DATE: February 9, 1994

RE: CSSB 141 (L&C) - Workers' compensation coverage for certain high school students in uncompensated work-study programs."

I respectfully request that you schedule CSSB 141 (L&C) at the House Finance Committee's earliest convenience.

This legislation was introduced in the 17th Legislature by Representative Bettye Davis and passed out of the House Labor & Commerce, Judiciary, and Finance Committees. It died in the House Rules Committee in the closing days. You should have back-up from Representative Davis that I provided last session.

Under current law, students enrolled for credit at a public high school in a course which combines academic instruction with work experience outside the school for a public or private nonprofit employer is an employer of the State for workers' compensation purposes.

This bill would broaden this coverage so that all students participating for no financial compensation in on-the-job-training as part of an academic program would be covered. This would provide workers' compensation coverage to students who participate in automotive maintenance, welding, carpentry, and various other work study programs that are not non-profits. Without this change in law, such opportunities will be limited.

The Labor & Commerce Committee amended the bill so that uncompensated students injured at the worksite in a work-study program are considered state employees for the purpose of medical benefits under workers' compensation, but not for compensation for lost wages.

Thank you in advance for your consideration.

MEMORANDUM

February 10, 1992

To: Representative Bettye Davis

From: Esther J. Cox, Principal

Subject: HB 426

On-the-job training is an essential element in the education of high school aged students who are interested in furthering their classroom training. An on-the-job training student is enrolled for credit in high school in a course that combines academic/vocational instruction with work experience outside of the school in business. Working with the student and an employer is a job coordinator from the high school. It is the responsibility of this person to assist the employers in developing a training plan for the student that relates to the classroom instruction as well as continue as support for both the student and employer for the duration of the on-the-job training plan. The student earns high school credit but no pay.

On-the-job training provides opportunities for students that cannot be duplicated by the public school. Included with this memo is a copy of job sites of students who are enrolled in Emergency Medical Technology and Health Occupations here at the King Career Center. It becomes apparent immediately that employers are giving of time and effort to assist in training youth. Additional training sites are in demand by programs such as Automotive Maintenance, Welding, Wildland/Fire Management, Auto/Body, Carpentry, and Aviation Maintenance Technology; however, because of the way that Section 1, Section 23.30.237 of the Worker Compensation Act is worded, only students placed in public or private nonprofit sites become employees of the state, thus covered by Worker Compensation. Because the areas listed include an element of risk just by nature of the job being performed, employers will not or are extremely hesitant at best, to place students in those sites.

It is impossible for the public schools to maintain a forward edge in technology. For example, students in Automotive Maintenance learn the basics of the gasoline engines, repair skills, valve train repair, fuel systems, etc., but diagnostic computers are only found in the business world, and if students are prohibited from being placed on OJT sites because there is no Worker Compensation coverage for them, schools are not able to send finely trained personnel into the business world.

The rewording of Section 23.30.237 would strike nonprofit and allow the state Worker Compensation to cover all students who are on on-the-job training not just those who are on public or private nonprofit job sites.

Without this change in the regulation, on-the-job training opportunities for students enrolled in a course that combines work experience outside the school and classroom instruction is limited to job sites that have little or no element of risk. It is easy to place students in offices at word processors; it is nearly impossible to place students with the airline industry in the shops or running equipment on the tarmac. We are working diligently to encourage students into non-traditional roles in the world of work,

MEMO FROM THE
ANCHORAGE SCHOOL DISTRICT

and with limitations of job training sites, they have limited access to the role models in those jobs.

This is not a labor issue. It is an educational issue. It is to the benefit of every student enrolled in on-the-job training through his/her high school classes for Section 23.30.237 of the Worker Compensation Act to include both public and private employers.

DEAR MS. DAVIS:

AFTER A BRIEF CONVERSATION WITH A ESTER COX, AT KING CAREER CENTER,
IT IS OUR OPINION THE REVISION IN HOUSE BILL 426 SHOULD BE
MANDATED IMMEDIATELY.

PRESENTLY THE WAY THIS BILL IS WRITTEN A PRIVATE FOR PROFIT EMPLOYER,
SUCH AS OURSELVES, CANNOT AFFORD TO TRAIN AN OJT STUDENT AT OUR FACILITY
DUE TO THE WORKMANS COMPENSATION LIABILITY.

