Department of Corrections

SUBJECT: *ADN 20-3-0051*
Miscellaneous Claims

The Department of Correction's miscellaneous claims request is in the amount of \$5,829.85. The Department has received invoices for services and purchases rendered during prior fiscal years. These claims have been examined and verified as obligations not yet paid. Research indicated that these invoices were not received in the department during the fiscal year in which the obligation occurred and were not included in the final expenditure determinations. Therefore, a valid claim exists and payment is due.

Attached for your review is a spreadsheet summarizing these claims and copies of the invoices.

Your consideration and approval of this request is appreciated. Should you have any questions or need additional information, please contact me.

Administrative Services – Misc. Claims

\$5,107.28 General Fund

The department entered into a lease/purchase agreement for a Sharp Digital Imager copier on November 19, 1999. No invoices were received for this purchase. Once the error was discovered, Sharp Electronics Corporation worked with the department to submit invoices for each fiscal year. We are unable to pay the FY2000 invoice as it exceeds the department's authority. A miscellaneous claim supplemental is requested to cover this invoice.

Documentation regarding the lease/purchase and the correspondence is attached.

Mahwah, NJ 07430

RE: PO / DO 52030400

This is in response to your letter of February 19, 2002 regarding the purchase of a Sharp Digital Imager copier on November 19, 1999. On the letter, you claimed that your company never invoiced the department for this purchase.

We were able to identify the equipment by the serial number on the copy of the installation report you provided with your letter, however we were unable to find invoices for this purchase.

Based on the information you have provided and our files, this purchase was based on a lease/option to purchase with 36 equal monthly payments with the terms as shown below:

\$5,107.28	Fiscal year 2000	→ Invoice is <u>Attached</u>
\$7,660.92	Fiscal year 2001	
\$7660.92	Fiscal year 2002	
\$2554.64	Fiscal year 2003	
\$1.00	purchase option at the end of the 36 months.	

Please submit separate original invoices for each fiscal year. The department will immediately pay for the fiscal years 2001 and 2002. For the fiscal year 2000, we will need to request a miscellaneous claim supplemental appropriation on January 2003. If our request is approved, the payment would be issued in July 2003. Fiscal year, 2003 will be paid after July 1, 2002.

Thank you.

MEMORANDUM

State Of Alaska
Department of Environmental Conservation
Division of Administrative Services

TO: Steve Hildebrand
Program Budget Analyst
Office of Management & Budget

DATE: January 14, 2003

Office of
MANAGEMENT & BUDGET

FROM: Laura Beason 
Finance Officer

SUBJECT: Miscellaneous Claim FEB 06 2003

The Department of Environmental Conservation requests a miscellaneous claim in the amount of \$568.03 to pay for an FY01 copier lease charge for the month of January 2001.

This lease payment for \$568.03 was paid by warrant no. 26835286 on 12/29/00. Subsequent monthly lease payments were made from invoices that usually were received with insufficient time to turnaround and get the payment posted before the next month invoice was issued, hence they had a balance forward from the previous month. When a past due notice was received it was just assumed that the payment and invoice had once again crossed in the mail as the past due notice did not mention a specific invoice number or date to reference, only the account number and past due amount. When a past due notice dated September 4, 2002 was received, the last payment showed that the vendor had redeemed the warrant before that date so was contacted to find out why it had been sent. That is when it was discovered that this past due balance was from an invoice dated 12/21/2000. The invoice number given by the vendor was put into AKSAS and showed that the warrant issued (26835286) to pay that invoice had a stop pay put on it 7/27/2001. AKSAS also revealed that the Dept of Corrections had done the stop pay. Corrections was contacted directly by the vendor that they had not received this payment so Corrections did a stop pay, but did not reissue the warrant or contact the Dept of Environmental Conservation about it, therefore was never reissued.

The request to waive this claim due to the circumstances and age was denied by the vendor's corporate office.

MEMORANDUM

State of Alaska
Department of Law
Administrative Services Division

TO: Cheryl Frasca, Director
Office of Management and Budget

DATE: 02/14/03

FROM: Kathryn Daughhete, Director
Administrative Services Division

PHONE: 465-3673

SUBJECT: FY 2003 Supplemental Items

The Department of Law hereby requests the following FY 2003 supplemental budget appropriations as part of the regular supplemental bill:

- Fairbanks District Attorney's Office Move and Lease Costs

BRU - Criminal Division
Component - Fourth Judicial District
Funding - \$95,000 General Funds

Justification

After the opening of the new Rabinowitz Courthouse in Fairbanks, the District Attorney's office there either needed additional staff, or needed to move because the distance from the new courthouse was impacting the workload and resources. The move was forced when the Department of Transportation and Public Facilities (DOTPF) decided to "cold close" the old Fairbanks Courthouse in the wake of FY 2003 reductions to its own budget. The move into the newly refurbished Northward Building took place on November 1, 2002. Because the Fairbanks DA's office had previously occupied space in a state owned facility, lease costs for that office had never been budgeted or paid from department funds. Savings in the DOTPF budget were used to keep the old courthouse open until the move took place with the balance of the savings made available to pay a portion of the move and lease costs. Those savings are transferred to the Department of Law in the base of the FY 2004 budget. This supplemental request will completely pay for the FY 2003 lease and one-time costs associated with the move and setting up the office.

