BILL/SUBJECT

I am in opposition because I feel that this would go against State Labor Laws that we inacted to protect and compensate workers for excessive work hours. There are other means available to the workers of Fort Knox to achieve the desired scheduling and remain in budgetary guidelines aside from tearing apart laws that are in place to protect all workers. I believe this will have a ripple affect with regard to other workers across the State of Alaska.

My family's livelihood depends a great deal on my husbands over time pay as a "surface miner" and I feel assaulted and insulted by such a proposition.

While I sympathize with the plight of these miners, we all have had to endure hardships in order to eek out a living, but giving up hard earned wages in terms of overtime hours has never been a consideration.

The best thing you could do is let this DIE in Committee.

Please submit this to the Labor & Commerce  
Committee on H.B. 68

I Rod. McClendon feel that this is very  
unfair to the rest of the Worker Industry, It just  
right the way law is now. I will appreciate keeping the  
Law the way it is, I think it wrong for the legislature  
to involve itself in the Collective Bargaining Process,  
involving Private sector Employees and Employers.

I am extremely Apposed to this Legislation. State Laws are in place to best serve All the workers in Alaska. Workers that do a full days work deserve to be payed according to State Laws. Just because 240 workers decided that "we don't like over work schedual, so lettes change the state Laws! Wrong Answer! I think the workers would be happier if they got what they deserved. ① A safe and Helthy work place. ② A desent work schedual ③ Over Time for working over 8hrs.

If the investors of the fort Knox project were so near-sighted in thinking the price of Gold would never drop or there wouldnt be cost overruns in start up, then they shouldnt have been so fullish to invest in such a large venchero.

fort Knox Mine is good for Fairbanks, Alaska and there workers. fort Knox will make a profet on there investment weather this Legislation gos through or not, its just a matter of more time Please, Don't Pass HB 68 Thankyou

I oppose this bill, I know that I'm just a first year apprentice but I like my hours just the way they are even if I didn't get much over time in my trade. I feel like I don't have any choice because I value my skills, training, and on the job learning even though it ain't much but it's all I got, I think I might have to consider starting over if this bill passes, and I don't think I could afford this.

I'm a twenty two year resident of Fairbanks. I've worked all this time in construction. I've worked on the Transalaska pipeline, Prudhoe Bay oil fields, Fort Knox gold mine & Highway work around Fairbanks. As a heavy construction worker I think passage of HB 68 would be ~~not~~ a big step backwards for all workers. Making exemptions for not paying overtime after 8 hrs because of AMAK (240+ employees) is not even Democratic. HB 68 would have statewide repercussions far beyond Fort Knox, VOTE NO ON HB 68.

P.S. When AMAK finishes up at Fort Knox in twelve years would we repeal HB 68?

BILL/SUBJECT

I have lived, worked & voted in the F.bks area since Sept. 1975. I've worked in the construction industry nearly all the time & to work straight time for any hours after 8 hrs is a slap in the face to all workers. Obviously I am opposed to HB 68!

Maybe legislators & management are not worth any overtime but I've worked on numerous asbestos & Hardox waste jobs & they are already trying to pull this on jobs already! This is a safety hazard because of the heat stress & the physical nature of this work! I sure hope this legislature is willing to accept some responsibility for the numerous accidents that are sure to occur!

I live & vote in District 32 & am appalled with anyone who would support a measure that is so detrimental to the people who live & work in this District much less the rest of this state! To support such an anti-worker, anti-family issue is beyond reason. If you are so dead set against the working man making a decent living, next thing you'll probably propose no overtime whatsoever. I hope you wake up before you destroy this state any more!

My name is Joe Rosser. I've lived and worked in this state since 1978. When I read the newspaper article (Fairbanks Daily News Mirror) in Monday's edition concerning HB 68 I was eating dinner. I almost lost my appetite!

I'm a registered voter here in Fairbanks and I think this bill that Gene Therriault is proposing stinks!

It boils down to a bill that is catering to a single, out of state company, & a largely out of state, NON REGISTERED WORKING employees.

Don't change the labor laws unless it benefits the workers of this state.

This bill (HB68) DOES NOT BENEFIT US.

In one fell swoop, the proposed legislation would serve to vacillate seventy-five years of progress for working men and women.

We, the producers, are every bit as deserving to fairly profit from our labor as are those who provide the investment capital.

We are entitled to a life which extends beyond subsistence.

COMMITTEE ON House Bill 68 DATED 1/27/97  
BILL/SUBJECT

Dear sirs, I want 12 hr shifts!!!! I am used to longer hrs. I would like to tell you some reasons why my wife and me are for the 12 hrs shifts.

Longer hrs means shorter work weeks and longer ~~work~~ weekends! These longer weekends ~~to~~ give a family more time to work on a house, to garden, to fish, to hunt, to work on vehicles or in my family's case, to start a small home business. Now I'd like to conclude by clearing up some misconceptions.

nobody is frivisting our army at the mine. We would receive a pay increase not a pay decrease! Please sign this bill.

COMMITTEE ON # 68 - Flexible Work Hours DATED 1-27-97  
BILL/SUBJECT

I have worked in mining, construction and the freight industries. I am a home raised Alaskan.

I am <sup>against</sup> opposed to the changes outlined in the above mentioned bill # 68.

I feel this change would cause problems in all industries if it were passed. It would cause a reduction in earning power for many workers that are not aware of this legislation. Voluntary written agreement to agree to such "flex time" condition would fast become a requirement upon hire or better described a "Condition of employment"

Why is the Legislature pushing this bill through so rapidly with only 1 (one) committee referral? If we are ever to need an income tax structure in this state again this would reduce gross earning therefore reduce tax income for our state.

Please vote NO on # 68 do not let this bill pass.

BILL/SUBJECT

I am writing in response to House Bill #68. I would like to make it clear from the onset that I am very pro-active for the mining industry in Alaska, so long as it can be achieved in an economically feasible manner for both the owner and the employee, and with regard to the safety and health of the employee(s) and the environment.

I do not believe House Bill #68 is a fair piece of legislation. I am <sup>not</sup> opposed to the working men and women at the Fort Knox mine having a workable schedule, but I am opposed to a bill that would be a detriment to all the surface miners in Alaska. I am also confident that anyone getting a project of Fort Knox Mine's magnitude off the ground to productivity would also be able to find a solution to their employees' work schedules.
