern and western regions of Alaska.

### Alaska National Guard

On October 25, 1939, the Governor was authorized by the Secretary of War to organize two companies of the 297th Infantry, as the nucleus of the Alaska National Guard. Prior to organization, on July 23, 1940 the authorization was increased to four rifle companies, with a battalion headquarters and headquarters detachment, and a medical department detachment.

To assist in the organization, Headquarters of the Ninth Corps Area at San Francisco assigned an instructor who reported to the Governor on July 27, 1940, and the actual work was started. On August 5, 1940, the Governor designated an Adjutant General and assigned the companies and detachments to various towns in the Territory. Company commanders and junior officers were selected; recruiting was started and carried forward rapidly.

Company B, located at Ketchikan, was inspected for Federal recognition on September 17th. Company A, the First Battalion Headquarters Detachment, and the Medical Detachment, all in Juneau, were inspected on September 21. Company D, at Anchorage, qualified October 4, and Company C, at Fairbanks, on October 10. Within 30 days clothing and equipment of the latest type was being issued to the men; the battalion is now fully equipped. The battalion expects to be called into the Federal service for active training on September 15, 1941.

Temporary armories are being used in each of the four towns. They are not in accordance with Federal requirements, being neither fire-proof nor safe against pillage. In other ways they are also far from adequate, but will have to serve the purpose until proper buildings can be erected.

### Education

#### Alaska Historical Library and Museum

Valuable additions were made to both the library and the museum during the past year. First in importance was the purchase by the legislature of the library of the late James J. Wickersham, consisting of some 6,500 items of rare historical volumes, pamphlets and newspapers. With these additions, the Alaska Historical Library is now one of the finest sources of reference on Alaska history in existence. A photostatic copy of Russian stamps used during the occupation of Russian America was a welcome contribution.

### University of Alaska

The University of Alaska, at College, Alaska, offers 4-year bachelor degrees in the following fields: arts and letters, business administration, education, general science, home economics, metallurgical engineering, mining engineering. Five-year curricula leading to engineering degrees (C. E., E. M., Met. E., and Geol. E.) are also offered. Graduates who have satisfied the requirements for the annual commencement held on May 19 are conferred.

Preliminary curricula, not leading to degrees, are offered in nautical, agricultural, architectural, mechanical engineering, and in fisheries, forest management, and nursing. Short courses in mining and horticulture, winter, are open to all persons without regular qualifications. Mining extension classes are held by traveling instructors during 1940-41 in Anchorage, Juneau, Ketchikan, Sitka, Kodiak, Palmer, Richardson, and Nome, affording 5 weeks of instruction in the rudiments of geology and mining to 60 students at \$12 per person.

Enrollment in the various divisions of the University was as follows: College grade, 310; short courses, 637, making a grand total of 947, less duplicate enrollment in Agricultural Extension Institute.

Fees charged college grade students are: tuition, \$15.50; room rent, \$10 and \$12.50 per month for nonresident students, \$20 per semester. Tuition for students from Alaska. During 1940-41, 250 students enrolled as nonresidents.

Ninety students were enrolled in the Reserve Army pilot training program was

is closely allied with the experiment station program and is under the same director. During the past year, victory gardens, and projects in nutrition, sewing, handicraft, and canning were carried on in the Tanana valley as well as in some sections of southeastern Alaska. Boys and girls were enrolled in 4-H club work.

### AGRICULTURAL REHABILITATION CORPORATION

#### Matanuska Valley Project

Agriculture continued to expand in the valley, stimulated by the demand for farm products and the high prices. Expansion and improvement were noted especially in dairy farming, and the production of vegetables. Efforts are being made to increase production to meet war needs as farmers take advantage of the great demand, and to reduce indebtedness and build up their credit by saving themselves for whatever may come after

the war. The valley now totals approximately 6,000 acres under the administration of approximately 140 farms, of which about 4,000 acres are under culti-

The ARRC aids in the development of farming in the valley by maintaining reserve and emergency supplies of hay, feeds, seed, and fertilizer to meet unusual conditions, clearing additional land, making production loans to reliable farmers at a low rate of interest, maintaining farm machinery to grow reserve supplies of hay and feed on vacant tracts and to maintain wells, cooperating with the Farmers' Cooperating Association in securing the best possible marketing program and greatest returns to the farmers, advising farmers on agricultural, financial and personal problems, and in many other ways.