- Judgments and Claims

BRU - N/A
Component - N/A
Funding - \$1,064,246.51 GF
\$ 72,053.97 PERS

Justification

The above reflects the current level of judgments and claims awaiting legislative appropriation. The Department anticipates that between \$4 and \$5 million will be needed for judgments and claims in FY 2003. This amount represents a significant increase over the original projection and is attributed to a number of large tort cases that are either settled or the subject of a court award. One of those cases recently settled for \$2,750,000. That settlement is awaiting the final paperwork for inclusion in the supplemental request. Historically, the State's tort obligations have been funded by the Catastrophic Reserve Fund (statutorily capped at \$5 million). That fund is now not sufficient to absorb these expenditures as it has been utilized to fund routine smaller claim obligations of the state's self-insurance program. This request will continue to be updated as judgments and claims are finalized.

- **Miscellaneous Claims/Stale-dated Warrants**

**BRU – Administration and Support
Component – Administrative Services
Funding - \$17,947.82**

The Department of Law requests these funds to pay prior year bills not received in time for payment. As a result of carryforward of FY 2002 remaining general funds in a number of Law's budget areas, prior year lapse is not available to pay these bills absent a new appropriation.

cc: Gregg Renkes, Attorney General
Barbara Ritchie, Chief of Staff
Scott Nordstrand, Deputy Commissioner, Civil Division
Pat Gullufsen, Deputy Commissioner, Criminal Division

FROM: *for* Kevin Duffy *K Duffy*
Acting Commissioner

DATE: February 10, 2003

SUBJECT: FY03 Supplemental Request

OFFICE OF
MANAGEMENT & BUDGET

FEB 11 2003

The Department of Fish and Game has identified the following supplemental requests for FY2003.

MISCELLANEOUS CLAIMS

Under the provisions of AS 37.23.010, a department cannot pay invoices that are more than two years old. In such instances, it is necessary to ensure sufficient funds were lapsed and to obtain supplemental funding before these bills can be legally paid. We are currently aware of miscellaneous claims totaling \$3,000.00 against the department. Attached is a copy of the backup for these transactions.

RATIFICATIONS

The department has identified two prior year appropriations that will require ratifications to address an over-expenditure situation.

The first appropriation is a prior year capital project (AR 43655-01) for a Fish Pass that was funded by EVOS receipts. The over-expenditure occurred when a periodic interface that allocates holiday and leave charges processed an \$8.05 assessment after the appropriation had terminated. The condition was not discovered until after the reappropriation period ended. Consequently, we request a ratification in the amount of \$8.05 to correct the problem.

The second ratification is for \$16,437.65 in the Division of Administrative Services.

AR 42100

During the reappropriation period for the fiscal year ending June 30, 2002, the department established accounts receivable related to anticipated receipts for several grants and programs for which the state was owed money. The following month, the Administrative Services component provided \$53,300 of the Department's contribution to replenish the State's Insurance Catastrophe Fund under AS 37.05.289.

Subsequent to the reappropriation period and the general fund sweep to the Insurance Catastrophe Fund, it was determined that some federal and non-federal program receipts were unrealizable. The department initiated corrective action to minimize the deficiency and reduce the need to less than the component's contribution to the Insurance Catastrophe Fund. Because the transaction affected a prior year appropriation, the Division of Finance was unable to accommodate our request to return a portion of the contribution, which would have fully corrected the problem. Accordingly, we must request a legislative ratification for \$16,437.65 to correct the shortfall in AR 42100-02.

Thank you for your consideration of this request. If you have any questions, or require additional information, please contact me or Kevin Brooks at 465-5999.

MEMORANDUM

TO: Cheryl Frasca
Director
Office of Management and Budget

FROM: *for* Kevin Duffy *K Brooks*
Acting Commissioner
Department of Fish and Game

DATE: February 19, 2003

SUBJECT: FY2003 Supplemental Request Amendment

Office of
MANAGEMENT & BUDGET
FEB 19 2003

The Department of Fish and Game is requesting an amendment to the previously submitted Miscellaneous Claims Supplemental Request in order to pay an additional invoice which is more than two years. The department's initial Miscellaneous Claims request totaled \$3000.00. This additional invoice is for \$254.31 and would increase our total request to \$3254.31.

Under the provisions of AS 37.23.010, a department cannot pay invoices that are more than two years old. In such instances, it is necessary to ensure sufficient funds were lapsed and to obtain supplemental funding before these bills can be legally paid. Attached is a copy of the backup for these transactions.

If you have any questions or require additional information, please call me or Kevin Brooks in the Division of Administration at 465-5999.

SUBJECT: Miscellaneous Claims Supplemental Requests

The Department of Health and Social Services requests a supplemental appropriation of \$42,267.93 in general funds for miscellaneous claims listed on attached spreadsheet. Supporting documentation is attached for your review. As in past years, the amount of this request will be updated periodically as additional claims are received, reviewed and approved for payment.

If you have any questions, please contact me at 465-1630.

Subject: Stale Dated Warrant Supplemental Appropriation 2003-1

Attached is the first submission of the annual request for a supplemental appropriation to cover approved requests to reissue stale dated warrants. The total of this first memorandum is \$44,916.88. Please add this amount to the miscellaneous appropriation your division prepares for the Department. Attached are copies of the researched stale dated warrant files.

