

ALASKA LEGISLATURE COMMITTEE FILES 1993-1994 8672

7742 HOUSE • COMMUNITY & REGIONAL AFFAIRS •

\$100 to sign up and \$200 per year to lease the air our sign takes up. Now, I don't know about yourself, but that just seems to be incredibly ridiculous to us.

A hundred questions come to mind when hearing the order. How did the state get the authority to lease "air space" in the first place? How did they arrive at the cost of this rental? Did they just pick an arbitrary cost and apply it? These obviously are not the best of times but even the \$300 is not what is at issue. At issue is the legality of what is being done and what the reason might be for putting the extra burden on some small businesses, and for putting others out of business all together (removing signs from beside the road will surely have a negative and most likely fatal result to those not visible from the main highway.) Most of these targeted signs have been there long now are for ten years or more and have never been a problem as to safety or anything else and should be considered using the "grandfather rights" rule. I believe signs such as ours bothers no one and assist everyone involved. The owner wins because the sign draws business. The customer wins because they can see the sign and make a decisive decision to stop or not without having to jam on the brakes to make the turn. Nobody would have any problem removing signs that are some kind of hazard but this simply is not the case here. The amount of money the state can expect to make on this scam is so low in the bureaucratic scope of things one has to wonder what the reasoning was behind their fees for renting "air space".

In closing, I wish to thank you, in advance, for your time and, hopefully action, on a very unfair situation being forced upon small business owners. I eagerly await your reply.

Very sincerely,

Patricia M. Newman

cc. Representative Curt Menardo
Senator Jay Lerttula

Willow Area Community Organization, Inc.

Box 1027
Willow, Alaska 99688
Sponsors of
State Winter Carnival

Nov. 3, 1992

G. E. "Rick" Kauzlarich, ROW Agent
Central Division, DOT/PF
P. O. Box 196900
Anchorage, AK. 99519-6900

Dear Mr. Kauzlarich:

This is to acknowledge receipt of your letter R/W ID #216.153 dated October 5, 1992 and directed to the City of Willow. We would like to discuss three points.

1. There is no City of Willow. The property occupied by the Community Center and the Community Center itself is owned by the Matanuska-Susitna Borough. A notice to "Owner" should properly be directed to the Borough.
2. "Community Center" is not a business. We believe that our sign is a directional sign within the meaning of AS 19.25.105(a)(1) and CFR Title 23, Subpart B.

Because of these two facts, we believe that notice was not properly given pursuant to AS 19.25.230 and DOT/PF Policy and Procedures #10-0020 effective April 1, 1984 and that removal of the signs is not authorized by law.

3. Your attachments to the letter noted that the right-of-way is 200' wide and that our signs are 60 & 64 feet from the center of the highway. Do you have any information as to the location of the highway within the ROW? If the highway is as little as 40 feet east of the center line of the ROW, our signs are not on the ROW.

Willow Area Community Organization, manager of the Community Center under agreement with the Borough is a non-profit organization. We have been unable to find anything in the information enclosed with your letter that deals with non-business, non-profit leases. On the assumption that the definition of "State Lands" found in AS 38.05.965(19) is valid, we would like to apply for a lease under the provisions of AS 38.05.810 if we are in fact occupying any part of the ROW. Please forward the necessary paperwork if a more formal application is needed.

We regret the lateness of this response, but our Board of Directors meets only monthly - on the first Monday of every month - and Nov. 2 was the first meeting following receipt of your letter. Our next meeting is December 7, 1992 and we would be pleased to have you join us. We meet in the Community Center at 7:00 PM.

Yours truly,

Bill Lorentzen, Chair

Willow Trading Post Lodge

Box 49

Willow, Alaska 99688

Phone: 1-907-495-6457

Dear Representative Menard,

You and your fellow legislators hold in your hands the fate of my business and many others similarly situated.

Enforcement by the DOT of Alaska sign law has removed all distinctive directional signs to the Willow Trading Post Lodge which is situated about 1/2 mile from the Parks Highway on a road which also has the Post Office and other businesses. Since the loss of my sign, my business has declined and I relate it directly to potential customer inability to locate my business. I have installed a TODS sign according to DOT requirements but it is nearly totally ineffective because it is lost in the number of signs at the intersection. Also, the TODS sign can only carry one symbol and we offer six additional services.

The cure for this situation is not very difficult. All we need to do is amend Alaska law to conform with Federal law and regulations, then adopt reasonable State regulations that will preserve our scenic beauty without imposing a penalty on businesses without highway frontage.