SPECIFICALLY, WE AT ALASKA SALES AND SERVICE FEEL TRAINING AN OJT STUDENT
WOULD BE BENEFICIAL WITHIN THE AUTOMOTIVE INDUSTRY. UPON THE STUDENTS
GRADUATION HE/SHE WOULD BE:

1. FAMILIAR WITH THE INNER WORKINGS OF A DEALERSHIP.
2. KNOWLEDGEABLE OF CURRENT TECHNICAL REPAIRS.
3. QUALIFIED TO OPERATE ALL SPECIALIZED STATE OF THE
ART TECHNICAL EQUIPMENT.

ADDITIONALLY, BY REVISING THIS BILL WE FEEL THE SKILLED LABOR FORCE WOULD
BE EXPANDED FOR BOTH THE EMPLOYEE AND EMPLOYER.

IN CLOSING, WE ARE IS FULL SUPPORT OF THIS REVISION. SHOULD YOU REQUIRE

I WOULD ENCOURAGE YOU TO SUPPORT HB-426 SPONSORED BY REP-BETTY DAVIS. IT GIVES THE ANCHORAGE SCHOOL DISTRICT THE ABILITY TO LET STUDENTS GO TO SERVICE STATIONS AND GARAGES TO OBTAIN O.J.T. FOR AUTOMOTIVE EXPERIENCE. WORKMAN COMP LAWS PROHIBIT THIS FROM HAPPENING IT IS VITAL THAT STUDENTS HAVE THE OPPORTUNITY TO GET THE HANDS ON TRAINING. I WILL BE DISCUSSING THIS FURTHER WITH YOU, ON FEBRUARY 5TH.

RE: SUPPORT OF HB 426

I am an instructor at the King Career Center in Anchorage, Alaska and am writing this letter of support for the legislative bill HB426. Within my program at the King Career Center, I place students in on-the-job sites with both profit as well as nonprofit businesses.

I have placed the majority of my students with state and federal agencies due to the fact that I can have students covered under "volunteer programs" within each of these agencies. On numerous occasions, I have asked "profit" companies to support OJT programs, but their concern and hesitance has come from concerns of who is responsible for the students welfare at the job site.

If this bill comes to pass, I truly believe it will make available to students many additional training sites by which they can receive hands-on work training skills.

Thank you for your efforts in pass this bill

Sincerely,

Mike Woods

Dear Representative Davis:

I would like to request your support for HB426 which will extend coverage of workers compensation for high school students in on-the-job training in for-profit businesses and companies. In my capacity as the Assistant Principal of the King Career Center in Anchorage for the past five years, I have been aware of several possible on-the-job training (OJT) sites that fell through for our students because employers were unwilling to accept these students without this coverage. We feel that we could expand our outreach for training locations in many areas for our young people if HB426 were made into law. Thank you for your support on this matter.

MEMORANDUM

TO: ALL HOUSE MEMBERS
FROM: REP. BETTYE DAVIS *BP*
DATE: FEBRUARY 8, 1993
RE: CO-SPONSORSHIP OF HB 118

Attached for your review is a copy of House Bill 118, extending workers' compensation coverage to certain high school students in uncompensated work study programs. This bill, which I sponsored last year, made it through its committees of referral and died in House Rules during the final days.

Because of the way A.S. 23.30.237 of the Worker's Compensation Act is worded, only students placed in public or private nonprofit sites become employees of the state, and are covered by Workers Compensation.

Under this bill, A.S. 23.30.237 would be modified by deleting "nonprofit". This change would allow the state Worker Compensation laws to cover all students who participate in on-the-job training, not just those who are on public or private nonprofit job sites.

On-the-job training is an essential element in the education of high school students who are interested in furthering their classroom training. An on-the-job training student is enrolled for credit in a course that combines academic/vocational instruction with work

experience outside of the school. A job coordinator works with the student and an employer, and assists in the development of a training plan that relates to the classroom instruction. The student earns high school credit but no pay.

There is great demand for programs such as Automotive Maintenance, Welding, Wildland/Fire Management, Auto Body, Carpentry, and Aviation Maintenance. Because these jobs include an element of risk just by the nature of the job being performed, employers will not, or are hesitant to place students in those sites.