We anticipate adding to the supplemental request through March 31st as agencies receive and evaluate additional requests. If you have any questions about any part of this file, please contact Sandra Rasmussen at 465-5591 or Chrisie Zepp at 465-5609.

CS for HB 109 (FIN)

New Funding Procedures for Stale-Dated State Warrants & Misc. Claims

Sponsor Statement

This bill changes the period after which a state warrant may no longer be presented for payment. The changes made by the bill reconcile the existing inconsistency between the payment of warrants statute (AS 37.05.180) and the unclaimed property statute (AS 34.45.230). Unless excepted under existing AS 37.05.180, a state warrant currently must be presented for payment within two years after the date of issuance. After two years, money held for the payee is released to the state treasury. If the payee subsequently presents the stale-dated warrant for payment, the issuing agency must obtain a new appropriation in order to pay for it.

Under the bill, a state warrant would be presumed abandoned after six months from the date it was issued. The money held to cover presentment of the warrant would be transmitted to the custody of the administrator of unclaimed property, in the Department of Revenue. A payee who subsequently presents a warrant after the six-month period could claim payment under the unclaimed property procedures in AS 34.45. The advantage of this change is that the stale-dated warrant could be paid immediately from the standing appropriation for unclaimed property rather than awaiting enactment of another appropriation expressly made to validate the stale warrant. Pending a valid claim to recover the abandoned money, money held to pay the warrant would be available in the general fund for appropriation by the legislature for other public purposes.

The Finance Committee made similar modifications to how miscellaneous claims are handled. Currently when a claim is presented that is over two years old, the department must process it through the supplemental budget process. HB 109 allows claims from earlier fiscal years to be paid from the department's current operating appropriation as long as the department has sufficient lapsed balance in the year of the original claim. However, if the miscellaneous claim cannot be accommodated in the current operating appropriation or is larger than the lapsed funds for the related earlier year, the department would still have to request funding in the supplemental budget request.

ALASKA COURT SYSTEM

SPONSOR STATEMENT CSHB 114(JUD)(title am)

Committee Substitute for House Bill 114(JUD)(title am) was introduced at the request of the Supreme Court of the State of Alaska to fix a small but time-consuming and costly problem with the way search warrants are requested.

In order for a peace officer to obtain a search warrant, he or she must present evidence sufficient to convince a judge that probable cause exists to believe that the item or place to be searched is in some way related to or evidence of a crime. That evidence comes in the form of either a written affidavit or oral testimony. Providing such evidence is not a problem if the officer and the judge are in the same community. The officer may either drop off a signed affidavit and or personally testify before the judge. The situation is different when the officer and the judge are not in the same community. In those cases the testimony must come in either through a faxed affidavit, telephonic testimony or through a third person.

Current law (AS 12.35.015(a)) restricts faxed affidavits and telephonic testimony to only those situations where the evidence to be searched is in danger of being lost or destroyed. In all other cases the officer must call another peace officer in the community where the judge is located, tell him or her the facts and have that officer either fill out and sign an affidavit or appear personally before the judge. If no officer is available for this errand then the one in need of the search warrant must either wait until someone is available or, in some cases, fly into the community where the judge is located and personally petition for the warrant.

A common scenario where this problem arises is when a village police officer seizes what he or she believes to be contraband liquor. The officer needs a search warrant to open the package but because he or she has seized the item to be searched it is not in danger of being lost or destroyed. Because of this the officer is precluded from applying for a search warrant telephonically or by fax. In some cases this has led to the officer having to fly to the nearest community that has a judicial officer in order to obtain the warrant. This adds unnecessary expense and delay to the process.

The change requested by the supreme court would expand the circumstances under which the court may accept faxed affidavits and telephonic testimony to include circumstances where the fax or testimony would avoid a delay in obtaining the warrant and that delay might interfere with an ongoing investigation.

This bill does not in any way change the standard that must be before the judge can actually issue the warrant.

The minor change requested by CSHB 114(JUD)(title am) should facilitate law enforcement in many communities around the state.

Re: SCS CSHB 127(TRA) - "An Act relating to roadside memorials within the right-of-way of a state highway"

Dear Senator Stevens:

I am writing this letter to request that you consider and move for adoption the attached amendment to the subject bill. Although there was discussion in House State Affairs Committee on March 27, 2003, regarding the intent that the state not be liable to third parties for injuries that may have been caused by the presence of a roadside memorial, it would be beneficial to the state to make this intent specific by reinserting this amendment to the bill.

If you have any questions, please feel free to contact me.

Sincerely,

GREGG D. RENKES
Attorney General

HB 127 – Roadside Memorials

When a person dies on an Alaska road, family and friends often express their grief by placing items near where the tragedy occurred, in a kind of memorial to their loved one. Sometimes, even strangers are moved to add to the memorial when particularly touched by the loss.

These memorials serve two purposes. One, to allow the grieving to express their sorrow, and two, to remind those who travel, of the inherent dangers in driving Alaska's roads, particularly when excessive speed or alcohol contributed to the cause of the accident. Many Alaskans instinctively check their speed and take extra care in driving when passing one of these personal memorials.

