Duane S. Udland

Career Profile

Motivated and dedicated police professional with extensive management experience. Strong leader in diversified work environments requiring excellent interpersonal skills. Committed to a team approach that promotes public satisfaction and image. Loyal and responsive to management goals while sensitive to the needs of employees. Able to motivate others and get things done.

Experienced in project development and implementation. Skilled in contract administration, labor relations, development of policies and procedures, and public relations.

Independent thinker, yet flexible in a variety of working environments. Creative in stressful situations with the ability to make decisions and meet budgetary targets and project deadlines.

Extensive legislative experience. Routinely called upon to act as a representative for the Municipality of Anchorage and other professional organizations during the legislative session in Juneau. Demonstrated abilities in networking with boards, commissions, government officials and political entities.

Education

Eastern Washington State College, Graduate 1973
Bachelor of Arts Degree in Sociology, Minor in Political Science

FBI National Executive Institute, 1998
FBI National Academy, 1987
Spokane Police Academy, 1973

Numerous training seminars in leadership, management, supervision, budgeting, labor law and media relations. Advanced Police Certificate.

Professional experience

NANA Management Services, January 2001 to Present

Hired as Security Manager for Purcell Security, after retirement from a successful career in police work. NANA is a native owned corporation providing a number of management services throughout Alaska. Directly responsible for budgeting, contract management, and supervision of over 200 employees.

Marketing and business expansion are essential responsibilities. Alaska hire is a priority.

Anchorage Police Department, July 1988 to January 2001

Appointed to Chief of Police on February 1, 1997. Initially recruited to the position of Deputy Chief of Police on July 5, 1988. Directly responsible for over 550 employees and a budget of approximately \$45 million. Developed and administered a number of projects and programs that have contributed to a reduction in crime of 41% since 1994.

Presided over a late 1980's budget decline that mandated department downsizing and cutback management. Coordinated a number of technology upgrades. Served as the municipal representative in crucial labor contract talks and employee issues. Developed and implemented a comprehensive reorganization plan that facilitates accountability to the public and encourages creativity at the working level.

Soldotna Police Department, March 1978 to June 1988

Hired as a patrol officer for the City of Soldotna, Alaska. Quickly promoted to Sergeant and appointed Chief of Police in August 1982. Successfully transformed a poorly trained and disorganized department into a respected professional organization recognized for its involvement in the community. Left Soldotna to accept a position with the Anchorage Police Department.

Spokane County Sheriff's Office, April 1972 to January 1978

Served for one year in jail security and then promoted to patrol officer. Promoted to Detective after four years. Recognized as an extremely competent officer and selected for a number of special assignments. Youngest officer to be promoted to Detective after attaining the highest ever score on the civil service exam. Left Spokane to move to Alaska.

Date: Wed, 28 Feb 2001 08:51:22 -0900

From: Heather Bradner <Heather_Bradner@gov.state.ak.us>

To: Kim Ross <Kim_Ross@legis.state.ak.us>

Dear Kim,

I called Bill McDonald last night to obtain the information you requested regarding what he has done since his military retirement, and your questions about his residency. Bill retired from the U.S. Air Force in 1994. Since then, he has worked as the Interior of Alaska campaign manager for Congressman Don Young in 1994 and 1996 (paid positions). He also volunteered on this campaign in 1998. He has also done sporadic consulting work (from Fairbanks, Alaska) on logistics and arctic related issues, including one contract for Lockheed Martin. He is a resident of Alaska since the early 1990's (1992 he believed) and is a registered voter of the state for many years. He is also the owner of 2 Siberian huskies, 4 cats, and grew up as a ranchhand in his youth in Texas working with cattle and horses.

Bill will be available to answer any questions you or any committee member may have if you need to reach him for any reason: 456-2118 day and evening.

I will get you information regarding your other question (Mr. Robert Miller) shortly.

I hope this is helpful! Please feel free to call or email if you have any other questions.

Thanks, Heather

P.O. Box 11001
Juneau, AK 99811-0001

Dear Ms. Smith:

In am writing to express my interest in continuing my appointment as a Public Member on the Alaska State Board of Public Accountancy. I have served on this board since July 1997 and my term is due to expire on April 25, 2000. I have enjoyed serving on the board. During the past three years I have been able to learn the Alaska Statutes governing the public accountancy profession and feel that I can continue to be an asset to this Board. The Alaska State Board of Public Accountancy is a dynamic group and it would be a pleasure for me to continue to serve my fellow Alaskans.

If you have any questions or need any additional information regarding my request you can reach me at work (907) 746-8806 or home (907) 688-8924.

Sincerely,

Kathleen B. Shreiber

Re: Reappointment, Board of Registration for Architects, Engineers & Land Surveyors

Dear Governor Knowles;

Since 1996 I have served on the AELS Board. This year I am the chair. It has been an interesting, challenging and enjoyable time. As you know we are an active board which recently added the licensure of landscape architects. We are a dedicated group and continue to improve regulations, reach out to the professions where appropriate, refine goals and objectives, improve operations and get involved with national and regional organizations to keep abreast of national requirements.

As a representative of the Alaska board, I participate in the National Council of Architectural Registration Boards (NCARB) regional and national meetings, and serve on an NCARB exam writing committee and a chairs' committee. Additionally I continue to work as an architect and project manager for Kumin Associates, Inc. in Anchorage and to volunteer as chair of Anchorage's Planning and Zoning Commission.

