ALASKA DENTAL CARE BILL OF RIGHTS

A bill currently before the Alaska State Legislature entitled the "Alaska Dental Care Bill of Rights" speaks to certain issues as they pertain to your rights as a dental patient both in terms of the care you receive and the reimbursement of benefit claims for that treatment. The key points of the bill are as follows:

1. A health care insurer may not prohibit a person from obtaining dental care services from a dentist of the patient's choice, including a specialist.
2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.
3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.
5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.
6. A person may bring civil action against a health care insurer to enforce these rights.

If you support this legislation, please sign your name in the space provided. Also, if you are willing to write a letter or testify before the State Legislature in support of this bill based on the above provisions or if you have had experiences related to these provisions, please indicate your willingness to do so by placing a check mark in the appropriate box. Thank you for participating.....The Alaska Dental Society

A bill currently before the Alaska State Legislature entitled the "Alaska Dental Care Bill of Rights" speaks to certain issues as they pertain to your rights as a dental patient both in terms of the care you receive and the reimbursement of benefit claims for that treatment. The key points of the bill are as follows:

1. A health care insurer may not prohibit a person from obtaining dental care services from a der list of the patient's choice, including a specialist.
2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.
3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.
5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.
6. A person may bring civil action against a health care insurer to enforce these rights.

If you support this legislation, please sign your name in the space provided. Also, if you are willing to write a letter or testify before the State Legislature in support of this bill based on the above provisions or if you have had experiences related to these provisions, please indicate your willingness to do so by placing a check mark in the appropriate box. Thank you for participating.....The Alaska Dental Society

ALASKA DENTAL CARE BILL OF RIGHTS

A bill currently before the Alaska State Legislature entitled the "Alaska Dental Care Bill of Rights" speaks to certain issues as they pertain to your rights as a dental patient both in terms of the care you receive and the reimbursement of benefit claims for that treatment. The key points of the bill are as follows:

1. A health care insurer may not prohibit a person from obtaining dental care services from a dentist of the patient's choice, including a specialist.
2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.
3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.
5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.
6. A person may bring civil action against a health care insurer to enforce these rights.

If you support this legislation, please sign your name in the space provided. Also, if you are willing to write a letter or testify before the State Legislature in support of this bill based on the above provisions or if you have had experiences related to these provisions, please indicate your willingness to do so by placing a check mark in the appropriate box. Thank you for participating.....The Alaska Dental Society

2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.

3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.

5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.

6. A person may bring civil action against a health care insurer to enforce these rights.

If you support this legislation, please sign your name in the space provided. Also, if you are willing to write a letter or testify before the State Legislature in support of this bill based on the above provisions or if you have had experiences related to these provisions, please indicate your willingness to do so by placing a check mark in the appropriate box. ALASKA DENTAL CARE BILL OF RIGHTS

A bill currently before the Alaska State Legislature entitled the "Alaska Dental Care Bill of Rights" speaks to certain issues as they pertain to your rights as a dental patient both in terms of the care you receive and the reimbursement of benefit claims for that treatment. The key points of the bill are as follows:

1. A health care insurer may not prohibit a person from obtaining dental care services from a dentist of the patient's choice, including a specialist.
2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.
3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.
5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.
6. A person may bring civil action against a health care insurer to enforce these rights.

ALASKA DENTAL CARE BILL OF RIGHTS

A bill currently before the Alaska State Legislature entitled the "Alaska Dental Care Bill of Rights" speaks to certain issues as they pertain to your rights as a dental patient both in terms of the care you receive and the reimbursement of benefit claims for that treatment. The key points of the bill are as follows:

1. A health care insurer may not prohibit a person from obtaining dental care services from a dentist of the patient's choice, including a specialist.
2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.
3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.
5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.
6. A person may bring civil action against a health care insurer to enforce these rights.

If you support this legislation, please sign your name in the space provided. Also, if you are willing to write a letter or testify before the State Legislature in support of this bill based on the above provisions or if you have had experiences related to these provisions, please indicate your willingness to do so by placing a check mark in the appropriate box. Thank you for participating.....The Alaska Dental Society

ALASKA DENTAL CARE BILL OF RIGHTS

A bill currently before the Alaska State Legislature entitled the "Alaska Dental Care Bill of Rights" speaks to certain issues as they pertain to your rights as a dental patient both in terms of the care you receive and the reimbursement of benefit claims for that treatment. The key points of the bill are as follows:

1. A health care insurer may not prohibit a person from obtaining dental care services from a dentist of the patient's choice, including a specialist.
2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.
3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.
5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.
6. A person may bring civil action against a health care insurer to enforce these rights.

If you support this legislation, please sign your name in the space provided. Also, if you are willing to write a letter or testify before the State Legislature in support of this bill based on the above provisions or if you have had experiences related to these provisions, please indicate your willingness to do so by placing a check mark in the appropriate box. A bill currently before the Alaska State Legislature entitled the "Alaska Dental Care Bill of Rights" speaks to certain issues as they pertain to your rights as a dental patient both in terms of the care you receive and the reimbursement of benefit claims for that treatment. The key points of the bill are as follows:

1. A health care insurer may not prohibit a person from obtaining dental care services from a dentist of the patient's choice, including a specialist.
2. A health care insurer may not restrict a patient's right to receive full information from their dentist regarding the care or treatment options available to the patient.
3. If a health care insurer wishes to review dental treatment, a dental treatment plan or conduct a utilization review, such review must be completed by a dentist licensed in this state.

4. A health care insurer may not directly or indirectly reimburse a patient for the cost of treatment at a different rate because of the patient's choice of dentist.
5. A health care insurer may not deny coverage, cancel a health insurance plan or otherwise take action against a patient or dentist because the patient has asserted one of these rights.
6. A person may bring civil action against a health care insurer to enforce these rights.

If you support this legislation, please sign your name in the space provided. Also, if you are willing to write a letter or testify before the State Legislature in support of this bill based on the above provisions or if you have had experiences related to these provisions, please indicate your willingness to do so by placing a check mark in the appropriate box. Thank you for participating.....The Alaska Dental Society