Recently, the State of Alaska Department of Transportation informed the creators of such memorials that these encroachments to the right of way would no longer be tolerated. They warned that the department would remove them if they were not taken down by a date certain. This action is in response to a perceived threat to federal highway funding if the state allowed the memorials, as well as an interpretation of the state law that bans billboards.

The liberty to express our grief, the desire to memorialize a fallen officer, the wish to recognize a tragedy among our community, is a very personal freedom that must not be unnecessarily infringed by government.

HB 127 sets out to clarify that, while the State does not attempt to discourage the placing of such memorials, they will be reasonably regulated so as not to allow unsafe distractions and hazards in Alaska's right of ways.

Introduced by: Mayor Thompson
& Council Member Kawasaki
Date: March 10, 2003

RESOLUTION NO. 4054

A RESOLUTION IN SUPPORT OF HOUSE BILL 127, WHICH WOULD ALLOW THE PLACEMENT OF ROADSIDE MEMORIALS FOR THE VICTIMS OF A TRAFFIC ACCIDENT TO BE PLACED WITHIN THE RIGHT-OF-WAY OF A STATE HIGHWAY.

WHEREAS, certain staff of the Alaska Department of Transportation and Public Facilities have taken a position that will not allow the placement of personalized roadside memorials in memory of victims of traffic accidents.

WHEREAS, House Bill 127, as attached, will accommodate the interest of both the state and those wishing to place personalized roadside memorials; and

WHEREAS, the City Council believes that personalized memorials, safely placed in accord with House Bill 127, will not only honor the dead, but will also serve as a better way to alert motorists of the importance of driving responsibly; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Fairbanks that the City Council supports passage of House Bill 127.

Passed, Approved and Effective this 10th day of March, 2003

ANALYSIS: (Attach a separate page if necessary)
This bill amends the Teachers' Retirement System (TRS) and Public Employees' Retirement System (PERS) statutes to allow a person who participated in a TRS or PERS sponsored retirement incentive program (RIP) to become a commissioner (1) without losing the incentive credit provided under the applicable RIP and without any related RIP reemployment indebtedness, and (2) continue receiving their retirement benefit by waiving accrual of an additional retirement benefit during the period of reemployment as commissioner.

This legislation will have no actuarial impact to the TRS or PERS since the full actuarial cost of the Retirement Incentive Program was paid by the employer and the employee at retirement.

February 27, 2003

The Honorable Pete Kott
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Kott:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am transmitting a bill relating to reemployment of certain members of the Teachers' Retirement System of Alaska (TRS) and the Public Employees' Retirement System (PERS) who have retired under a retirement incentive plan (RIP).

The objective of this bill is to allow a person who retired under a RIP to return to state service as a commissioner without being penalized.

It is in the best interest of the people of Alaska to ensure that administrative departments of state government be managed by competent, skilled, knowledgeable, and experienced persons. Choosing to serve Alaska as the head of a state agency, in many cases, requires an individual to make sacrifices they may never have anticipated. This bill would remove one of the major disincentives, and give the Governor greater flexibility in filling out his cabinet.

Under existing law, if a TRS or PERS member who took normal retirement and retired under a RIP is re-employed in the TRS or PERS system, the member forfeits the incentive credit and becomes indebted to the TRS or PERS. This bill would allow a TRS or PERS member in this situation who is re-employed as a commissioner to accept the position without being subject to the reemployment indebtedness.

The Honorable Pete Kott
February 10, 2003
Page 2

Under existing law, a retired member of the TRS or PERS who took normal retirement and is re-employed in a TRS or PERS position may elect to continue receiving the member's retirement benefits during the period of employment. A member who retired under a RIP, however, may not make the election to continue receiving TRS or PERS retirement benefits. This bill would allow a TRS or PERS member in this situation who is subsequently re-employed as a commissioner to elect to continue receiving retirement benefit payments during the period of reemployment.

Finally, under existing law, the option to elect to continue receiving TRS or PERS benefits during the period of reemployment is repealed as of July 1, 2005. This bill repeals that option for individuals subject to the bill, *i.e.*, TRS or PERS members who retired under a RIP and are subsequently re-employed as a commissioner.

I urge your prompt and favorable action on this measure.

Sincerely,

Frank H. Murkowski

SPONSOR STATEMENT HB 209

HB 209 will allow municipalities to provide for a tax reduction for property destroyed, damaged or otherwise reduced in value as a result of a disaster. A municipality can adopt by ordinance criteria for assessment or reassessment of property values.

This legislation broadens the municipalities' authority to define "disaster" to include for example, a fire or flood that occurs within a home. It repeals Section 29.45.230: (e) In this section "disaster" means a major disaster declared by the President of the United States under federal law or a disaster declared by the governor under AS 26.23.010-26.23.110.

Arizona, California, Idaho, Mississippi, Pennsylvania, and South Dakota are states that currently provide pro-ration of taxes for casualty loss. Many other states are currently considering similar legislation.

address teenage risk, but enforcement is key

Monitor your teen's driving

SafeForce, which monitors driving performance of emergency vehicle operators, has been redesigned to help parents keep teen drivers safe. Here's how the black box works:

- ▶ The box monitors seat belt use, engine speed, tire traction and other parameters.
- ▶ Second-by-second information is recorded on a flash memory card.
- ▶ When the driver exceeds preset limits for speed, braking or sharp turns, the box grows first, then beeps that a violation has been recorded. The audible cues help drivers learn to drive within safe limits.
- ▶ Back home, when the flash memory card is put into the home computer, parents can see how their teen has been driving in recent days.