House Bill 26 pre-filed by Rep. Menard will accomplish that. I urge your support for the bill and encourage you to do anything you can to accomplish its early passage. Please write or call if I can give you any additional information.

I have sent this letter to each senator + Representative - This lack of a visible sign is killing us - Where is help for business off the highway - This does not cost a cent more.

Sincerely Yours Helen Traker

350 EAST DAHLIA AVE, PALMER, ALASKA 99645-6488 • PHONE 745-9682
BOROUGH MAYOR

August 27, 1991

Frank Turpin, Commissioner
Department of Transportation
P.O. Box Z
Juneau, AK. 99811

Dear Commissioner Turpin:

I very much appreciate your action in extending the deadline for sign removal on the Parks Highway between Willow and the Susitna River.

I also appreciate your willingness to look at some alternate solutions for the problem of complying with federal interstate highway signing regulations as applied to a rural highway in Alaska. I would like to offer some comments.

First, there are some exceptions to federal regulation of highway signage. Right of way acquired prior to July 1, 1956 appears to be exempt and I am sure that large portions of our system were acquired by withdrawal from the federal public domain prior to that date. Subpart G or Part 750 of the Code of Federal Regulations exempts Federal Aid Secondary and Urban Highways from regulation. It also provides for state or local regulation of areas within commercial or industrial parts of the system, provided that the cognizant governments enter into an agreement with the Federal Highway Administrator.

I would suggest that you seek to revise that agreement to accomplish some much needed improvement in our regulatory scheme.

It appears that there are three categories of sign that your department deals with that provide the most problems: 1. Signs from owners of businesses fronting on the highway, but where the right of way growth obscures the business; 2. Signs directing traffic to off-highway businesses; and 3. Temporary signs, primarily for political campaigns. I have some suggestions as to how these might be handled.

First, the owners of businesses obscured by right of way growth are told by your department to just clear out the brush in order to become visible. This is impractical because in many cases the right of way is 300 feet or more wide. I suggest that you could

Frank Turpin, Commissioner
Page Two
August 27, 1991

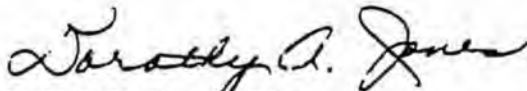

adopt regulations which would grant a blanket permit for such abutting owners to place signs at the edge of the maintained area but not closer than say 50' to the center line. Such signs would have to be removed by the owner in the event the highway were widened.

The off-highway businesses were addressed by the Motorist Information Signing Task Force in the final report dated May, 1989. Among their recommendations were adoption of the "LOGOS" program, need for an urban area sign program, development of information kiosks at appropriate waysides, and a need for "well-regulated advertising to the extent allowed by federal statutes and regulations" visible from the roadway but not located at the place of business. A re-negotiated agreement with the FHA could address many of these by redefining urban areas to include all developed areas along the highway system. Since the current agreement pre-dates extensive borough formation, it might be appropriate to delegate to those boroughs who wish the authority, the ability to regulate highway signs within their boundaries.

Temporary signs such as political advertising could be dealt with by a permit requirement. Permittees could be required to post a bond guaranteeing removal of the signs after the election. Unpermitted signs could be removed when seen and permitted signs could be removed after a specific number of days following the election with the costs of such removal deducted from the bond.

I am aware that this involves a substantial change in your departments approach to regulation of highway signage, including changes in regulations and law but I feel the benefits to be gained are well worth the effort. The Matanuska-Susitna Borough and I personally look forward to working with you on this continuing problem.

Sincerely,

Dorothy A. Jones
Borough Mayor

CS FOR HOUSE BILL NO. 30 ()
IN THE LEGISLATURE OF THE STATE OF ALASKA
EIGHTEENTH LEGISLATURE - FIRST SESSION

BY

Offered:

Referred:

Sponsor(s): REPRESENTATIVES BRICE, Sitton, Therriault

A BILL

FOR AN ACT ENTITLED

1 "An Act amending the definition of 'municipality' for purposes of the human
2 services community matching grant program."

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

4 * Section 1. AS 29.60.600 is amended by adding a new subsection to read:

5 (c) A city may not receive a human services matching grant during a fiscal
6 year to provide a specific service if, during that same year, the borough within which
7 it is located has received a grant for the same service. A borough may not receive a
8 grant during a fiscal year to provide a particular service if, during that same year, a
9 city within the borough has received a grant for the same service.