Without this change in law, on-the-job training opportunities for students enrolled in courses combining work experience outside the school is limited to job sites that have little or no risk. While it is easy in offices as word processors, it is nearly impossible to place them with the airline industry or in jobs running heavy equipment. Schools are working diligently to encourage students into non-traditional roles in the work force. By limiting job training sites, they have limited access to role models in those jobs.

This is an important educational issue. It is to the benefit of every student enrolled in on-the-job training programs to have both public and private employers included in the Worker's Compensation Act.

If you are interesting in co-sponsoring this bill, or have any questions, please feel free to contact me or Renee Chatman of my staff at X3875.

BULLETS FOR SB 141 - WORKERS' COMPENSATION

I introduced this legislation in the 17th Legislature, and again, with Senator Kelly, last year. In the last legislature it passed through its House referrals but died in House Rules in the closing hours.

Under current law, students enrolled for credit at a public high school in a course which combines academic instruction with work experience for a public or private nonprofit employer is an employee of the State for workers' compensation purposes.

This bill would broaden this coverage so that all students participating for no financial compensation in on-the-job-training as part of an academic program would be covered.

This would provide workers' compensation coverage to students who participate in automotive maintenance, welding, carpentry, and various other work study programs that are not non-profits. Without this change in law, such opportunities will be limited.

The Senate Labor & Commerce Committee amended the bill so that students injured at the worksite in a work-study program are considered state employees for the purpose of medical benefits under workers' compensation, but not for compensation for lost wages.

The House Finance Committee amended this bill to provide immunity from civil liability under the "no fault" workers' compensation system to the work-site employer, the school district, and the State. In addition, you should note that Legislative Research checked with all 21 REAAs, a number of urban school districts, and the Workers' Compensation division and found that no workers' compensation claims have ever been filed by a work study student either with a non-profit or for-profit. This legislation passed the Senate nineteen to one.

Thank you.

Senator Jacko,

The Lower Kuskokwim School District respectfully requests your support in modifying Senate Bill 141, "An Act relating to workers compensation coverage for certain high school students in uncompensated work study programs". Testimony is scheduled on this bill in the Finance committee this afternoon at 2:00. I apologize for the lateness of this request, however we just became aware of the bill this morning.

If this bill passes as presented it would result in the curtailing or elimination of our student work-study program. This would affect up to 50 students. By requiring students to be placed under the State of Alaska's workers compensation policy, it removes the protection currently enjoyed by the District from lawsuits arising as a result of work related injuries. Many of our work-study students receive training at the Yukon-Kuskokwim Health Corporation (YKHC) which operates the regional native hospital in Bethel. They work with Doctors, Dentists, nurses, patients, and in labs. Although the District has no control over the work place it would be exposed to liability if a student was injured.

We would like your help in possibly amending SB141 by either allowing a school board to opt out of (or into) the plan, or exempting school districts with less than 4,000 students.

Anything you could do to help us on this matter would be greatly appreciated. If you have any questions please feel free to give me a call.

RE: **Workers' Compensation Coverage for Students in Work-Study Programs**
Research Request 94.196

You asked about workers' compensation coverage for high school students participating in work-study programs. You specifically wanted to know if any Regional Education Attendance Areas (REAs) had submitted a workers' compensation claim for a student who was injured while participating in a work-study program with a for-profit employer. I spoke to the business managers in all 21 REAs, and none was aware of any workers' compensation claims ever filed on behalf of students participating in a work-study program with a for-profit employer.

Administrators in the Division of Workers' Compensation, Department of Labor, are not aware of any workers' compensation claims filed on behalf of a student who was injured while participating in a work-study program with a for-profit employer. However, the division would not be aware of the "student status" unless the claim was adjudicated and through the adjudication process the claimant was identified as having been a student participating in a work study program at the time of the injury.

I hope this information is useful to you. If we may be of further assistance, please contact this office.

BILL NO. CSSB141
(L & C)

ANALYSIS: (continued)

CSSB141 (L & C) increases State workers compensation exposure for high school students in work study programs by extending present statute to include those students working for "profit" employers. It is our feeling that passage of this bill may provide for a substantial increase in number of students involved in this program.

The fiscal note is difficult to estimate but this CS provides for medical and related benefits only and excludes any weekly compensation benefit.

During FY92 State workers compensation medical benefits represented approximately 48% of total workers compensation benefits. Since young people may be expected to recover more quickly we have reduced estimated medical and related costs by 50% of our present experience average.