My AELS term expires in July of 2000. I respectfully request reappointment to this board for a second term. Thank you for your time and consideration in this matter. Please feel free to contact me should you have any questions.

Sincerely,

Daphne E. Brown, AIA

PROFESSIONAL REGISTRATION:

Professional Land Surveyor - State of Alaska, 1978: LS-4603
United States Mineral Surveyor - 1980 to present

EDUCATION:

1965-69: University of Alaska Fairbanks: Major fields of
study: Biology, surveying, computer science.

1974-5; 1978-9: University of Alaska Fairbanks & Anchorage:
Advanced course work in surveying and photogrammetry.

Continuing: Numerous seminars and short courses in GPS, Riparian boundaries,
Photogrammetry, GIS, sponsored by Professional Societies.
Also taught courses and led panel discussions in Right-of-Way and RS-2477 issues.

PROFESSIONAL EXPERIENCE:

1976 - Present: KALEN & ASSOCIATES, INC., Fairbanks, Alaska.

Co-founder and President of surveying and civil engineering firm. In Responsible Charge of all phases of surveying and mapping projects executed by the firm, including contract procurement and administration; scheduling and submittals; coordination of field and office operations; agency contact. Principal-in-Charge with administrative responsibility for the firm's civil engineering projects. Forensic expertise: Research, Professional Surveyor's Reports, and expert witness testimony in several Right-of-Way and RS-2477 disputes for governmental and private clients.

Major clients have included: The U.S. Postal Service, U.S. Air Force, U.S. Army Corps of Engineers, State of Alaska, University of Alaska, City of Fairbanks, City of Skagway, City of Anderson, City of Nenana, Fairbanks North Star Borough, Kennecott Corporation, VECO, Inc., The Austin Company, The IT Group, K-Mart.

Typical Projects:

- Over 30 Control surveys, including GPS surveys, involving aerial photography for parcels ranging in size from 40 acres to 300,000 acres.
- Over 205 large residential and agricultural subdivisions and cadastral surveys, plus several Remote Parcel projects for Alaska Dept. of Natural Resources.
- Large Mapping projects, including the Municipal Base Maps for the City of Nenana; topographic maps for projects on Eielson AFB, Ft. Wainwright, and the UAF Poker Flat Rocket Range; strip contour mapping in Goldstream Valley for AK. DNR; Ester VFD base mapping.
- Civil design and survey for numerous Service Area road improvement projects for the Fairbanks North Star Borough, and for large-scale private residential and recreational developments within the Borough.
- Route surveys, including over 35 miles for the Nenana-Totchaket Agricultural Area Transportation System; 23 miles of right-of-way acquisition and firewood road in the Cache Creek area, and 59 miles of right-of-way in Goldstream Valley for Alaska DNR.
- Numerous hydrographic, topographic, and general engineering surveys including the Ft. Wainwright Housing Replacement; Nenana Erosion Control project; Noorvik Erosion Control project; Galena AFS Runway Repairs; Ft. Wainwright Fuel Tank dikes and drains.
- Site surveys and topographic work for industrial parks, schools, commercial developments, communications stations, municipal buildings, and military facilities.
- Construction surveys for several projects including the Parks/Chena Ridge Interchange, Northway Road Improvement, Eielson AFB 801 Housing Project, Chena River Maintenance Dredging, 1999, 2000, UAF IARC and Natural Sciences Facility; Chena Lakes Flood Control Project, Ft. Wainwright Runway Repairs, Nenana Road and Airport Improvements.
- Mineral Patent Surveys in the Brooks Range, Ester, Central, Eagle, and Cordova Mining Districts.
- Civil/structural Engineering and Surveying services for military facilities at Eielson Air Force Base, including pipeline location, runway/taxiway repairs, water/sewage treatment plants renovations, street improvements, and structural renovations/roof repairs & replacement.
- CADD services, using the latest versions of AutoCAD, AutoMAP, and Softdesk and Eagle Point engineering and design software, on a network of 6 stations. The firm owns 3 AutoCAD licenses.
- Forensic surveying services for the State of Alaska, Fairbanks North Star Borough, U.S. Army, and various private clients concerning drainage, encroachments, rights-of-way, mining rights, and RS-2477 disputes.

Other Work Experience:

1977-78: Chief of Parties for numerous land surveys and construction survey and quality control at the Frost Heave Test Sites in Fairbanks, Tok, and Moose Creek for Northwest Gas line.

1976-77: Chief of Parties: Several Construction projects, including the North Pole Refinery, GVEA Power Plant #2 at North Pole, Steese Bypass and Chena River Bridge; and many land survey projects.

1974-76: Chief of Parties for several projects for Trans-Alaska Oil Pipeline and Haul Road Project, including construction surveys at Pump Station #5, Prudhoe Bay, Galbraith, Old Man, and Franklin Bluffs Camps.

1972-73: Party Chief on Lemeta Sewer Project in Fairbanks; Erosion Control Project, Galena.

1970-71: Numerous land and construction survey projects for pre-construction phases of the oil pipeline.

1968-70: Land surveying in the Fairbanks area.