10 * Sec. 2. AS 29.60.650(2) is amended to read:

11 (2) "municipality" means a (A) city whose population is over 20,000;
12 (B) [, AS DETERMINED BY THE DEPARTMENT OF COMMUNITY AND
13 REGIONAL AFFAIRS, OR A] unified municipality whose population is over 100,000;
14 or (C) second class borough whose population is over 65,000; population for

ALASKA STATE LEGISLATURE

Sponsor Statement

With the passage of HB 263 last session, a statutory basis was established for the Human Services Community Matching Grant Program. The intent of HB 263 was not to create a new pool of money but to define the grant program in statute and establish a community match. This was done to help stabilize funding for local non-profit organizations which provide valuable services to the community.

Due to the match required, it became evident that the local non-profit organizations couldn't raise the necessary funds. This placed the city of Fairbanks, which was already facing fiscal problems, in a difficult position because they couldn't come up with the matching funds either. The question was then placed before the Fairbanks North Star Borough Assembly for discussion. A resolution by the Assembly was passed which asked the voters of the Fairbanks North Star Borough to decide whether or not to assume health and social service powers. The resolution was vetoed. One issue raised was the short timeline between the resolution's passage and the election. Another was that the borough would not be eligible to participate in the block grant program even if it did assume health and social service powers. HB 263 had established strict eligibility requirements to allow only cities with populations greater than 20,000 and first class boroughs with populations greater than 100,000 to participate.

HB 30 would amend the definition of municipality to include a second class borough with a population that exceeds 65,000. The Fairbanks North Star Borough will be the only municipality that will be affected by this change, allowing the borough to participate in the block grant program.

Currently, it is a statutory requirement that if a city within a borough has an approved grant for an areawide service, then the allocation shall be based on the population of the borough (see AS 29.60.620). This is the case for all block grant monies received to date by the city of Fairbanks.

MEMORANDUM

February 4, 1993

SUBJECT: Human Services Matching Grant Program. (HB 30)

TO: Representative Harley Olberg
Chair, House Community and Regional Affairs Committee

FROM: Tamara Brandt Cook
Director *TBC*

Here is the sectional summary that you requested of HB 30.

Sec. 1. The Human Services Matching Grant Program makes grants available to certain municipalities. This bill amends the definition of "municipality" for purposes of applying the grant statutes, and, thereby, changes the local governments that may qualify for grants. Municipalities that qualify under existing law remain eligible for grants. This bill adds a new category of eligible municipalities--second class boroughs with populations over 65,000.

SECTIONAL ANALYSIS

STATE OF ALASKA
DEPARTMENT OF COMMUNITY
& REGIONAL AFFAIRS

POSITION PAPER

Bill No.: HB 30 by Representative Brice

Title: An Act amending the definition of "municipality" for purposes of the human services community matching grant program.

This legislation amends AS 29.60.650(2) to include second class boroughs whose population is over 65,000, as per DCRA population data. Effectively, HB 30 adds an eligible applicant for this grant program administered by the department of health and social services, to include the Fairbanks North Star Borough.

Eligible applicants under this program would increase from the current two (2), the Municipality of Anchorage and the City of Fairbanks, to three (3). The three eligible municipalities under this bill are the municipality of Anchorage, the city of Fairbanks and the Fairbanks North Star Borough.

The sponsor has indicated the intent to offer a committee substitute for consideration, that would preclude a possible "double dipping" scenario. This could occur under the present version of HB 30 if both the city of Fairbanks and the Fairbanks North Star Borough successfully apply for grant funding to DHSS.

DCRA Fiscal Impact: Zero (Fiscal Note Attached)

DCRA Position: Neutral

POSITION PAPER

Official Business

Alaska State Legislature

HOUSE OF REPRESENTATIVES

State Capitol
Juneau, AK 99801-1182

Explanation of Committee Substitute for HB 30

The definition of municipality for the purposes of the block grant program currently includes a city whose population exceeds 20,000 or a unified municipality whose population exceeds 100,000. CSHB 30 amends the definition of municipality to include a second class borough whose population exceeds 65,000. The definition of municipality is in section 2 of the committee substitute and does not differ from the original bill. This change will make the Fairbanks North Star Borough eligible to participate in the block grant program.

Because this change will make both the city of Fairbanks and the Fairbanks North Star Borough eligible for participation in the block grant program, there is a need to include language in the bill which would prevent both local government entities from receiving grants from the state for the same service in the same year.