Since the Division of Risk Management's funding is collected through Reimbursable Services Agreements (RSA's) from the agencies, the additional cost of this program should be reflected in a Department of Education fiscal note for the same amount of General Funds.

BILL NO. SB 141

ANALYSIS: (continued)

SB 141 increases State workers' compensation exposure for high school students in work-study programs. The bill requires that State workers' compensation protection be provided by the State for every high school student in a nonpay work-study program. It is our feeling that passage of this bill may provide for a very substantial increase in the numbers of students involved in this program.

This fiscal note is very difficult to estimate, but the additional exposure to the State appears substantial. Workers' compensation benefits for these students are controlled by Alaska Workers' Compensation statutes.

Since the Division of Risk Management's funding is collected through Reimbursable Services Agreements (RSAs) from the agencies, the additional cost of this program should be reflected in a Department of Education fiscal note for the same amount of General Funds.

§ 23.30.237

GENERAL PROVISIONS

§ 23.30.240

Sec. 23.30.237. High school students in work-study programs as employees of the state. An individual who is enrolled for credit at a public high school in a course which combines academic instruction with work experience outside the school for a public or private non-profit employer is an employee of the state for the purposes of this chapter while the individual is performing the work experience. Weekly compensation for disability or death under this section may not be less than the initial payment of compensation under AS 23.30.175. (§ 1 ch 65 SLA 1980)

~~Sec. 23.30.238. Sole proprietors and partners as employees.~~

(a) A person who is a sole proprietor, or a member of a partnership, may elect coverage as an employee under this chapter by making written application to an insurer. The insurer may accept the application and fix an assumed monthly wage at which the person shall be carried on the payroll for purposes of this chapter.

(b) When the application is accepted, the person is subject to the provisions and entitled to the benefits of this chapter. The person shall promptly notify the insurer whenever there is a change in the status of the person as a sole proprietor or partner.

(c) Notwithstanding the provisions of AS 23.30.120(a), a person covered under (a) of this section bears the burden of proof of the validity of the claim.

(d) A person who has elected coverage under (a) of this section may cancel the election by giving written notice to the insurer. Notwithstanding AS 23.30.030(5), the cancellation becomes effective the day following the filing of notice with the insurer. (§ 2 ch 47 SLA 1986)

Sec. 23.30.240. Officers of corporations, municipal corporations, and nonprofit corporations as employees. An executive officer elected or appointed and empowered in accordance with the charter and bylaws of a corporation, other than an official of a municipal corporation or a charitable, religious, educational, or other nonprofit corporation, is an employee of the corporation under this chapter. However, an executive officer of a corporation may waive coverage under this chapter, subject to the approval of the commissioner of labor, notwithstanding AS 23.30.245(b). Notwithstanding any other provision of this chapter, an executive officer of a municipal corporation or of a charitable, religious, educational, or other nonprofit corporation may be brought within the coverage of its insurance contract by the corporation by specifically including the officer in the contract of insurance. The election to bring an executive officer within the coverage continues in force for the period the contract of insurance is in effect. During that period an executive officer brought within the coverage of the insurance contract is an employee of the corporation under this chapter. (§ 2(8) ch 193 SLA 1969; am ch 148 SLA 1962)

POSITION PAPER: DEPARTMENT OF EDUCATION

Division School Finance Bill Number CSSB 141(L&C)

Bill Title An Act extending workers' compensation coverage

Sponsor Senator Kelly

This bill provides State of Alaska employee status to students placed in uncompensated work experience programs by individual school districts at "for profit" work places throughout the state. The legislation further provides workers' compensation medical payments to students injured on the job. The legislation may expand student placements to higher risk work places hesitant to accept students due to the potential affects on the employer's own workers' compensation experience rating and premium. Some school districts exclude the students from workers' compensation for the same reasons stated by the potential employers. This bill does limit the financial exposure of the State to medical payments and may eliminate the possibility of civil actions against the State brought by the injured student. This bill does not protect the business enterprise or the school district from civil actions on behalf of the injured student.

Of the three entities involved, the school district, the business enterprise and the State, more specifically the Departments of Administration and Education, the State is the farthest removed from the student work place. The State has no opportunity to control work place safety or related risk. Yet under this legislation, the State has the direct financial responsibility for workers' compensation medical payments resulting from work related injuries.