Professional Affiliations and Community Service Organizations:

- State of Alaska Board of Registration for Architects, Engineers, and Land Surveyors, Member, 1988-1992 and 1996 - Present.
- National Council of Examiners for Engineering and Surveying, Committee on Land Surveying, 1989-1993.
- Alaska Professional Design Council, Member, 1984- present; Legislative Liaison Committee, 1990 - present.
- American Congress on Surveying & Mapping, Alaska Section, Member since 1978; Chairman, 1990 and 1996 - present.
- Alaska Society of Professional Land Surveyors: Member, 1978-present; Legislative Chairman, 1985-90, and 1996- present; President, 1988-89.
- Alaska Surveying and Mapping Conference: Participant, 1981-present; Conference Host and Chairman, 1988; 1991; 1998, and 2002.
- Alaska Land Surveyors Examination Committee, Chief Organizer 1993-Present.

ROBERT MILLER
7729 Anne Circle
Anchorage, AK 99504-4601

Miller, Robert E.
Architects/Engineers/Land
Surveyors, State Board

March 2, 2000

Tony Knowles, Governor
Third Floor, State Capitol
P.O. Box 110001
Juneau, AK 99811-0001

Dear Governor Knowles:

I respectfully request that you consider my application for reappointment to the Board of Registration for Architects, Engineers, Land Surveyors and Landscape Architects. My initial appointment will expire July 2000. Although my UAA appointment as Director of the School of Engineering in January 1998 has reduced my classroom involvement, my combination of professional and academic experience has been helpful to the Board.

I have been guided by the Board's mandate to protect the public health, safety and welfare. On an operational level, I have attempted to communicate regularly with the local engineering organizations regarding Board programs and initiatives.

During my tenure on the Board I am particularly proud to have been involved in the following:

- Increase education level for both professional engineers and land surveyors
- Assisted landscape architects in meeting the requirements for initial registration
- Worked cooperatively with the Division of Occupational Licensing and the Engineering Department at UAF to eliminate late application appeals and allow UAF students to complete their degrees.
- Served as the secretary, and current vice chair of the AELS Board with attendance at all Board meetings.

Sincerely,

Robert E. Miller

ACU/1020/00 2.03

ROBERT E. MILLER

TITLE:

Professor and Head, Civil Engineering
University of Alaska Anchorage

EXPERTISE:

Water Resources Engineering
Solid & Hazardous Waste Management
Legal-Technology Interaction

EXPERIENCE:

- October 1990 - August 1996: Professor in Civil Engineering and Head,
Environmental Engineering
University of Alaska Anchorage
- March 1990 - October 1990: Interim Dean, School of Engineering
University of Alaska Anchorage
- July 1981 - March 1990: Professor in Civil Engineering
University of Alaska Anchorage
- September 1976 - July 1981: Assistant Professor in Civil Engineering
Portland State University, Portland, OR
- January 1973 - June 1976: Assistant Professor in Civil Engineering
U.S. Coast Guard Academy, New London, CT
- September 1969 - December 1972: Graduate Student and Research Associate
in Water Resources, University of Colorado, Boulder, CO

Consulting Engineer, Ray & Associates, Boulder, CO
- September 1967 - August 1969: Lecturer and Research Associate in Water
Resources, University of Nevada, Reno, NV

August 1965 - August 1967: Graduate Student and Research Assistant
Hydraulics Division of the Civil Engineering Department,
Lehigh University, Bethlehem, PA

Summary of qualifications

Juneau Electric

2770 Sherwood Lane, Suite J, Juneau, Alaska

On November 7, 1994, I became the owner of a company that I had been employed by for the past five and a half years. I am now responsible for every part of the continued operation of an existing electrical contracting company that had been doing approximately four million dollars annually. Since acquisition, I have continued to operate the company profitably and professionally and we currently have increased our market share by a small percentage. The transition was made in a very smooth and orderly fashion, both internally and for our customer's convenience. My work load and my work force has remained stable indicating satisfaction with my company.

My duties include but are not limited to purchasing, customer relations, supervision of accounts payable and receivable, dispatching, estimating, negotiation with customers, employees, and suppliers, and the coordination of materials and manpower to complete work in a timely manner.

Grasle Electric

P.O.Box 34272, Juneau, Alaska 99803

I was employed by Grasle Electric from April of 1989 until November of 1994. I started with Grasle shortly after becoming a licensed Journeyman Electrician and went to work for them in their service department. I worked with the tools and did all phases of repair and construction of both new and remodeled commercial, industrial and residential buildings. After a year and a half, I went to work for them as a foreman on their larger projects. One of the projects that I was responsible for was the JCPenney store here in Juneau. That project had a \$500,000 electrical budget and I worked a crew of up to fourteen men.

I spent the last three and a half years at Grasle working as the service department manager and small project manager. In that position I was responsible for estimating work, electrical design, ordering materials, dispatching electricians, verification and approval of accounts payable and verification and approval of job costing and invoicing. I was also responsible for customer relations, to increase business, to keep current customer satisfaction high and to deal with any customer problems. In addition, it was my responsibility to keep track of and order any and all materials and tools that Grasle kept in stock for their normal day to day business

International Brotherhood of Electrical Workers, Local 1547

124 Front Street, Juneau, Alaska 99801

Since 1982 I have worked through the I.B.E.W. as an apprentice or journeyman inside wireman. Like most union electricians, I have worked for most of the electrical contractors here in Southeast Alaska at one time or another. Each contractor and each journeyman has a different way of doing the same job. By changing employer's, the apprentice is exposed to a variety of different types of work and methods. I have worked on airports, hospitals, office buildings, schools, hydro-electric generators, individual residences, apartment buildings, traffic control and street lighting, churches, movie theaters, shopping malls, retail shops, parking garages, harbor facilities, and gold mines. I have installed everything from the main service to the intercom system. I have worked on only parts of some buildings and have been involved in the entire process on others. I have been in the electrical business for over 14 years.