Section 1 of CSHB 30 would prevent a city from receiving a grant if the borough in which the city is located has received a grant for the same service in the same year. Likewise, the committee substitute would prevent a borough from receiving a grant if a city located in the borough has received a grant for the same service in the same year.

**Human Services Community
Matching Grant Programs**
(definition of "municipality")

HOUSE BILL NO. 30, by Reps. BRICE, Sitton, Therriault, Davies, James. Redefines "municipality" for purposes of the human services community matching grant program. The term will be defined to mean: "... 'municipality' means a city whose population is over 20,000, a unified municipality whose population is over 100,000, or a second class borough whose population is over 65,000; population for purposes of this paragraph shall be determined by the Department of Community and Regional Affairs."

Under current law the term is defined to mean "...a city whose population is over 20,000 as determined by the Department of Community and Regional Affairs, or a unified municipality whose population is over 100,000 as determined by the Department of Community and Regional Affairs."

If enacted, the bill becomes law 90 days after it is signed by the Governor.

Introduced January 11, 1993 and referred to the Community and Regional Affairs Committee, the Health, Education and Social Services Committee, and the Finance Committee.

DEAF COMMUNITY SERVICES

Serving deaf & hard-of-hearing people in Interior Alaska.

January 22, 1993

Representative Tom Brice
House of Representatives
State Capitol
Juneau, AK 99801-1182

Dear Tom:

As a human service provider and director of a small nonprofit agency here in the Fairbanks community I am in full support of House Bill #30 which proposes to amend the definition of a municipality for the purpose of human services matching grant funds. It is very obvious to us in the service providing community that although we are located physically within the Fairbanks City limits our services are provided to individuals throughout our borough and interior region regardless of residential location. In light of this I feel it is appropriate to consider the borough a municipality therefore allowing them to adopt health and social services responsibilities. This will more accurately reflect the population that benefits from the services that we provide.

We would be happy to entertain any questions that you may have regarding the scope or nature of the services that we provide and the population range that we serve. Again I strongly support the House Bill #30 to amend the definition of a municipality.

Yours truly,

A handwritten signature in cursive script that reads "Dan LaBrosse".

3 February 1993

Dear Representative Brice:

Fairbanks Resource Agency (FRA) wholeheartedly supports House Bill (HB) 30, which you have introduced, entitled "An Act amending the definition of 'municipality' for purposes of the human services community matching grant program."

Under the new proposed definition of 'municipality' as a "second class borough whose population is over 65,000," HB 30 will give the Fairbanks North Star Borough the opportunity to provide the community matching funds required for the human services grant program. In making the borough eligible for the "block" grant program, HB 30 will ease the difficulty previously faced by local non-profits and the city of Fairbanks in securing the match for the grant.

Many of our local human service agencies depend on grant funding for operational costs of their much-needed programs. HB 30 will provide assurance that these services will be maintained by giving opportunity to the borough or to the city to secure the matching funds, based on which entity is more fiscally able to do so at the time of the grant allocation.

We support HB 30 as an important legislative action which will assist in assuring a greater quality of life in our city and borough, as community human services are supported by adequate funding.

Sincerely,

Emily F. Ennis
Executive Director

Service in Fairbanks since 1951

February 3, 1993

Dear Representative Brice:

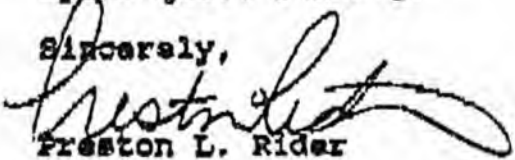

Thank you for introducing House Bill 30 in the legislature of the State of Alaska. The Salvation Army of Fairbanks wholeheartedly supports this bill.

We understand that under the new proposed definition of 'municipality' as a "second class borough whose population is over 65,000," HB 30 will give the Fairbanks North Star Borough the opportunity to provide the community matching funds required for the human services grant program. In making the borough eligible for the "block" grant program, HB30 will ease the difficulty previously faced by local non-profits and the city of Fairbanks in securing the matching funds needed for the grant.

As one of the many local human service providers who depend upon these grant funds for operational costs, I can attest to the necessity of these funds for our community. HB30 will provide assurance that these services will be maintained by giving opportunity to the borough or to the city to secure the matching funds, based on which entity is more fiscally able to do so at the time of the grant allocation.

We support HB30 as an important legislative action which will assist in meeting the needs of people who live in our city and borough, as community human services are supported by adequate funding.