The perception that the Department of Administration will bear the potential liability is inconsistent with current and past practices of assigning work experience ratings and costs to the departments involved. The long term result of any increased cost related to medical payments may be State regulated work experience placements, which will limit work experience opportunities rather than expand them.

The bill could be amended to ensure that future medical payments do not impact the state directly by mandating that the students are employees of the sponsoring school district or business enterprise. An alternative would be to identify the K-12 Support, Public School Foundation Program as the funding source for medical payments or provide the opportunity to bill an allocable share of the state premium directly to participating school districts. Either of these alternatives would provide continued incentive for the sponsoring school district to monitor and assist the business enterprise in the improvement of student work related risk and safety.

MEMORANDUM

To: Senator Tim Kelly

From: Senator Jay Kerttula 

Re: SB 146 Amending the interest rate on loans made by the
Agricultural Loan Act

I request that you schedule the above bill for a hearing in the Senate Labor & Commerce Committee.

This bill would reduced the rate of interest that could be charged on agricultural loans from 8% to 6%. I believe that the potential users of this loan fund should be able to benefit from the reduction in interest rates nation-wide.

I would appreciate your consideration of this request.

SUBJECT: Amendment to title of Senate Bill 146 (Work Order No. 8-LS0771)

TO: Senator Tim Kelly, Chair
Senate Labor & Commerce Committee

FROM: Jack Chroweth
Legislative Counsel 

The bill amends the interest rate applicable to agricultural revolving loan fund loans.

If you are inclined to report the bill from committee, the version reported should delete the word "maximum" from the first line of the bill title. Indeed, the reduction in the rate from eight to six percent that is proposed by this measure represents a reduction in the **minimum** interest rate that may be charged by the board on those loans.

Effect of amendments. — The 1987 amendment substituted the present introductory language for the language found in the main pamphlet, substituted "a" for "any" preceding "commercial purpose" in paragraph (1), in paragraph (2) made minor word and stylistic changes throughout and in subparagraph (C) substituted "adopted" for "of the director issued," in paragraph (5) substituted "or offers" for "offers or exposes," in paragraph (6) substituted "that the seller used to determine" for "by means of which" and deleted "is determined" at the end of the paragraph, deleted "or exposes" following "of-

fers" in paragraph (7), in paragraph (8) substituted "a customer may accurately read, from a position that may reasonably be assumed by a customer, its indications and observe the weighing or measuring operation" for "its indications may be accurately read and the weighing or measuring operation observed from some position which may reasonably be assumed by a customer," designated former paragraph (9) as present paragraph (12), inserted paragraphs (9)-(11), and deleted "of" preceding "a regulation" in paragraph (12); and added subsection (b).

Chapter 77. Foreign Trade Zones.

Section

10. Application for establishment of foreign trade zone

Section

20. Definitions

Sec. 45.77.010. Application for establishment of foreign trade zone. (a) A public corporation may apply for the privilege of establishing, operating, and maintaining a foreign trade zone or zones in the state as provided in 19 U.S.C. secs. 81a — 81u (Foreign Trade Zones Act), and if the application is granted, may establish, operate, and maintain the zone in accordance with applicable law.

(b) With the approval of the commissioner of commerce and economic development, any private corporation may apply as described in (a) of this section, and, if the application is granted, may establish, operate, and maintain a foreign trade zone.

(c) Nothing in this section prevents a successful applicant from entering into a contract for services for the operation or maintenance of the foreign trade zone. (§ 1 ch 95 SLA 1980; am § 1 ch 146 SLA 1988)

Effect of amendments. — The 1988 amendment, effective June 10, 1988, re-wrote this section to the extent that a detailed comparison is impracticable.

Sec. 45.77.020. Definitions. In this chapter,

(1) "foreign trade zone" means a foreign trade zone established under 19 U.S.C. secs. 81a — 81u (Foreign Trade Zones Act), as amended, or any laws of the United States enacted as replacements for those provisions;

In 1986, certain modifications were made to AS 45.75 to provide the authority for Weigh Station Operators to issue citations for truck size and permit violations. The then present authority for Weights and Measures Inspectors to issue citations was inadvertently deleted.

SB 152: "An Act changing the frequency of certain state inspections of weights and measures and relating to the issuance of citations for weights and measures violations."