Education

Alaska Electrical Apprenticeship Training and Trust

Anchorage, Alaska

An electrical apprenticeship training program is offered jointly by the National Electrical Contractors Association and the International Brotherhood of Electrical Workers. This program consists of the completion of 8000 "on the job" hours, supervised by a licensed Journeyman Electrician and 500 hours of class room instruction. The class room instruction includes many thousands of pages of reading, closed book testing and the necessity of maintaining at least a 70% score to successfully exit the program. The union also administers their own journeyman test, in addition to the state test, that takes 8 hours to complete and tests for knowledge of all aspects of electrical construction and theory. I successfully completed the apprenticeship program with a score of 96%. I passed my union journeyman test with a score of 88% and my state journeyman test with a score in the mid 90 percentile. I became licensed journeyman in 1985.

Western Washington State University

Bellingham, Washington

I attended Western Washington State University for three and one half years beginning in 1972. Although I did not obtain a degree while there, I did complete all of the course work for a BA in Political Science/Public Administration. I also completed the bulk of the necessary general education requirements. I did not complete the degree program at that time because of personal financial problems but intended to return to finish and never was able to. I have completed two associate degrees in fields of interest and employment since leaving Western in 1975.

Additional professional activities

I have attended a number of seminars offering advanced training in specialized areas of electrical construction and theory. Included in these are a seminar and home study course on electrical estimating, a seminar on reduced and variable frequency drive motor starters, a course on practical foremaning, another on management techniques and people skills. I also subscribe to four monthly trade journals designed to keep electricians and management up to date on the latest equipment, techniques, and trends.

References

Dave Elsensohn P.O Box 34272, Juneau, Alaska 99803

Mr. Elsensohn was my supervisor at Grasl Electric.

Cheryl Fluck 2760 Sherwood Lane Suite 2E

Ms. Fluck was a general contractor for many years.

Tom Cashen, Commissioner, Department of Labor.

Mr. Cashen was my business agent and personal friend for many years.

Roger Sams, Electrical Inspector, State of Alaska, Juneau

Mr. Sams has known me since I first became an apprentice.

Al Dwyer, Electrical Inspector, State of Alaska, Anchorage

Mr. Dwyer has inspected many of the projects that I have worked on.

Objective

My objective is to own and operate an electrical contracting company that is "successful" in several different ways. Like most people, I hope to be financially successful so that I can contribute to my family's financial security. I also hope to be able to provide a secure and stable employment opportunity for the electricians and staff that I have working for me. I hope to successfully provide a service to our community by developing a trust between the public and our company that we can be depended upon. I hope to help the construction industry continue to attract qualified craftsmen by providing a safe, healthy, and financially rewarding environment.

S U M M A R Y

During the past 12 years in Alaska, I have worked and traveled in various regions of the State and believe that this experience may be of benefit to the people of Alaska. I have worked with Alaskans from Barrow to Angoon and St. Paul to Metlakatla and feel privileged that I have developed friendships and had successes throughout the State. As a member of Rotary East, I have been involved in many community based projects and initiatives. I am available and willing to serve on any Board or Commission where my experiences and talents may be put to use.

W O R K H I S T O R Y

UniServ Director, National Education Association- Alaska 1991- Present
Responsible for planning, implementing and supervising service delivery to local teacher and support staff employee organizations. The local employee organizations engage in contract negotiations, grievance arbitrations, political action, and community outreach. My staff responsibilities include advising executive committees and presidents of the local organizations in the areas of employee/employer relations, mediation between employee and employer and public relations. I serve on the National Arbitration Cadre for NEA and teach arbitration/mediation skills.

Field Representative, Alaska Public Employees Association 1988- 1991
Represented union members in disciplinary matters; negotiated collective bargaining agreements; represented members in binding arbitration hearings and other administrative proceedings.

Civilian Attorney/Advisor, DOD at Fort Wainwright 1987- 1988
Provided legal advice and assistance on questions of federal and state laws to soldiers, dependents, retirees and other eligible individuals. Provided legal advice and assistance to the Command and Staff on general administrative law matters.

BOLDEN & ASSOCIATES, P.C., Attorney at Law 1983- 1987
Founder and senior partner in a general practice of law in Georgia. Operated two law offices and managed two partners with associate staffs. Served as attorney for minority businesses, contractors, referrals from State and District Courts. Previously served as Assistant Solicitor of Fulton County and prosecuted misdemeanors.

BOND, STEPHENS, JOHNSON & JACKSON

COMMERCIAL REAL ESTATE SERVICES

(Resides in Anchorage)

Lottie M. Michael, CCIM

- 1997 - present Associate Broker, Bond, Stephens & Johnson, Inc., Commercial Real Estate Services, Inc. Specializing in investment sales and leasing.
- 1998 Developed, leased and managed Ptarmigan View Apartments, a housing project for independent living senior citizens.
- 1992 - 1996 Managing Partner, Michael Investments, Ltd. A commercial real estate development, investment and management company. Responsible for approximately 400,000 square feet of office, retail, residential, and industrial properties.
- 1990 - 1992 TRI ONCOR International Commercial Real Estate Services, Santa Rosa, California, Senior Vice President, Salesperson of the year, Commercial Division.
- Developed and leased to General Services Administration / FAA a build-to-suit facility.
- 1987 - 1990 Grubb & Ellis Real Estate, Land and Investment Division, north San Francisco Bay area. Sales and lease volume of \$40,000,000.
- 1985- 1987 Developed Zack's Famous Frozen Yogurt franchises in Alaska, Washington, Oregon and Hawaii.
- 1985- 1991 Developed, leased and managed shopping center, Soldotna, Alaska.
- 1983 - 1985 Developed and marketed residential subdivision, Anchorage, Alaska

