## **Part 2**

### **Index of All Submissions Associated with Organizations**

This index lists submissions associated with organizations that have a direct or indirect interest in the pipeline project. The index is sorted alphabetically, and shows the submitter's name, the associated organization, the submission number and the SOC's to which the submission was coded. To find the state's responses to the concerns in a particular submission, look up the submission by the submitter's name in the appropriate index, note the SOC's to which the submission was coded, then look up the state's response to the SOC's in Chapter 3 of the Summary of Public Comments.

## Submissions - Organizations only

To see the response to a comment, find the organization's name in the alphabetical index and note the Statement of Concern (SOC) code(s) assigned to it. Next, turn to the Response to Comments section to read the definition of the SOC and the response to the concern.