Prior to 1986, weights and measures inspectors had the authority to issue citations for weights and measures violations. Changes were made to AS 45.75 in 1986 to authorize weigh station operators to issue citations for truck size and permit violations. When these changes were made, the weights and measures inspectors were inadvertently stripped of their authority to issue citations. During the last year, the Division of Measurement Standards promulgated regulations that provide for the registration of all weighing and measuring devices with the division and the payment of an annual fee. To allow the division to adequately enforce AS 45.75, it is necessary for the weights and measures inspectors to have the authority to issue citations for those persons who choose to violate the law. Most, if not all, weights and measures jurisdictions in the United States and Canada possess this authority. This does not mean that a rash of new citations will be issued, but it does give the weights and measures official an effective enforcement tool.

Within current budget constraints, the division is unable to maintain semiannual inspections in all locations in Alaska. Amending AS 45.75.080 will allow the Director to establish inspection priorities based on inspection history of various device types, inspecting most devices at least annually, and others more often if necessary.

Hon. George G. Jacko, Jr.
Alaska Senate
State Capital
Juneau, AK 99801

RE: SB 154

Dear Sen. Jacko:

In support of Senate Bill 154 the City of St. George would like to offer the following comments:

1. The concept of providing substantial matching funds for worthy projects which meet objective statewide economic development criteria is sound and is in fact long overdue.
2. The concern we have is how best can the State maximize short and long term benefits in a timely manner.

For example, St. George is ready to go and can achieve the desired results quickly. That is, two private processing concerns have indicated readiness to initiate \$5 to \$10 million investments each on shore. This represents converting 150 of the 350 seasonal jobs in crab season to year round jobs. Dredging is the only obstacle they face. Engineering is ready, permitting is done.

Neither processors can afford to wait until late 1993 to begin a six month construction project prior to the next January crab season--construction must begin by July 15.

Normally new grant programs take several months to get started. St. George therefore requests the Legislature and Administration to consider ways in which those projects that are truly ready for a "jump start" can proceed in July.

- Some mechanisms that have worked well are:
- a. Department of Administration Municipal Grant program and
 - b. DOT/PZ Transfer of Responsibilities Agreement (TORA)

We have utilized both and recommend them in the case of ready-to-begin projects. Our main concern is timely processing of funding so that the mixture of private and public funds can be achieved in time for the benefits to be realized in early 1994. Thank you for the opportunity to offer comment.

Sincerely yours,

Max Malavansky

1 for a fiscal year by submitting, before October 1 of the preceding fiscal year, a form
2 prescribed by the commissioner of commerce and economic development. The grant
3 money may only be used for construction of a capital project that will be owned by
4 the municipality or the organization and that will increase economic opportunity within
5 the municipality or region that the organization represents. The grant application must
6 include the following information:

7 (1) the amount of money available to the municipality or the
8 organization from nonstate sources that the municipality or the organization proposes
9 to use to match grant funds for the project;

10 (2) the amount of money available from private, nongovernmental
11 sources that has been committed to or as a result of investment in the project;

12 (3) an estimate of the number and duration of construction jobs within
13 the municipality or region that will result from the project;

14 (4) an estimate of the number of new permanent jobs within the
15 municipality or region that will result directly or indirectly from the project;

16 (5) an estimate of the amount of state and municipal taxes that will be
17 generated as a result of the project during the 10 years following its completion; and

18 (6) a description of how the municipality or organization will pay for
19 the operation and maintenance of the project after it is constructed.

20 (b) The Department of Commerce and Economic Development shall evaluate
21 all grant applications received for a fiscal year. The department may request from a
22 municipality or organization additional information needed to evaluate a proposed
23 capital project. By February 1 of each year, the department shall submit to the finance
24 committees of each house of the legislature a prioritized list of projects for which the
25 department recommends funding based on the degree to which each project has the

FROM: Senator *George Jacko*

DATE: March 9, 1993

RE: SB 154 - request for scheduling

I would like to respectfully request the scheduling of Senate Bill 154 for a hearing in the Labor and Commerce committee at your earliest convenience.

SB 154 creates the Economic Development Program to fund municipal economic projects. To be eligible, a municipality or an ARDOR (Alaska Regional Development Organization) must clearly demonstrate the ability to generate economic activity. Six specific criteria are listed in the legislation in order to qualify.

Proposals will be submitted to the Department of Commerce and Economic Development who will evaluate and recommend to the finance committees projects to be funded. The finance committees will select municipal projects based on the criteria in SB 154. These selections will be forwarded to the respective bodies for approval.