1980 - 1986	Owned and managed full service real estate company with seventy sales associates and three locations.
1980 - 1987	Red Carpet Corporation of America. Developed real estate franchises in Alaska. Led the nation in productivity.
1972	Sales Associate, Anchor Realty, Inc., Anchorage, Alaska

Licenses and Professional Designations

Real Estate Salesman, State of Alaska, January 1972
Real Estate Associate Broker, State of Alaska, June 1975
Real Estate Broker License, July 1977
GRI (Graduate Realtor Institute), February 1980
CCIM (Certified Commercial Investment Member of the Realtors National Marketing Institute), March 1983
Real Estate Salesman, State of California, October 1987

Personal

Municipality of Anchorage, Board of Equalization, Vice Chairman 1994 - present
Brother Francis Shelter, Board of Directors, 1993 - present
Anchorage Board of Realtors, President, 1983
Multiple Listing Service, MLS, President, 1981

resume for
JAMES S. STRANDBERG, P.E.

Resides in Anchorage

EDUCATION: University of Alaska - Fairbanks
B. S. Mechanical Engineering, 1970
M. S. Arctic Engineering, 1983

REGISTRATION: Professional Civil Engineer, Alaska, 1975, #3887E
Professional Mechanical Engineer, Alaska, 1982, #ME 5320

PROFESSIONAL ACTIVITIES:

American Society of Heating, Refrigerating and Air Conditioning Engineers, (ASHRAE), Affiliate Member
American Society of Mechanical Engineers, Member
National Society of Professional Engineers, Member
Tau Beta Phi, Scholastic Honor Fraternity, Member

COMMUNITY ACTIVITIES:

past chairman, City of Fairbanks Energy Code Subcommittee
past member, City of Fairbanks Code Review Commission
past member, Fairbanks Community Band
past member, Fairbanks Symphony Association Board of Directors
past member, Fairbanks Youth Orchestras Board of Directors

EXPERTISE AREAS:

- Design of mechanical and civil systems, and energy distributions systems for power plant, commercial and institutional facilities
- Analysis and design of cogeneration/district heating systems
- Design of building and industrial control systems
- Energy conservation analysis, design under technical assistance programs.
- Large project development and management
- Thermal power plant economics
- Building science [Mechanical systems and thermal envelopes]
- Life cycle cost analysis

WORK EXPERIENCE:

After completing his bachelor of science degree in 1970, Jim Strandberg worked for 6 years with R&M Consultants, Inc., one of the prime Alaskan geo-technical/civil consultants on the Trans-Alaska Pipeline. He developed pipeline construction workpad design criteria and wrote criteria documents that were the basis for pipeline design. He worked on the design and assisted in the operation of large scale field tests that validated the design criteria.

He collected applied research data for prototypes of the heat pipes now employed on the Trans-Alaska Pipeline. These studies included the measurement of extremely low air velocities at very cold temperatures, recording of ground temperatures, the recording of interior pile wall temperatures, all for air convection

cooled support piles. At a staff level, he pursued field data collection programs for ground temperatures, and collected and validated data for use by Esso Production Laboratories, developer of the passively refrigerated support pile designs. A number of the field tests were at remote locations along the alignment, with difficult access and very difficult operating conditions.

He participated the design of and field operations of thermal conductivity test probes to compare between field laboratory measurements, and those predicted by Miles Kersten. He also was involved in large scale uni-axial thaw settlement tests on samples from the Copper River Basin and high ice content samples from the North Slope.

During the design phase of the Pipeline project, Strandberg was stationed in Fairbanks and Anchorage, Alaska and in Houston, Texas as a consultant's representative, working on Alyeska Pipeline Service Company's design team.

In 1976, Strandberg joined an Anchorage based design consulting firm, Mark Fryer & Associates. For a period of 4 years, as an Engineering Associate, he designed roadways, site grading and utilities. He also designed central energy systems upgrades, and developed a specialty in the design of buried and above grade energy utilities [steam and hot water]. This involved extensive travel throughout Alaska to rural communities.

In 1980, Strandberg returned to Fairbanks, Alaska with his family and entered into a Masters of Science degree program in Arctic Engineering at the University of Alaska. This program had a tailored curriculum of Engineering Economy and Heat Transfer in northern regions. Strandberg completed a thesis on life cycle cost analysis for northern region institutional buildings. This document was also produced as a research report through the State of Alaska DOT-PF Research Section, and included a thermal standard for Alaskan rural schools. He completed his masters degree in 1983.

Beginning in 1980, Strandberg operated the consulting firm of JS Strandberg Consulting Engineers, Inc., accomplishing mechanical and civil design. The firm designed mechanical systems for major buildings that were constructed in Fairbanks and Alaska-wide from 1980 through 1988.

Strandberg Engineers also accomplished specialized research activities with the State of Alaska DOT-PF research section in building science, and accomplished numerous feasibility studies of large scale engineering projects, achieving a maximum staff of 11 personnel, and maintaining practice in Mechanical and Civil Engineering.