Source: RoadSafety

tour. The family version uses a flash memory card — the postage-stamp-sized memory card that drives everything from digital cameras to handheld organizers — to record the data in the car. It must be carried inside and plugged into an inexpensive reader on the family PC. Otherwise, the devices are nearly identical.

"This is something that every car should have," says Janice Manzer of Camarillo. By word of mouth, she managed to get a prototype of the box in her 17-year-old son's car after he had an accident in the school parking lot and got a speeding ticket on a city street. "It's like having a babysitter in the car."

The early results from the device's recordings have been eye-popping for parents.

The box showed that Mallory Gompert — both smart and polite as she addresses a reporter — had a lead foot. She routinely cruised in the family's Ford Explorer at more than

80 mph, and she took turns dangerously fast. She had no idea, she says, that she was over the limit. Neither, of course, did her parents.

"I used to dread it when my dad would come home with his PC and say, 'Let's see how your driving is,'" Mallory says.

"She said, 'My life is terrible,'" her mother Donna recalls. "Why does Dad have to work for Road Safety? I hate my life!"

Now she likes the way the box reminds her to pay attention when she "spaces out." Because of her improved driving, she says, other parents ask her to drive their kids,

Deaths vary widely by state

Nationwide, 2,778 drivers age 19 and under died in motor vehicle crashes in 2000. That's out of 9,743,519 total drivers — a rate of 2.9 per 10,000 licensed drivers.

A ranking of states based on the rate of deaths per 10,000 drivers 19 and younger in 2000:

State	Deaths

Source: National Highway Traffic Safety Administration; USA TODAY analysis by Anthony DeBarros

and she hauls her siblings to practices and other places. "I was a soccer mom at age 16," she says.

And the box has spotted a teen driving trend much the same way it identified stressed-out ambu-

lance drivers. The device has shown that Mallory and almost every other teen who has tested the box drive worse when they're racing to get home before curfew.

That finding in particular rattles the nerves of parents who still ache for the local families who lost their two teens in a late-night crash just before Christmas.

The tragic deaths were not unlike other teen driving fatalities that occur, on average, three times a day across the USA. Feeling good after his high school team won its basketball game, the teenage driver was tearing through town in a luxury SUV. He hit a wall at 107 mph. He was 16. The driver and one passenger died. Two other passengers survived.

"They were just trying to have fun," says Ryan Evans, 17, who knew them and now has the black box in his car. Does he think the box would have saved them? "It might have," he says.

Inexperience kills

Charles Butler, director of safety services at AAA, says the Road Safety black box is a potentially useful, one-of-a-kind device. But he says parents would be mistaken to believe they could install the box in a car and automatically make their teenager a safer driver.

The biggest threat to young drivers, Butler says, is something the box can't fix — inexperience. Teen crashes, he says, are most often caused by three factors: not looking in the right place at the right time; being distracted behind the wheel by conversations, music, cellphones or even daydreams; and not being able to "manage the space around their car."

"It takes two to four years" of driving to become proficient, he says. Somewhere between 750 and 1,500 miles of driving in various conditions, he says, the "crash probability" begins to drop.

"Inexperienced 16-year-olds have three times as many crashes as 18-year-olds," Butler says. "If the box helps give parents peace of mind, maybe it's worth it. But if you really want peace of mind, don't let your kid drive alone. You can be the black box."

AAA offers tips for parents on how to teach driving. The video and a handbook, called *Teaching Your Teens to Drive: A partnership for survival*, cost \$21.95 (members get a discount) and are available to everyone through local AAA chapters or at www.aaa.com.

Bryce Riach, 17, says the black box in his 1998 Toyota Tacoma has

no impact on his driving. "I pretty much beep on every turn," he says, one week after the box was installed. "It's funny. . . . When it starts making noise, I just turn the (punk) music up," he says. "If my parents were looking at my results, it would be a bigger factor."

His parents know he has the box in his car as part of a study for Road Safety, but they have not yet seen any of his performance reports. Bryce says his parents don't know how he drives. "When I drive with them, I drive a lot safer, so they don't really know," he says.

Road Safety's Selditz agreed to display the previous five days of Bryce's driving on the company computer. The screen is full of red violations. There are 34 turns where at least half of the tires' traction was lost to high speed. There are more than 70 minutes of driving faster than 80 mph.

But one moment stands out. At 8:55 p.m. on the previous Thursday, he had lost nearly 70% of his traction while making a hard left turn. He had his headlights on, but he was not wearing his seat belt.

Bryce grins. "That is the island by my house," he explains. "It's an illegal turn, but if I don't make that turn I have to go up a mile and make a U-turn."

When a reporter tells his father, Ron Riach, a former firefighter, about the turn, the father of four young drivers is shocked: "That is a revelation. Especially about the seat belt. I have drilled that into their heads."

Bryce has heard the horror stories his dad has brought home from years on the street as a firefighter. But the boy says he doesn't worry about getting hurt.

"After I come close to getting into an accident, I think about what happened to those other people," he says. "But when I'm speeding, I don't really think about it."

