The Honorable Tom Anderson
Alaska House of Representatives
State Capitol, Room 432
Juneau, Alaska 99801

Dear Representative Anderson,

I am writing to ask for your support for HB434 that updates the practice of Naturopathic Medicine to safely meet the public's growing healthcare needs. Alaskans seek naturopathic doctors to treat a wide range of conditions, including chronic diseases like diabetes, arthritis, high blood pressure, and high cholesterol.

HB434 would enhance freedom of choice in healthcare, enabling residents to take responsibility for their own health while protecting the safety of Alaskans by ensuring access to only highly trained medical professionals who have met stringent licensing standards. It also ensures that the practice of naturopathic medicine is commensurate with the current educational standards and training.

Like medical doctors, naturopathic physicians are trained in an intensive four-year doctoral program that emphasizes a solid foundation in Biomedical Sciences and Western diagnostic methods, conventional and natural therapies (a bachelor's degree and pre-med background is also required for admission). This integrated approach, coupled with educational standards recognized by the United States Department of Education, allows naturopathic physicians to reach a profound diagnostic understanding of their patients' health problems, and provide treatment plans that integrate conventional and alternative therapies.

For the past 17 years the State of Alaska has allowed residents the freedom to access licensed, well-trained, safe and effective naturopathic doctors. Passing HB434 will extend Alaska residents' freedom of choice when it comes to their own personal healthcare. They will not be forced to see separate physicians and incur double cost for medical treatment. Please, pass this bill that will uphold the freedom of choice in healthcare and bring the practice of naturopathic medicine current with the education naturopathic physicians receive.

Thank You,

Tabatha Parker

Like medical doctors, naturopathic physicians are trained in an intensive four-year doctoral program that emphasizes a solid foundation in Biomedical Sciences and Western diagnostic methods, conventional and natural therapies (a bachelor's degree and pre-med background is also required for admission). This integrated approach, coupled with educational standards recognized by the United States Department of Education, allows naturopathic physicians to reach a profound diagnostic understanding of their patients' health problems, and provide treatment plans that integrate conventional and alternative therapies.

For the past 17 years the State of Alaska has allowed residents the freedom to access licensed, well-trained, safe and effective naturopathic doctors. Passing HB434 will extend Alaska residents' freedom of choice when it comes to their own personal healthcare. They will not be forced to see separate physicians and incur double cost for medical treatment. Please, pass this bill that will uphold the freedom of choice in healthcare and bring the practice of naturopathic medicine current with the education naturopathic physicians receive.

Thank You,

Robyn Barlow

Dear Representative Anderson,

I am writing to ask for your support for HB434 that updates the practice of Naturopathic Medicine to safely meet the public's growing healthcare needs. Alaskans seek naturopathic doctors to treat a wide range of conditions, including chronic diseases like diabetes, arthritis, high blood pressure, and high cholesterol.

HB434 would enhance freedom of choice in healthcare, enabling residents to take responsibility for their own health while protecting the safety of Alaskans by ensuring access to only highly trained medical professionals who have met stringent licensing standards. It also ensures that the practice of naturopathic medicine is commensurate with the current educational standards and training.

I am writing to ask for your support for HB434 that updates the practice of Naturopathic Medicine to safely meet the public's growing healthcare needs. Alaskans seek naturopathic doctors to treat a wide range of conditions, including chronic diseases like diabetes, arthritis, high blood pressure, and high cholesterol.

HB434 would enhance freedom of choice in healthcare, enabling residents to take responsibility for their own health while protecting the safety of Alaskans by ensuring access to only highly trained medical professionals who have met stringent licensing standards. It also ensures that the practice of naturopathic medicine is commensurate with the current educational standards and training.

Like medical doctors, naturopathic physicians are trained in an intensive four-year doctoral program that emphasizes a solid foundation in Biomedical Sciences and Western diagnostic methods, conventional and natural therapies (a bachelor's degree and pre-med background is also required for admission). This integrated approach, coupled with educational standards recognized by the United States Department of Education, allows naturopathic physicians to reach a profound diagnostic understanding of their patients' health problems, and provide treatment plans that integrate conventional and alternative therapies.