In 1988, Strandberg merged the firm with CMH Consultants of Anchorage, a respected long lived Alaskan Consulting Firm. Strandberg continued with the firm for a 2 year period, serving as Fairbanks Office Manager and stockholder. His work centered around large scale mechanical design projects, and continuing buildings research in the optimization of mechanical systems, again through the University of Alaska Institute of Northern Engineering.

Strandberg joined the University of Alaska, Facilities Planning and Construction, Northern Region as a project manager in 1990, assigned to begin the Poker Flat Research Range Upgrade.

He joined the Geophysical Institute, University of Alaska Fairbanks as the Director of the Poker Flat Research Range (PFRR) on July 1st, 1991, and served in that position until the fall of 1994. As range director, he was responsible for the \$20 Million functional and scientific upgrade of the Research Range, working under the supervision of Institute Director Dr. Syun-Ichi Akasofu.

Strandberg was responsible during this time, for a master plan for facilities and utilities development, and a scientific implementation plan was developed for PFRR by the research range staff and Geophysical Institute Scientific staff. A total of 20,000 GSF of research facilities, and range communications were designed and have been constructed.

In the fall of 1994, he became the External Projects Coordinator for the Geophysical Institute and developed a research business base for the PFRR and for other arms of the Geophysical Institute, until summer of 1995. Also during 1995, Strandberg for a 6 month period assisted the University of Alaska Small Business Development Center to evolve and energize the Alaska Technology Transfer Assistance Center (ATTAC). During this time, ATTAC was instrumental in helping state-wide clientele of small businesses to access and commercialize technologies both in the University of Alaska research sector and in the massive federal laboratory resource. Strandberg worked in close coordination with the State of Alaska Division of Energy and Alaska Science and Technology Foundation and the University of Alaska Fairbanks to foster applied research projects in alternate fuels. Strandberg served as a liason between the University of Alaska School of Engineering and other state entities in alternate fuels research projects.

Strandberg left the University of Alaska in early 1996, and he presently practices in Alaska as J.S. Strandberg Consulting Engineers, Inc. with focus on power plant energy systems analysis and design, project development analysis, and heating, ventilating and air conditioning (HVAC) design, and in design of buried heating utilities and related Civil Engineering design. Strandberg is a specialist in the design and operation of cogeneration systems, building mechanical systems, and in building energy conservation. J.S. Strandberg Consulting Engineers, Inc. is computer based and is fully equipped for computer based design, employing AutoDesk ACAD release 14. Strandberg employs an in-house cogeneration performance simulation software, that is based on Visual Basic, to evaluation cogeneration economics.

SAMPLING OF PROJECTS:

Client: Fairbanks Municipal Utilities System

ASH HANDLING CONTROL SYSTEM - design of a programmable logic controller (PLC) based control system for the Fairbanks Municipal Utilities (FMUS) System, to replace an aging mechanical relay system (1994).

STEAM INTERTIE PROJECT - Design of a 50,000 lb/hr pressure reducing/attenuation station for a safety bypass to create 50 psig saturated steam from 600 psig, 750 deg F header steam for district heat service (1995).

MUD DRUM HEATER PROJECT - Design of a 400 MBH heating coil system for maintaining a 50,000 lb/hr steam boiler in operation, at the FMUS powerplant, using 600 psig steam. Design for Chena boilers 1 and 3. (1994)

COST OF SERVICE ANALYSIS - Accomplish analysis of costs of operation of the FMUS powerplant and assess the costs for electricity and heat from the 28.5 MW FMUS cogeneration power-plant. (1995)

CHENA 3 BOILER UPGRADE - Design upgrade of internal fire bricking, replace main diverting baffling, replace all superheat pendants, and internal cleaning of the boiler, for FMUS Chena Boiler 3. (1990)

ASSISTANCE IN OPERATION OF FMUS POWER PLANT - Contracted with FMUS utility management for selected training of plant operators in the operation of cogeneration systems. Also, investigated a flawed start-up procedure on the utility's chena 5 boiler, to determine potential of damaged superheat pendants.

Client: Fairview Manor

FAIRVIEW MANOR DISTRICT HEAT MODIFICATION - For a 300,000 square foot multifamily apartment facility in Fairbanks, Alaska, design for 4 mechanical rooms a plate to plate heat exchanger and associated piping and controls to convert the structure from oil fired boilers to district heating (1993).

Client: DOYON, Limited

MCGRATH LOW RANK COAL PROJECT - Accomplish design review services and preliminary design for hot water district heating system, for a 600 kWe coal fired fluidized bed combustor cogeneration power plant for McGrath, Alaska. (1995)

MCGRATH COAL FIRED POWER PLANT FEASIBILITY PROJECT - Prime feasibility consultant for demonstration project, with work consisting of completion of preliminary design, cost estimate and thermal performance simulation, feasibility determination for plant operation and 95 mile winter coal haul.