Nearly two months have passed since Bryce got the black box. His parents still haven't looked at his black box reports, but constant reviews by Road Safety officials — who have threatened to remove the box and a \$50-a-week payment for his participation — have begun to tame his driving.

"My driving has changed a lot," he says. "I don't really like it, but it's good for me. It was hard to get used to, but now that I am used to it, I can still get around quickly."

His dad says Bryce has learned to drive within the box's parameters. "He's safer," Ron Riach says, "but to what extent, who knows."

3-Tiered System for Driver Licensing under • HB 213

Permit License

Must be 14 yrs old
Must pass written test

Provisional License

Minimum age: 16
Must have had permit for 6 months
Must pass road test

- Parent certification of 40 hrs driving offenses under progressively difficult circumstances
- Must have clean driving record (no convictions for traffic offenses in past 6 months)

While driving with a Provisional License:

- No nite time driving between 1am and 5am
 - Exceptions: kids can get work permit to drive during restricted times, kids can drive with parent or legal guardian
- Generally no passengers
 - Exceptions: passengers who are siblings & adults over 21, passengers when accompanied by the driver's parent or legal guardian.

Unrestricted

- Must have had provisional license for 6 months
- Must have clean driving record (no convictions for traffic in past 6 months.)

HB 213 will require the issuance of a Provisional Driver's License to 16 & 17 year old drivers. In 2003 there were 13644 DL's issued to this age group. We project 50% of those drivers will return to DMV to request new licenses without the Provisional restriction. Cost of of materials to produce these duplicates = \$2.00 x 6822. Revenue gained from issuing duplicate = \$15.00 x 6822.

Graduated Driver's License for Teen Drivers

HB 213 (FIN)

Car crashes are the leading cause of death for teenagers in Alaska. While there isn't a silver bullet cure to this utter tragedy, recent studies prove that the Graduated Driver's License system (GDL) is a giant step forward.

HB 213 implements GDL by creating a three-tiered system whereby young drivers pursue their full, unrestricted driver's license. Currently, Alaska only requires a driver under 18 to obtain and hold a learner's permit for 6-months before testing for a driver's license.* Under HB 213, graduated licensing adds several important protections for the novice driver that relate to when they can drive, where they can drive, with whom and how.

- I. At age 16, a person may be eligible for a Provisional License when:
 - The youth has held a learner's permit for 6 months,
 - Their parent certifies that the youth of at least 40 hours of driving experience, including 10 of driving under progressively challenging conditions such as nighttime or inclement weather conditions, and
 - The youth has not been convicted for violating a traffic law for at least 6 months before applying.
- II. Once the youth holds a Provisional License, they are subject to several limitations for the first **6 months** of driving:
 - Driving between 1 am and 5 am is prohibited except:
 - Generally no passengers except for:
 - Passengers who are 21 yrs or older or siblings of the teen driver
 - Passengers when accompanied by the driver's parent or legal guardian.
- III. 6 months after the issuance of a Provisional License, the youth may apply to the department for an unrestricted license
 - *as long they have not been convicted of a traffic offence for at least six months preceding their application.*

~ More ~

Two important *exceptions* to the Provisional License law:

- A driver with a Provisional License may be eligible for a work permit so that they can drive to or from work or drive during the scope of their employment.
- Driver's issued permits or licenses under the DMV's hardship or off-systems licensing programs are in no way affected by the GDL licensing provisions.

The Graduated Driver's License is a means for the young driver to gain experience on the road while minimizing risks. As the driver gains experience, the provisions are gradually lifted and the youth is eligible for an unrestricted driver's license.

Since the National Transportation Safety Board adopted its graduated driver licensing recommendations in 1993, states have dramatically modified their driver licensing practices. Since 1993, the 38 states have adopted comprehensive GDL licensing system have reported significant reductions in fatality rates of teen drivers and passengers. In California, teen passenger deaths and injuries when 16-year olds are behind the wheel dropped 21 % statewide in 1998 and 1999. These results come two years after passage of California's GDL. Florida, which adopted GDL in 1997, saw a drop of 21 % in the rate teens are involved in accidents.

Research published in October 2001 from Michigan and North Carolina, two states with comprehensive laws that include both an extended learners' permit phase and a nighttime driving restriction reaffirms the effectiveness of graduated licensing. In Michigan, research shows that 16-year olds were 25% less likely to get into a crash; in North Carolina, the risk of a crash dropped by 23 %. Further, in North Carolina, nighttime crashes involving 16 year olds declined by 43% and fatal crashes dropped by 57 %.

~ Give them the time to learn to drive ~

The goal is to limit teen exposure to risky driving situations during their first few months of licensure, a time when their crash rates are extremely high. Parents indicate strong support for GDL and for the specific restrictions. Graduated licensing will save young lives in Alaska, guaranteed!

* In 1997, with passage of HB 11, Alaska adopted a mandatory 6-month learner's permit for drivers under 18 yrs old.

Updated: February 26, 2004

3-Tiered System for Driver Licensing under • HB 213

Permit License

Must be 14 yrs old
Must pass written test

Provisional License

Minimum age: 16
Must have had permit for 6 months
Must pass road test

- Parent certification of 40 hrs driving offenses under progressively difficult circumstances
- Must have clean driving record (no convictions for traffic offenses in past 6 months)

Unrestricted

- Must have had provisional license for 6 months
- Must have clean driving record (no convictions for traffic in past 6 months.)