Page Two
Senator Tim Kelly
March 9, 1993

The criteria includes the amount of funds contributed from nonstate sources, the number of construction jobs, and a description of how the municipality will pay for the operation and maintenance of the project after it is constructed.

Presently, municipalities must compete with other diverse interests for a limited amount of state capital dollars. Projects with substantial economic potential often do not get funded because of competition with other state priorities.

The Economic Development Program is envisioned as an additional source of funds within the capital budget. It is not intended as a replacement or substitute for any capital fund programs.

Thank you for considering this request. If additional information is needed please contact my staff person Bryce Edgmon at 4942.

Economic Development Legislation introduced

Senator George Jacko introduced legislation today that would establish a substantial program for funding municipal economic development projects.

"The Economic Development Program is unique because for the first time state funds will be available based strictly on economic potential. I am excited about the prospects. This legislation will set in state statutes specific criteria that must be met," Jacko emphasized.

"Municipalities and ARDORS (Alaska Regional Development Organizations) will now be able to acquire badly needed funds to get economic projects underway," Jacko said.

"Coastal fishing communities in my district such as Unalaska, St. Paul, St. George, Bethel, and Dillingham are prime examples. These are among many communities that have promising economic projects at their fingertips. But adequate funding is difficult to obtain -- especially when considering the increasing competition for the state's capital dollars.

"Senate Bill 154 will authorize a separate source of funds within the capital budget and will emphasize leveraging other sources of capital such as private and federal monies.

2-2-2-2

93-04

March 8, 1993

The number of jobs, the amount of state and municipal taxes generated, and the level of local maintenance provided will be large factors in deciding what projects get funded," Jacko added.

Senator Jacko is Vice-Chair of the Senate Finance Committee and is Chair of the Rules committee. He represents western Alaska, including Bristol Bay, the Aleutian Islands, and the Bethel region.

The requested position is a Grant Administrator III. The position will be responsible for taking the lead in establishing regulations, evaluating grant applications as a member of the application committee, administering the grant program and performing some audit work. In addition, there will likely be some accounting structure preparation work as well as some fund accounting made necessary by the economic development grants program, that will be performed by the Grant Administrator.

The non-personnel services items are for minimal travel, the purchase of a computer and other associated costs.

A BILL

FOR AN ACT ENTITLED

1 "An Act relating to the economic development grant program; and providing for
2 an effective date."

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

4 * Section 1. AS 29.60 is amended by adding new sections to read:

5 ARTICLE 9. ECONOMIC DEVELOPMENT GRANT PROGRAM.

6 Sec. 29.60.670. ECONOMIC DEVELOPMENT GRANT FUND. The
7 economic development grant fund consisting of appropriations to the fund is
8 established in the Department of Administration. Except as otherwise provided in an
9 appropriation act, money appropriated to the fund does not lapse but is retained in the
10 fund.

11 Sec. 29.60.675. ECONOMIC DEVELOPMENT GRANTS. (a) A municipality
12 or a regional development organization may apply for an economic development grant
13 for a fiscal year by submitting an application to the Office of the Governor before
14 October 1 of the preceding fiscal year. The application shall be on a form prescribed

1 by the office of management and budget after consulting with the Department of
2 Commerce and Economic Development and the Department of Community and
3 Regional Affairs. The grant money may only be used for construction of a capital
4 project that will increase economic opportunity within the municipality or region that
5 the organization represents. The grant application must include the following
6 information:

7 (1) the amount of money available to the municipality or the
8 organization from nonstate sources that the municipality or the organization proposes
9 to use to match grant funds for the project;

10 (2) the amount of money available from private, nongovernmental
11 sources that has been committed to or as a result of investment in the project;

12 (3) an estimate of the number and duration of construction jobs within
13 the municipality or region that will result from the project;

14 (4) an estimate of the number of new permanent jobs within the
15 municipality or region that will result directly or indirectly from the project;

16 (5) an estimate of the amount of state taxes, municipal taxes, and other
17 fees or payments to the state or applicant that will be generated as a result of the
18 project during the 10 years following its completion; and

19 (6) a description of the ownership of the completed project and how
20 the project will be operated and maintained after it is constructed.