Client: ECI/Hyer Architects

JOY ELEMENTARY SCHOOL - Accomplish Mechanical Design Services for the renovation of this 50,000 GSF school in Fairbanks, Alaska (1989)

Client: Golden Valley Electric Association

POWER PLANT PERFORMANCE PROJECT - Evaluate condition of power plant, establish condition of instrumentation, perform initial heat balance work, and develop framework for on line monitoring of plant performance to allow plant engineer and operators to optimize operation of the system. (ongoing, 60% complete)

Client: Aurora Energy, LLC

NORTH DISTRICT HEATING EXPANSION FEASIBILITY - Accomplish an in-depth feasibility for the extension of a 250 deg F hot water heating main to the north section of Fairbanks, to make use of available extraction steam in the power plant. (1998 - complete)

BLOWDOWN HEAT RECOVERY UNIT - Accomplish an engineering design for placement of a new blow-down tank that will recover heat from the boiler's continuous blowdown. (1998 - complete)

CONTROL ROOM ADDITION - Accomplish engineering design for a new plant control room, to house new distributed control system micro-computer control stations. (1998 - complete)

COST OF SERVICE ANALYSIS - Accomplish engineering analysis services to determine a method of assessing the internal cost of production of district heating energy in the Aurora Energy power plant. (1998 - complete)

McGrath Light and Power (MTNT, Limited), McGrath, Alaska

BURIED DISTRICT HEATING REPLACEMENT - Accomplish engineering design and construction phase assistance for the installation of 1000 trench feet of thin walled, axially restrained heating pipe for jacket water waste heat delivery to the FAA (1997 - complete)

POWER PLANT PIPING UPGRADE - Accomplish engineering design for the upgrade of jacket water heat rejection piping and controls in the McGrath Power Plant. (Design complete - construction pending)

BIOMASS BASED COMMUNITY ENERGY SYSTEM ANALYSIS - Accomplish a feasibility for the implementation of a community level cooperative energy system that would reduce the amounts of diesel fuel brought into the community. Idea makes use of wood chip fired hydronic boilers in combination with generator water jacket heat, and decentralized power generation, and would result in utility savings for school and City combined facility. (1997-98 - complete, project moved into preliminary design which is presently underway.)

BIOGRAPHY

RESIDES IN FAIRBANKS

COLONEL WILLIAM F. MCDONALD USAF Ret

Colonel William (Bill) F. McDonald ^{was} the commander of the 354th Logistics Group, Eielson AFB, Alaska.

Born in Columbus, Ohio, Jan 10, 1945, Colonel McDonald graduated from Bellevue High School, Bellevue, Neb., in June 1963 and the University of Missouri at Columbia in January 1968 with a bachelor's degree in secondary education also receiving an Air Force Reserve Officer Training Corps commission as a second lieutenant. He entered active duty on March 17, 1968. He received his master of science degree in industrial relations management from the University of Utah in 1975. Colonel McDonald's professional military education includes Squadron Officer School, Air Command and Staff College, and Air War College where he was an outstanding graduate.

After graduating from aircraft maintenance officer technical school in October 1968, he served 13 months as an F-100D squadron maintenance officer for the 308th Tactical Fighter Squadron at Tuy Hoa AB, Republic of Vietnam. In November 1969 he was transferred to the 31st Field Maintenance Squadron, Homestead AFB, Fla., as the OIC of the fabrication branch, base support and transient maintenance, and subsequently as a flightline OIC for newly assigned F-4Es.

In rapid response to the April 1972 North Vietnamese offensive, Colonel McDonald deployed overseas as the material officer for the 308th TFS to Udon Royal Thai Air Force Base for a period of seven months. After returning to the United States, he was assigned as an F-4E flightline maintenance officer with the 31st Organizational Maintenance Squadron at Homestead, and was soon reassigned to Headquarters 17th Air Force, Sembach AB, Germany, as a fighter aircraft maintenance staff officer.

In 1976 he was among 52 logistics officers Air Force-wide selected to career broaden and attended the munitions officer course en route to Hill AFB, Utah, where he served as the squadron munitions maintenance supervisor with the 388th Munitions Maintenance Squadron. In 1979 he returned to his aircraft maintenance specialty and was selected as the F-16 conversion officer for the 388th Tactical Fighter Wing at Hill, bringing on the first F-16s and ultimately becoming the officer-in-charge of the 16th Aircraft Maintenance Unit in support of the 16th Tactical Fighter Training Squadron. Colonel McDonald later became the maintenance supervisor of the 388th Component Repair Squadron before an assignment to Headquarters,

U.S. Air Force, Washington DC, in July 1980.

At the Air Staff, Colonel McDonald served as the logistics program manager for the E4B and principally as the A-10 fighter program manager for logistics from 1980 to July 1984 when he was reassigned to the 8th Tactical Fighter Wing, Kunsan AB, Republic of Korea, as commander of the 8th Equipment Maintenance Squadron. In July, 1986, he was reassigned to Shaw AFB as the commander of the 363rd Component Repair Squadron. Eight months later, he was selected to be the assistant deputy commander for maintenance for the 363rd TFW at Shaw. In December 1986 the commander of Ninth Air Force selected him to become the commander of the 4507th Consolidated Aircraft Maintenance Squadron to oversee the OT-37 conversion to OV-10As and the deactivation of the last active duty Air Force CH-3s.

Following two-and-one-half years at the 4507th, Colonel McDonald was reassigned as the deputy director of munitions at Headquarters Tactical Air Command in July 1989 where he was appointed additional duty as headquarters assistant battle staff director during Desert Shield/Desert Storm until June 1991. He assumed his present duties July 1, 1991.

His decorations and awards include the ^{Legion of Merit,} Bronze Star, the Meritorious Service Medal with three oak leaf clusters, the Air Force Commendation Medal, the Air Force Achievement Medal, the National Defense Service Medal with bronze star device, the Vietnam Service Medal with silver star device, the Humanitarian Service Medal, the Vietnam Gallantry Cross with palm, and the Republic of Vietnam Campaign Medal.