Sincerely,

Preston L. Rider

RESOLUTION NO. 3370

A RESOLUTION SUPPORTING HOUSE BILL 30
RELATING TO THE DEFINITION OF "MUNICIPALITY"
FOR PURPOSES OF THE HUMAN SERVICES COMMUNITY
MATCHING GRANT PROGRAM.

WHEREAS, the Alaska State Legislature in adopting 1
Ch. 74 SLA 1992, established the "Human Services Grant Program";
and

WHEREAS, the City of Fairbanks currently has health
and social services powers and serves not only the residents of the
City of Fairbanks, but also the residents of the Fairbanks North
Star Borough and, in some cases, residents of Interior Alaska; and

WHEREAS, many State and Federal grants are based on
the population of the municipality exercising health and social
services powers and not the population served; and

WHEREAS, the Fairbanks North Star Borough Assembly
has established a Health and Social Services Committee to make
recommendations to the Assembly and the voters on the assumption of
Borough-wide health and social services powers and if adoption of
those powers is submitted and approved by Borough voters, it will
be the desire of the Fairbanks North Star Borough Assembly to
exercise health and social services powers, which would allow
health and social services agencies and the Municipality to receive
grant moneys and provide more services to the residents of the
entire Fairbanks North Star Borough; and

WHEREAS, under 1 Ch. 74 SLA 1992, the definition of
"municipality" means "a city whose population is over 20,000, as
determined by the Department of Community and Regional Affairs",
and under that definition, the Fairbanks North Star Borough would
not qualify for a human services community match program; and

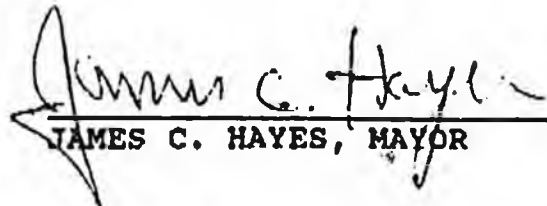

WHEREAS, House Bill No. 30 amends the definition
section of AS 29.60.600-650 by including "a second class Borough

whose population is over 65,000.....", thus making the Fairbanks North Star Borough eligible for the Human Services Community Matching Grant Program.

NOW, THEREFORE, BE IT RESOLVED that the Fairbanks City Council respectfully urges the Alaska State Legislature to pass HB 30 in order to make the Borough eligible for the matching grants which would allow more services to be provided for the Borough and Interior Alaska residents.

BE IT FURTHER RESOLVED that copies of this Resolution shall be sent to the Honorable Walter J. Hickel, Governor, State of Alaska, the Honorable Harley Olberg, Chair, House Community and Regional Affairs Committee, the Honorable Con Bunde and the Honorable Cynthia Toohy, Co-Chairs, House Health and Social Services Committee; The Honorable Ron Larson and The Honorable Eileen MacLean, Co-Chairs, House Finance Committee, and all members of the Interior Delegation.

PASSED and APPROVED this 25th day of January, 1993.

ARTICLE 8. Human Services Community Match Program.

Section

- | | |
|---|--------------------------|
| 600. Human services community matching grants | 620. Allocation of money |
| 610. Grant procedure; contract | 650. Definitions |

Sec. 29.60.600. Human services community matching grants. (a) Within the limits of appropriations for the purpose, the Department of Health and Social Services shall, upon application, make a matching grant to a qualified municipality equal to 50 percent of the estimated reasonable costs of providing essential human services through private nonprofit agencies within the municipality, including services to persons who travel to the municipality from their residences elsewhere in the state.

(b) To qualify for a grant under this section, a municipality is required to

(1) provide the same amount of money from other sources as is provided by the state grant under this section for the services; other sources may include federal or municipal money or money from other private or public sources; in this paragraph, "municipal money" includes money derived from appropriations, allocations, entitlements, grants, or other payments from the state other than the state grant under this section but does not include locally contributed staff hours, material, equipment, or other in-kind contributions;

(2) comply with the grant application procedure and contractual agreements under AS 29.60.610; and

(3) establish and consult with a citizens' advisory group, the majority of whose membership consists of persons who do not hold elected municipal office, concerning priorities and allocations among services funded under this section.