For the past 17 years the State of Alaska has allowed residents the freedom to access licensed, well-trained, safe and effective naturopathic doctors. Passing HB434 will extend Alaska residents' freedom of choice when it comes to their own personal healthcare. They will not be forced to see separate physicians and incur double cost for medical treatment. Please, pass this bill that will uphold the freedom of choice in healthcare and bring the practice of naturopathic medicine current with the education naturopathic physicians receive.

Thank You,

Jessie Speirs

It also ensures that the practice of naturopathic medicine is commensurate with the current educational standards and training.

Like medical doctors, naturopathic physicians are trained in an intensive four-year doctoral program that emphasizes a solid foundation in Biomedical Sciences and Western diagnostic methods, conventional and natural therapies (a bachelor's degree and pre-med background is also required for admission). This integrated approach, coupled with educational standards recognized by the United States Department of Education, allows naturopathic physicians to reach a profound diagnostic understanding of their patients' health problems, and provide treatment plans that integrate conventional and alternative therapies.

For the past 17 years the State of Alaska has allowed residents the freedom to access licensed, well-trained, safe and effective naturopathic doctors. Passing HB434 will extend Alaska residents' freedom of choice when it comes to their own personal healthcare. They will not be forced to see separate physicians and incur double cost for medical treatment. Please, pass this bill that will uphold the freedom of choice in healthcare and bring the practice of naturopathic medicine current with the education naturopathic physicians receive.

Thank You,

Margaret Havlik

Dear Representative Anderson,

I am writing to ask for your support for HB434 that updates the practice of Naturopathic Medicine to safely meet the public's growing healthcare needs. Alaskans seek naturopathic doctors to treat a wide range of conditions, including chronic diseases like diabetes, arthritis, high blood pressure, and high cholesterol.

HB434 would enhance freedom of choice in healthcare, enabling residents to take responsibility for their own health while protecting the safety of Alaskans by ensuring access to only highly trained medical professionals who have met stringent licensing standards. It also ensures that the practice of naturopathic medicine is commensurate with the current educational standards and training.

Like medical doctors, naturopathic physicians are trained in an intensive four-year doctoral program that emphasizes a solid foundation in Biomedical Sciences and Western diagnostic methods, conventional and natural therapies (a bachelor's degree and pre-med background is also required for admission). Passing HB434 will extend Alaska residents' freedom of choice when it comes to their own personal healthcare. They will not be forced to see separate physicians and incur double cost for medical treatment. Please, pass this bill that will uphold the freedom of choice in healthcare and bring the practice of naturopathic medicine current with the education naturopathic physicians receive.

Thank You,

Dear Representative Anderson,

I am writing to ask for your support for HB434 that updates the practice of Naturopathic Medicine to safely meet the public's growing healthcare needs. Alaskans seek naturopathic doctors to treat a wide range of conditions, including chronic diseases like diabetes, arthritis, high blood pressure, and high cholesterol.

HB434 would enhance freedom of choice in healthcare, enabling residents to take responsibility for their own health while protecting the safety of Alaskans by ensuring access to only highly trained medical professionals who have met stringent licensing standards. It also ensures that the practice of naturopathic medicine is commensurate with the current educational standards and training.

Like medical doctors, naturopathic physicians are trained in an intensive four-year doctoral program that emphasizes a solid foundation in Biomedical Sciences and Western diagnostic methods, conventional and natural therapies (a bachelor's degree and pre-med background is also required for admission). This integrated approach, coupled with educational standards recognized by the United States Department of Education, allows naturopathic physicians to reach a profound diagnostic understanding of their patients' health problems, and provide treatment plans that integrate conventional and alternative therapies.

For the past 17 years the State of Alaska has allowed residents the freedom to access licensed, well-trained, safe and effective naturopathic doctors. Passing HB434 will extend Alaska residents' freedom of choice when it comes to their own personal healthcare. They will not be forced to see separate physicians and incur double cost for medical treatment. Please, pass this bill that will uphold the freedom of choice in healthcare and bring the practice of naturopathic medicine current with the education naturopathic physicians receive.

Thank You,

Morgan, Titus