He was promoted to colonel February 1, 1990.

He is married to the former Susan Pachella of Holicong, Pennsylvania. She is a retired U.S. Air Force lieutenant colonel employed as the executive director of the Fairbanks Board of Realtors.

Road, Anchorage, Alaska, 1981, Equipment Operator

SKILLS

Administration:

- * Supervision of support staff of ten
- * Developed and implemented office policies
- * Managerial accounting
- * Coordinate activity of Business Representatives
- * Employee benefits manager
- * Contract enforcement of collective bargaining agreements
- * Administrative hearings with the Alaska State Labor Relations Agency
- * Legislative and political activity
- * Job evaluation and classification

Arbitration:

- * Prepare and present arbitration cases
- * Investigation process
- * Examine and cross-examine witnesses
- * Prepare post hearing briefs
- * Knowledge of rules of evidence
- * Advocate in grievance mediation

Negotiating:

- * Develop proposals and write contract language
- * Defining and analyzing bargaining issues
- * Developing bargaining committee work
- * Record-keeping procedures
- * Mediation and Interest Arbitration
- * Effective bargaining communication
- * Impact of law on contract negotiations
- * Cost analysis

Union Organizing:

- * Research and planning
- * Developing a workplace committee
- * Formulate campaign and legal strategy

Communication:

- * Newsletter publication
- * Public speaking - large and small groups
- * Media interviews and news releases
- * Planning and conducting educational seminars and classes
- * Conflict resolution

EDUCATION

- * University of Wisconsin, Madison, Wisconsin, 1996, Job Evaluation.
- * George Meany Center for Labor Studies, Silver Springs, Maryland: 1995, Advanced Arbitration: 1994, Advanced Bargaining Skills and Strategies: 1993, Negotiating and Writing Contract Language.
- * International Foundation of Employee Benefits, Anchorage, Alaska, 1989, State Employees Benefits Institute.
- * International Foundation of Employee Benefits, Lake Tahoe, Nevada, 1990, Benefits for Public Employees.
- * American Arbitration Association, Seattle, Washington, 1988, Arbitration Advocacy.
- * American Arbitration Association, Los Angeles, California, 1988, Grievance Processing.
- * University of Alaska, Anchorage, Alaska, 1981-1983, 60 credits with an emphasis on Business Administration.
- * Patrick Henry High School, San Diego, California, 1977, graduate.

CURRENT APPOINTMENTS

- * Alaska State District Council of Laborers, Executive Board
- * Anchorage Central Labor Council, Delegate
- * Public Employees Local 71 Trust Fund, Trustee
- * Public Employees Local 71, Executive Board Member
- * CASA (Court Appointed Special Advocate) for Children, Advocate

Work Experience

Present Position - 1985 thru Present: Risk Manager, Alaska Railroad Corporation ("ARRC"). Administration of the Risk Management program for ARRC, with an emphasis in workers' compensation claims, third party tort claims, and freight loss and damage claims. Purchase assorted insurance policies (liability, property, director's & officers, fiduciary liability, etc.) on behalf of ARRC that address the railroad's exposures. Direct activities of insurance brokers and adjusters, and provide loss information and exposure analysis to ARRC senior management.

1979-1985: Manager, Loss and Damage Claims, ARRC. Responsible for the adjudication of freight loss and damage claims in accordance with the Association of American Railroads rules and regulations.

1976-1979: Payroll Specialist, ARRC: Responsible for all facets of the ARRC Payroll Department. Supervised two employees and was responsible for the proper accounting of time for the 500+ employees of ARRC.

1975-1976: Timekeeper, ARRC: Responsible for the procurement and submission of weekly time cards for all ARRC Engineering Department employees.

Fall 1974-Spring 1975: Clerk/Typist, Bureau of Land Management. Worked with the "Corridor Planning Team"; a task force formed to identify transportation corridors in the State of Alaska. This was a temporary position.

Military Service

United States Army 1971-1972. Honorably Discharged.

Personal

Born February 17, 1948, in Waukesha, Wisconsin.

Married with two boys currently in college (22 and 19). Wife, Susan, is the Librarian at Gladys Wood Elementary School in Anchorage. Anchorage resident for 27 years. Pastimes include traveling, golf, fishing, hiking, cycling, and skiing.

Marc D. Stemp
President and CEO
Bethel Native Corporation
P.O. Box 719
Bethel, AK 99559

Education: BSB in Accounting, with Distinction
University of Minnesota - 1972

I have been privileged to work closely with the Alaska Native people in moving their corporations to a point of endowed security. This experience has been formative for not only my career development but also my personal lifestyle commitment.

Experience makes clear that the opportunity for meaningful cross-cultural managerial leadership also exists independent of Alaskan Native Regional/Village Corporations. These cross-cultural skills which I have acquired, can be usefully employed in other arenas such as in assisting in the challenges of State Government.

Career History:

President and Chief Executive Officer of Bethel Native Corporation
Bethel, Alaska

March, 1994 to present

Bethel Native Corporation is the sixth largest Alaskan Native Village Corporation. The Company has 100,000 acres of land, 1700 shareholders and a balance sheet equity of \$2.5 million.

As President, I am directly responsible for all Corporate activities and report to a nine member Board of Directors.