While driving with a Provisional License:

- No nite time driving between 1am and 5am
 - Exceptions: kids can get work permit to drive during restricted times, kids can drive with parent or legal guardian
- Generally no passengers
 - Exceptions: passengers who are siblings & adults over 21, *passengers when accompanied by the driver's parent or legal guardian.*

Graduated Driver Licensing (GDL)

Note: References shown by number in parenthesis following statistic. Full references listed at end.

Overall Effectiveness:

- With varying lengths of learner phases (LPs), studies have shown that GDLs are effective in reducing teen crash rates:
 - California: 5% reduction with 6 week LP (1)
 - San Diego, California: 20% reduction with 6 month LP (2)
 - Connecticut: 22% reduction with 3-6 month LP (3)
 - Kentucky: 32% reduction with 180 day LP (4)
 - Michigan: 25% reduction with 50 hour LP (5)
 - Ohio: 11% reduction with 6 month LP (6)
 - New Zealand: 7% reduction with 6 month LP (7)
 - North Carolina: 27% reduction with 12 month LP (8)
 - Nova Scotia: 24% reduction with 6 month LP (9)
- GDL has also been shown to be effective in reducing injury/fatality crash rates:
 - Michigan: 24% reduction (5)
 - Florida: 11% reduction (10)

Passenger Restrictions (PRs):

- Compared to other age groups, fatal crashes are more likely to occur when 16- and 17-year-old drivers had male passengers, passengers aged 20 to 29, and teenaged passengers (11)
- For drivers aged 16 and 17, the risk of death per 10 million trips with 3 or more other passengers was more than 2 and ½ times greater when compared to without passengers (11)
- 16-year-old drivers with passengers, compared to drivers of aged 30-59 with passengers, were 4.72 times more likely to be involved in a fatal crash (12)
- New Zealand: After PRs were implemented, a 9% reduction in proportion of crashes involving teens resulted (13)
- San Diego, California: Passenger injuries per licensed driver decreased by 23% after implementation of PRs (2)

Night Restrictions (NRs):

- North Carolina: With NRs at 9 pm, total crashes for 16-year-old drivers decreased by 47% at night (8)
- Florida: With NRs at 11 pm, night crashes for 16-year-olds decreased 17% (10)
- Michigan: With NRs from midnight to 5 am, there was a 53% reduction in night crashes for 16-year-olds (5)
- New Zealand: After NRs were imposed at 10 pm, a 37% reduction in night crashes occurred for 16-year-olds (7)

National Transportation Safety Board

Washington, D.C. 20594

Office of the Chairman

JAN 27 2004

Honorable Bruce Weyhrauch
Representative
Alaska House of Representatives
State Capitol, Room 102
Juneau, Alaska 99801-1182

Dear Representative Weyhrauch:

I understand that you have introduced House Bill 213, legislation to implement a comprehensive graduated driver licensing system for young novice drivers in Alaska. This measure provides the opportunity for Alaska to prevent the needless loss of many of its young citizens.

Motor vehicle crashes, which account for 40 percent of all teenage deaths, are the leading cause of death for our teenagers. Novice teenage drivers have a very high crash risk. Young drivers, ages 15 to 20, constitute less than 7 percent of all drivers nationwide, yet they are involved in more than 22 percent of all highway fatalities. In Alaska, young drivers constitute a little more than 7 percent of Alaska's licensed drivers, but they are involved in more than 23 percent of the fatalities that occur on Alaska's roads.

There are several similarities in fatal crashes involving young novice drivers. The drivers and passengers frequently are not belted, the cars are loaded with the drivers' peers, and often there is a deadly combination of inexperience and immaturity. When night driving is added to the equation, crash risk increases dramatically.

Young drivers do only 20 percent of their driving at night, but over 50 percent of their crash fatalities occur during nighttime hours. Among young novice drivers, 41 percent of motor vehicle deaths occur between 9:00 p.m. and 6:00 a.m. Nighttime outings tend to be recreational, and even teens who usually follow all the rules can be easily distracted.

Research indicates that nighttime restrictions can reduce young novice driver crashes during restricted hours by up to 70 percent. New York achieved a 69 percent reduction in crashes involving teenage drivers during the hours that the nighttime driving restriction was in effect. Other States have also seen reductions in young novice driver crashes during restricted hours.

Young drivers also pose a greater risk when carrying passengers, especially teen passengers. A study of Kentucky drivers found that young drivers have an increased propensity for causing single-vehicle crashes when traveling with peers and that the propensity for single-vehicle crashes

increases with the number of people in the vehicle. A separate study estimated that a nationwide adoption of passenger restrictions for all 16- and one-third of 17-year-old drivers would result in 60 to 350 fewer deaths per year.

These crashes are preventable, and legislative measures have been successful in other States to reduce both crashes and fatalities. The Safety Board recommended in 1993 that Alaska and other States implement a comprehensive graduated driver licensing system, including a nighttime driving restriction during the driver's first year. In 2002 the Board added a recommendation that young passengers be prohibited from carrying more than one passenger under age 20 unless accompanied by a supervising driver who is at least 21 years old. For additional information about the Board's position on graduated driver licensing and the evidence that supports our recommendations, please see the enclosed fact sheet.