Sec. 29.60.610. Grant procedure; contract. (a) If a qualified municipality wishes to apply for a grant under AS 29.60.600, the municipality shall apply for a grant for a fiscal year by submitting a form prescribed by the commissioner of health and social services before October 1 of the preceding fiscal year. The application must generally describe the services that are proposed to be funded with the grant and include the following information:

(1) a statement that each proposed service will meet the goals established under AS 47.75.010 and an explanation of why the service is necessary to prevent or alleviate serious mental or physical hardship; this explanation must be supported by a needs assessment carried out by the municipality;

(2) a description of the categories of individuals to whom the services are to be provided; and

(3) an estimate of the expenditures required for each of the services to be provided.

(b) A human services community matching grant shall be allotted in accordance with an agreement made between the grantee and the commissioner of health and social services on behalf of the state. The agreement may include any provision agreed upon by the parties and must include the following provisions:

(1) a statement by the grantee that the match requirement of AS 29.60.600 has been met by the grantee;

(2) estimates of reasonable costs of funding the services; and

(3) a requirement that no more than five percent of the grant money received under AS 29.60.600 may be used for municipal administrative costs connected with distributing the grant money to the private nonprofit agencies providing the services.

Sec. 29.60.620. Allocation of money. (a) If the amount of money appropriated by the legislature for human services community matching grants under AS 29.60.600 is not adequate to satisfy amounts required for the qualified municipalities who have applied for grants, the money shall be allocated proportionately among the qualified municipalities for which a grant has been approved under AS 29.60.600 - 29.60.650 based on the relationship the population of each municipality bears to the total population of the qualified municipalities for which a grant has been approved under AS 29.60.600 - 29.60.650.

(b) For purposes of (a) of this section, population shall be determined by the Department of Community and Regional Affairs based on the latest figures of the United States Bureau of the Census or other reliable population data. If a city within a borough has an approved grant for a service to be provided on an areawide basis, the allocation under (a) of this section shall be based on the population of the borough.

Sec. 29.60.650. Definitions. In AS 29.60.600 - 29.60.650,

(1) "essential human services" and "services" have the meaning given "social services" in AS 47.75.060 except that they include only services whose unavailability would subject persons needing the services to serious mental or physical hardship;

(2) "municipality" means a city whose population is over 20,000, as determined by the Department of Community and Regional Affairs, or a unified municipality whose population is over 100,000, as determined by the Department of Community and Regional Affairs.

MEMORANDUM

March 22, 1993

SUBJECT: Sectional Summary of HB 32

TO: Representative Harley Olberg

FROM: Michael F. Ford *M.F.*
Legislative Counsel

You have requested a sectional summary of the above-described bill.

As a preliminary matter, note that a sectional summary of a bill should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents. If you would like an interpretation of the bill as it may apply to a particular set of circumstances, please advise.

Section 1. Requires the state to reimburse a municipality that is a school district for 70 percent of payments made by the municipality to retire certain school construction bonds authorized by voters after March 30, 1990, and for 70 percent of certain cash payments made for the costs of school construction and for school rehabilitation projects that exceed \$50,000.

Section 2. Requires the Department of Education to evaluate school construction projects for which retirement of debt is requested. Requires the department to consider certain specified factors in evaluating a project.

Section 3. Effective date.

SPONSOR STATEMENT HOUSE BILL 32

School districts all over Alaska have experienced significant increases in student enrollment over the past several years causing severe overcrowding problems in many schools. The current system of prioritizing school construction does not meet the needs of many of these districts to build new schools.

House Bill 37, which passed during the Sixteenth Legislature in 1989, provided a new approach to school construction in an attempt to avoid escalation of bonded indebtedness for schools. This legislation established a priority system for school construction by which the Department of Education prioritized according to greatest need statewide. There was a commitment made to fully fund prior debt service retirement, which was not kept. Under this new system, rural schools have continuously dominated the list.

House Bill 32 would reinstate debt service retirement for school construction bonds under AS 14.11.100. The state would reimburse a municipality 70 percent of payments made by that municipality during the fiscal year for the retirement of principal and interest on bonds or other indebtedness authorized by voters after March, 1990. These payments would include costs of new school construction, as well as additions to schools and rehabilitation projects that are over \$50,000 and that are approved by the Department of Education.

The bill would also require the Department of Education to evaluate requests for reimbursement. The criteria would consist of a combination of both the old and new systems for evaluation of school construction needs, thus providing a fair and equitable system for school districts throughout the state.

FISCAL NOTE HB 32

"An Act relating to reimbursement of school construction debt; and providing for an effective date."