On June 30, 92 miles of electric line were under the control of the Matanuska Electric Association, Inc., the total number of patrons being 235. During the year an increase in consumption of 27.5 per cent was noted.

### ALASKA TERRITORIAL GUARD

The Alaska National Guard was federalized on September 12, 1941. With the outbreak of hostilities, the Governor sought legislative authority to organize an Alaska Territorial Guard and received it promptly through an act approved December 31, 1941 (Public No. 222, 77th Cong.). This law, drafted in conformity with the desires of the War Department, permitted through voluntary enlistments the organization of an Alaska Territorial Guard under such regulations as to discipline and training as the Secretary of War might prescribe.

At that time Alaska was evidently destined to be a combat area and it was the Governor's desire that as far as possible there be no non-combatants or passive spectators among the male population, but that everybody be prepared to resist an enemy invasion, should it take place. Although the Army and Navy were building up a vast defense force, there were still tremendous stretches of coast and interior throughout Alaska without protection by the armed services. Under these circumstances, it was felt that the Alaska Territorial Guard might render a valuable service in opposing the landing of enemy commandos, scouting parties or the entrance of espionage agents or saboteurs.

So the organization of the guard proceeded rapidly to the point where over 103 units have been organized, with an actual enrolled strength of approximately 4,200 men and 275 commissioned officers. In general, enrollments were confined to males of 16 or over, although in a few cases exceptions were made. The easternmost and southernmost unit is at Metlakatla, a village inhabited solely by Tsimshian Indians. The northernmost unit is at Barrow, where the population is principally Eskimo, with some mixed blood. The westernmost unit is at Gambell on St. Lawrence Island some 40 miles from the Siberian coast, where the population is wholly Eskimo.

### Social Security Administration

The Social Security Administration, formerly the Social Security  
Board, is a division of the Federal Security Agency, administered in  
Alaska by a Regional Director who maintains an office in Juneau.  
In Alaska, the Regional Director of the Social Security Adminis-  
tration acts as the representative of the Bureaus of Old-Age and Sur-  
vivors Insurance, Employment Security, and Public Assistance, and  
the Children's Bureau within the Territory, and supervises directly  
the operation of old-age and survivors insurance through a field office  
located within the Regional Office of the Social Security  
Administration.

During the year ending June 30, 1947, the cumulative total of Social  
Security account numbers issued in Alaska rose from 43,800 to 45,917.  
During the same period, approximately \$250,000 was paid to Alaska  
residents in the form of monthly benefits to wage earners and their  
wives, or to their surviving widows and children; and an additional  
amount approximating \$25,000 was paid in lump-sum benefits to the  
next of kin of deceased insured wage earners.

During the fiscal year 1946-47, a total of \$437,114.96 was received  
by the Territory for public assistance (old-age assistance, aid to de-  
pendent children and child welfare services) an increase of \$122,532.76  
or 38.9 percent over the grants for the preceding fiscal year.

The Social Security Administration also grants to the Unemploy-  
ment Compensation Commission such Federal funds as are approved  
by the Bureau of Employment Security to cover the entire cost of the  
administration of the Alaska Unemployment Compensation Law.

### TERRITORIAL GUARD

The Alaska Territorial Guard was automatically disbanded and all  
units deactivated as of March 31, 1947 as the 1947 territorial legislature  
provided no funds for its continuation.

By order of the War Department, all guard property was turned  
over to the Territory for disposal. The Governor of Alaska, by  
authority granted him by the Board of Administration, was placed  
in charge of the disposal of the property. Because of the loyalty and  
devotion of the guard members during the war, it was considered  
fitting that all rifles and clothing be turned over to the men as a token  
of the Territory's appreciation.