The Safety Board believes an effective combination of tough, fair laws, vigorous enforcement, and intensive, targeted educational campaigns is needed. We are so convinced of the lifesaving benefit of these actions that we have included graduated licensing recommendations on our list of "Most Wanted" safety improvements. Graduated licensing, including a nighttime driving restriction, is one of the most effective actions that the Alaska Legislature can take to save both young lives and the lives of others involved in crashes with young drivers.

I hope that the Alaska legislature will act promptly on House Bill 213 to provide the best possible protection for people when they are riding in a motor vehicle. The Safety Board is available to support your efforts on this and other highway safety initiatives by testifying on legislation or meeting with legislators or advocacy groups. Please contact Mr. Kevin Quinlan, Safety Advocacy Division Chief, at (202) 314-6175, if we can be of assistance to you. For your information, Mr. Quinlan will be in Juneau on February 12, 2004, and would be available to meet with you about your legislation.

Sincerely,

Ellen Engleman Connors
Chairman

Safety Information

Washington, D.C. 20594

GRADUATED DRIVERS LICENSE *FACT SHEET*

The Recommendation

- The National Transportation Safety Board recommends enacting laws to provide for a three-stage graduated licensing system for young novice drivers, and restrict young novice drivers with provisional or intermediate licenses (second stage), unless accompanied by a supervising adult driver who is at least 21 years old, from carrying more than one passenger under the age of 20 until they receive an unrestricted license or for at least 6 months (whichever is longer).
- The National Transportation Safety Board recommends enacting laws that prohibit driving by young novice drivers between certain times, especially midnight to 5 a.m.
- The National Transportation Safety Board recommends enacting legislation to prohibit holders of learner's permits and intermediate licenses from using interactive wireless communication devices while driving.

The Problem

- Traffic crashes are the leading cause of death among teenagers today.
- While teen drivers comprise about 6.6% of the driving population, they comprise more than 14% of the drivers involved in fatal crashes. And more than 22% of all highway fatalities occur in crashes involving teen drivers.
- In the past 5 years, more than 16,000 (16,656) people died in crashes involving 14-to -17-year-old drivers.
- 16-year-old drivers driving alone are more than twice as likely to be involved in a fatal crash as older drivers.
- 16-year-old drivers are almost 5 times as likely to be in a crash when traveling with peer passengers.
- Passengers riding with young teen drivers are especially at risk; two-thirds of the fatally injured passengers in these teen driver crashes were teenagers themselves (between ages 15-19).
- The risk of a crash increases greatly with each additional teen passenger riding with a young teen driver.
- Studies from nearly a dozen States show that deaths and serious injuries from traffic crashes involving young drivers declined by as much as 58 percent following enactment of graduated licensing provisions (depending upon the provisions of the law).

Effective Actions

- **Learner's Permit**
 - 6 month minimum holding period (without an at-fault crash or traffic violation)
 - Supervised driving requirement with supervising driver age 21 or older
 - Require seat belt use by all passengers in all seating positions
 - Prohibit driving with any measurable blood alcohol level
 - Prohibit cell phone use by drivers with a learner's permit

- **Intermediate (provisional) Permit**
 - 6 month minimum holding period (without an at-fault crash or traffic violation)
 - Nighttime driving restriction (especially between midnight and 5 a.m.)
 - Teen Passenger restriction (none or 1)
 - Require seat belt use by all passengers in all seating positions
 - Prohibit driving with any measurable blood alcohol level
 - Prohibit cell phone use by drivers with a provisional permit

- **Full licensure**
 - Require seat belt use by all passengers in all seating positions
 - Prohibit driving with any measurable blood alcohol level by all drivers under age 21.

AAA Alaska
(800) 391-4AAA

January 21, 2004

House Transportation Committee
House of Representatives
Alaska State Capitol
Juneau, Alaska 99801-1182

Dear Representative:

Among the very important legislation under consideration this session is House Bill 213, an act to implement Graduated Drivers Licensing. AAA strongly supports this bill and we urge your support as well.

Driving is a skill that is learned by doing. Unfortunately it is also an inherently risky endeavor. The premise of Graduated Drivers Licensing is simple and it works -- extend the learning process and reduce exposure to risk and you'll reduce the number of teen crashes. House Bill 213 does this.

This bill has all the components of the most successful GDL systems. It provides for time to learn -- the six-month instruction permit. It provides for behind the wheel experience -- the 50 hours of certified driving experience. It provides for responsibility - six months of citation free driving. And finally -- it removes two major risk factors for novice drivers -- passengers and late night driving.

Please review the enclosed information regarding how injuries, accidents, and fatalities have been reduced with GDL. AAA estimates that through GDL, the state of Alaska over a decade could prevent some 970 injuries, over 3,000 crashes, and save over \$21 million dollars.

The time has come for us to change the way we teach our teens to drive, and people are ready. A recent AAA poll shows that 74 percent of Americans support laws limiting teenage passengers who may ride with inexperienced teen drivers, and that 73 percent of adults think that officials should do more to improve the safety of drivers between the ages of 15 to 19.

You have before you an excellent opportunity to protect teen drivers, their passengers, and all on the road. Please support House Bill 213.

Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads 'Charity Watt Levis'.