This bill will enable municipalities throughout the State to construct much needed school facilities for a burgeoning unhoused student population and to correct safety hazards and code deficiencies in aging facilities. It is certain that this will result in a large number of requests for approval of school construction projects which will place an additional burden on the Facilities Section in both clerical and administrative requirements. While it may reduce the number of requests for grants through AS14.11.011 from the larger municipalities, it is likely that they will continue to seek grant funds depending on their current bond debt and fiscal obligations. Additionally, smaller municipalities, whose ability to bond is restricted or nonexistent and whose cash flow will enable them only limited use of the cash reimbursement process, will still seek State aid through the grant process. It is impossible to predict the State liability in FY94 and beyond under HB 32.

This bill will require additional time at the administrative level in order to ensure compliance with the regulations and fiscal accountability. Though regulations are in place to govern administration of this program, in order to exercise some control over the State's obligation for debt, regulations should be revised to limit the term of eligibility. In addition, the amendment to AS 14.11.102 would require development of regulations regarding evaluation of projects to include education programs. Necessary review of project plans and on-site reviews to determine eligibility and compliance will increase administrative travel requirements. Funds will be required for travel.

It is anticipated that participation by the Department of Law will increase. Historically, this program has created a need for legal services related to interpretation of the statute and regulations, project eligibility, and the discrepancy between full funding through the grant program and partial funding through the debt retirement process. Funds will be required for contractual services.

One additional position is necessary to ensure compliance with this legislation. Personal services costs are assumed to increase 3% per year after the first year. Equipment costs are \$9.0 the first year and \$1.5 for replacement thereafter.

Funding for the CIP Overhead and Associated Costs component will be based upon a percentage charge from the school construction grant account and inter-agency receipts originating from the Alaska debt retirement fund.

SPONSOR STATEMENT
BY REPRESENTATIVE CURT MENARD
FOR HB 34, SNOWMOBILE REGISTRATION TAX

I introduced HB 34 at the request of the snowmobile owners in my area. The Mat-Su Motor Musers are concerned about theft of snowmobiles and would also like more recreational trails for snowmobiles built.

The Sponsor Substitute adds in a provision that provides for titles for snow vehicles (snowmobiles). Having titles for snow machines should help owners track stolen snow vehicles. Without a title, it is difficult to prove ownership. The Alaska Department of Public Safety, Division of Motor Vehicles would administer the titling of snow vehicles in the same manner as other motor vehicles.

The bill has a provision that allows for a snow vehicle exemption from municipal personal property tax since it isn't my intention to have owners paying two taxes on their snow vehicles. The registration tax schedule is modeled after the current tax on motorcycles and would be administered in the same manner.

The registration tax would only apply to municipalities that pass an ordinance to create the registration tax. This allows municipalities local control over taxation.

Establishing the number of snow vehicles in the Mat-Su or other regions could help local groups obtain Symms National Recreational Trail funding. Right now it is difficult to assess the actual number of snow vehicles in any given area, so it is difficult to obtain recreational trail monies.

I would appreciate your support for this bill.

BILL NO: SSHB 34

DATE: March 6, 1993

TITLE: "An Act relating to a registration tax and a certificate of title for a snow vehicle. . ."

CONTACT: C.E. Swackhammer
Deputy Commissioner
465-4322

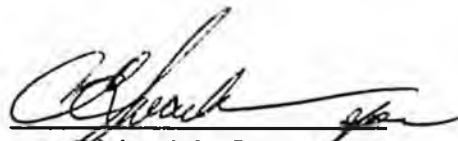

SSHB 34 would require the issuance of a title for all snowmachines and would include snowmachines in the Municipal Vehicle Registration Tax (MVRT) program. In the MVRT program the Division of Motor Vehicles collects a tax that is in lieu of the personal property tax collected by a local government. The tax revenue is returned to the local government, less 5% for collection costs.

The Department of Public Safety is opposed to this bill in its present form, however, this position could be changed to neutral if the titling provisions of the bill were removed.

Snowmachine groups have proposed titling of snowmachines so that owners would have a state document to prove ownership and the information would be available to police agencies to deter theft, but this capability already exists. Registration of snowmachines is now required by law and those owners who comply with the law are issued a registration document. The information on the owner and the snowmachine is maintained on the Alaska Public Safety Information Network (APSIN) in the same manner as other vehicle information so that it is available to any police agency in case the snowmachine is stolen. This current system satisfies most of the concerns that the snowmachine groups have raised on this issue. The Department recognizes that compliance with this law is very low however a change from a registration requirement to a title requirement will not change the compliance level.