21 (b) All grant applications received for a fiscal year shall be evaluated by a
22 committee composed of representatives of the office of management and budget, the
23 Department of Commerce and Economic Development, the Department of Community
24 and Regional Affairs, and other agencies. Committee members shall be selected by
25 the director of the office of management and budget and shall be chaired by the
26 director or the director's designee. The committee may request from a municipality
27 or organization additional information needed to evaluate a proposed capital project.
28 As part of the annual capital improvements program presented to the legislature under
29 AS 37.07.060, the governor shall submit to the finance committees of each house of
30 the legislature a prioritized list of projects for which the evaluation committee
31 recommends funding based on the degree to which each project has the potential to

1 improve the economy of the state and of the municipality that has applied for the grant
2 or the region represented by the organization that has applied for the grant.

3 (c) The legislature may appropriate or allocate from the economic development
4 fund or allocate in an appropriation to the fund all or a portion of the money requested
5 by a municipality or organization for a project identified in the prioritized list.

6 Sec. 29.60.680. GRANTS. The Department of Administration, after consulting
7 with the Department of Commerce and Economic Development and the Department
8 of Community and Regional Affairs, shall by regulation establish requirements for
9 economic development grants under AS 29.60.670 - 29.60.685 and shall administer the
10 grants. The regulations are subject to approval by the office of management and
11 budget. A grant may not be awarded by the department unless money for the project
12 is appropriated or allocated under AS 29.60.675(c) and the municipality or organization
13 meets or exceeds the amount of matching money identified in its grant application.

14 Sec. 29.60.685. DEFINITIONS. In AS 29.60.670 - 29.60.680, "regional
15 development organization" and "organization" have the meanings given in
16 AS 44.33.026(e).

Sponsor(s): SENATORS JACKO, Halford, Pearce, Zharoff, Kelly, Taylor

A BILL

FOR AN ACT ENTITLED

1 "An Act relating to the economic development grant program; and providing for
2 an effective date."

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

4 * Section 1. AS 29.60 is amended by adding new sections to read:

5 ARTICLE 9. ECONOMIC DEVELOPMENT GRANT PROGRAM.

6 Sec. 29.60.670. ECONOMIC DEVELOPMENT GRANT FUND. The
7 economic development grant fund consisting of appropriations to the fund is
8 established in the Department of Administration. Except as otherwise provided in an
9 appropriation act, money appropriated to the fund does not lapse but is retained in the
10 fund.

11 Sec. 29.60.675. ECONOMIC DEVELOPMENT GRANTS. (a) A municipality
12 or a regional development organization may apply for an economic development grant
13 for a fiscal year by submitting an application to the Office of the Governor before
14 October 1 of the preceding fiscal year. The application shall be on a form prescribed

1 by the office of management and budget after consulting with the Department of
2 Commerce and Economic Development and the Department of Community and
3 Regional Affairs. The grant money may only be used for construction of a capital
4 project that will increase economic opportunity within the municipality or region that
5 the organization represents. The grant application must include the following
6 information:

7 (1) the amount of money available to the municipality or the
8 organization from nonstate sources that the municipality or the organization proposes
9 to use to match grant funds for the project;

10 (2) the amount of money available from private, nongovernmental
11 sources that has been committed to or as a result of investment in the project;

12 (3) an estimate of the number and duration of construction jobs within
13 the municipality or region that will result from the project;

14 (4) an estimate of the number of new permanent jobs within the
15 municipality or region that will result directly or indirectly from the project;

16 (5) an estimate of the amount of state taxes, municipal taxes, and other
17 fees or payments to the state or applicant that will be generated as a result of the
18 project during the 10 years following its completion; and

19 (6) a description of the ownership of the completed project and how
20 the project will be operated and maintained after it is constructed.

21 (b) All grant applications received for a fiscal year shall be evaluated by a
22 committee composed of representatives of the office of management and budget, the
23 Department of Commerce and Economic Development, the Department of Community
24 and Regional Affairs, and other agencies. Committee members shall be selected by
25 the director of the office of management and budget and shall be chaired by the
26 director or the director's designee. The committee may request from a municipality
27 or organization additional information needed to evaluate a proposed capital project.
28 As part of the annual capital improvements program presented to the legislature under
29 AS 37.07.060, the governor shall submit to the finance committees of each house of
30 the legislature a prioritized list of projects for which the evaluation committee
31 recommends funding based on the degree to which each project has the potential to