The Department could implement the MVRT provisions with few problems since a system is already in place for regular vehicles. The Department recognizes that there is concern from citizen groups over the differences charged under the MVRT program for registered vehicles and the mil rate charged for personal property by local governments. The department believes that the level of taxation is best determined by the legislative bodies. The department can implement the system proposed in the bill.

The Department is completely neutral on the tax issue but we do not feel the title provisions should be included to support a need for a tax change. This is especially true when other alternatives are already in place. The Department recommends that the title provisions be deleted from the bill and only the tax and registration issues be addressed.

Richard L. Burton
Commissioner

SSHB 34 requires that all owners of snowmachines in the state obtain a certificate of title. Current law requires only that these vehicles be registered if they are operated on public property. In 1992 there were 7,181 snowmachines registered. However, this does not reflect the true number of snowmachines in the state, since there is very little enforcement on this requirement, especially in the bush areas. Estimates from industry indicate that there are approximately 25,000 snowmachines in the state. The Division believes this is a more accurate number and this figure will be used as the basis for estimating costs and revenue.

OPERATING COSTS

The division currently has a system in place to collect the registration tax for motor vehicles. Snowmachine registration information is contained on the same system as vehicle registration. It would be a relatively minor task to include snowmachines in the current tax system. The tax would be collected at the same time as the registration fees, so no additional work is involved other than responding to public complaints on the additional fee.

A title issuance takes approximately 10 minutes per transaction, including the actual transaction and a small amount of time for responding to questions. For 25,000 titles this equates to 4,166.6 work hours which is the equivalent of two full time positions. The initial work of titling all those snowmachines currently in the state will be spread over the first two years of the program, as the public becomes aware of the requirement. This will be the period of greatest impact for the Division and the two positions are required so that the new workload does not impact our existing services. After the first two years the workload will decrease to 1,000 titles per year for new snow machines and title transfers when the snowmachine is sold.

Personal Services - 2 MVR II positions (Rng 9B)	\$73.0
Contractual - 25,000 forms @ .05	\$ 1.3
Advertising	\$10.0
Commodities - office supplies for 2 PFT	\$ 0.5
Equipment - 2 terminal workstations	\$10.0
 FY 94 Total	 \$94.8

REVENUE

There is a \$5.00 fee for each title transaction. The initial titling of the 25,000 snowmachines will be spread over a two-year period, resulting in \$62,500.00 in revenue each year. After the first two years, the 1,000 title transactions per year will generate \$5,000.00 in revenue.

Snowmachine registrations are valid for two years and they expire in even numbered years. If we assume that the average snowmachine is five years old, the tax collected on each machine would be \$4.00. Another assumption is that 70% of the snowmachines would be located in areas that elect the tax. This would yield a total revenue collection of \$70,000 and the 5% retained by the division would be \$3,500. This revenue would occur only in even numbered years when the snowmachine registrations expire.

The sponsor has indicated a desire to have the program pay for itself with increased revenues. The division feels that the best way to accomplish that is to change the registration fees, rather than creating a separate title fee for snowmachines, since these fees already exist for all other vehicles in the title statutes. There are two methods to increase revenue with the registration fees. The first would be to change the registration period from two years to one year and put snowmachines on the same registration basis as all other vehicles. The revenue collection would remain the same in even years, but this would generate an additional \$125,000 in the odd years. The second option would be to retain the two year registration and increase the fees to \$7.00. This would generate an additional \$50,000 every even year and, together with the new title revenue, would recover the costs over a two year period. This is presented for discussion only and is not included in the revenue portion of the fiscal note.

Matanuska-Susitna Borough

BOROUGH MANAGER

February 24, 1993

The Honorable Curt Menard
Alaska State Legislature
Room 405, State Capitol
Juneau, Alaska 99801-1182

Dear Representative Menard:

Thank you for seeking comments from the Matanuska-Susitna Borough on SS HB34, which would establish a registration tax for snow machines, with a fee schedule modeled after the fees established for motorcycles. We greatly appreciate your efforts to gather suggestions and responses from your constituents to ensure that pending legislation is in the best interests of borough residents as a whole.

We have reviewed and discussed the information on SS HB34 provided by your assistant, Nancy Hemenway. The Borough supports the proposal to establish a registration tax for snow machines, as long it remains the option of the municipality to decide whether to implement the registration tax system.

Sincerely,

Donald L. Moore
Borough Manager
