

ALASKA LEGISLATURE COMPLE FILES 2007-2008 HISTA 12347

ALASKA SERVICE-DISABLED VETERAN-OWNED BUSINESS
ALLIANCE

Rep. David Guttenberg
State Capitol Bldg. Room 418
Juneau, AK. 99801

Rep. Guttenberg,

As the Secretary of the Alaska Service Disabled Veteran Owned Business Alliance and a member of the Veterans of Modern Warfare I am in contact with Veterans throughout our State of Alaska. You would not believe how many Veterans out there that don't know what benefits or information that they need to know. With HB44 this would bring the Veteran population into one database to get required information to all Veterans whether it is updates or new legislation from the Veterans Affairs or links to websites for all us Veterans. I ask you and the rest of your colleagues to pass this bill because this is a necessity to keep all veterans informed.

Thank you,

Tim Wheeler, Secretary
Alaska Service Disabled Veteran Owned Business Alliance
And
Veterans of Modern Warfare

In Service to America®

Chapter 891 - Wasilla, Alaska

Never again will one generation of Veterans abandon another

March 1, 2008

Greeting: Chairman Lynn and Members of the Committee
House State Affairs Committee

As a Veteran of over 40 years active Military Service, I have seen many missed opportunities of Veterans who came to Alaska to hide from people when they were young. Now these Veterans who served this Country so well are getting older. These Veterans need to get into the Veterans Administrations health care system and receive the care they have earned. Please take this small action to pass on HB 44.

In the Mat-Su Valley we are supporting the Veterans Aviation Outreach program where they go into the bush and find Veterans. Most of these Veterans are in need of health care.

I am writing in support of HB 44. The bill will help the department of Veterans Affairs to locate Veterans and get information to them about their earned Veterans Benefits.

Thank you for supporting this Bill to Aid Veterans

William (Bill) Farling
President Vietnam Veterans Chapter 891

House Bill 45 - State Veterans' Cemetery

All Alaska veterans deserve access to a military cemetery that honors their service and recognizes their sacrifices while serving our country, usually under challenging conditions, and frequently in harm's way.

On a per capita basis, Alaska has more residents in active military service or who are veterans than all but one other state. According to the U.S. Department of Veterans Affairs (VA), a total of 9,469 veterans reside in the Fairbanks North Star Borough.

The VA's long-term goal is to provide an operational veterans' cemetery within 75 miles of 90 percent of the veterans in the country. The nearest veterans' cemetery to Fairbanks is Fort Richardson National Cemetery, located 350 miles away in Anchorage. By the VA's own estimation, a facility in Fairbanks would greatly increase the number of veterans served by a veterans' cemetery.

Interior Alaska's veterans deserve a cemetery located in the Interior of the state. A state veterans' cemetery in the Interior would better serve the needs of veterans and their families, and provide a final resting place that is centrally located, honorable, and well maintained. An Interior veterans' cemetery will help families avoid the pain of burying a loved one far from home.

HB 45 seeks to establish a state cemetery similar to the Fort Richardson and Sitka National Cemeteries. It will provide a place in the Interior for soldiers to be laid to rest with full military funeral honors, including uniformed pallbearers, rifle team, and ceremonial folding and presentation of the United States flag.

HB 45 authorizes the Alaska Department of Military and Veterans' Affairs to establish and maintain a state veterans' cemetery with funds from the U.S. Department of Veterans Affairs, State Cemetery Grants Program. Through this program, the Alaska Department of Military and Veterans' Affairs may be awarded up to 100% of allowable costs for design, construction, and operating equipment for an approved project. To date, the VA has awarded 152 grants totaling more than \$264 million to establish, expand, or improve 65 veterans' cemeteries in 35 states, Guam and Northern Mariana Islands. There are now 65 operational cemeteries and four more under construction.

I urge you to support this legislation.

MEMORANDUM

January 31, 2007

SUBJECT: Sectional summary of HB 45 (Work Order No. 25-LS0230A)

TO: Representative David Guttenberg
Attn: Dana Krawchuk

FROM: 
Donald M. Bullock Jr.
Legislative Counsel

You have requested a sectional summary of the above-described bill.

As a preliminary matter, note that a sectional summary of a bill should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents. If you would like an interpretation of the bill as it may apply to a particular set of circumstances, please advise.

Section 1. Allows the legislature to appropriate a portion of the money received for special request plates commemorating Alaska veterans to the Alaska veterans' cemetery fund created in sec. 2 of the bill.

Section 2. Creates the Alaska veterans' cemetery fund in the general fund; the fund is not exempt from the requirements of AS 37.07 (Executive Budget Act) and money in the fund is not dedicated for a specific purpose. Provides that the legislature may appropriate amounts from the fund to the Department of Military and Veterans' Affairs for the construction, operation, and maintenance of veterans' cemeteries established under sec. 3 of the bill. Appropriations to the veterans' cemetery fund do not lapse under AS 37.25.010, and the unexpended and unobligated balance of an appropriation from the fund lapses back into the fund.

Section 3. Authorizes the Department of Military and Veterans' Affairs to establish and maintain Alaska veterans' cemeteries in the state. Allows the department to accept gifts, donations, and grants for the purpose of establishing and maintaining the cemeteries; land received by the department is owned by the state. Requires the department to consult with the Alaska Veterans' Advisory Council for adopting regulations for determining eligibility for burial in a state veterans' cemetery, receive the plot or interment allowance on behalf of the state, comply with all requirements for a state veterans' cemetery grant established by the United States Department of Veterans' Affairs, and apply for state veterans' cemetery grants from the United States Department of Veterans' Affairs. Authorizes the Department of Military and Veterans' Affairs to adopt regulations, enter

Representative David Guttenberg

January 31, 2007

FAIRBANKS VETERANS CEMETERY WORKSHEET OPERATIONAL AND MAINTENANCE COSTS¹

Demographic Factors	Data	Notes
Veterans in four areas	11,164	Fairbanks/North Star and 3 adjoining areas
Avg. annual death rate	149	2005-2026 VA figures
Usage factor	0.50	50% will choose cemetery
Dependents factor	1.50	1 dependent per 2 veterans
Annual burial rate	112	[Death rate x usage] x dependents factor
Graves per acre (gross)	600	Rule of thumb
Min. gravesites needed (20 yr.)	1,676	[Annual burials x 0.75] x 20
Min. burial acreage needed	2.79	One of four is a "second interment"
Gross acreage recommended	20.00 ²	Min. gravesites/600 see note below
Personnel Factors		
Data		
Admn. Workers (230 inter. Per FTE)	0.49	Based on NCA estimates
Field workers		Cumulative
Interments (250 per FTE)	0.45	Includes PT, temp., etc.
Gravesites (7,844.4 per FTE)	0.21	Rises over time
Acres Maint. (10.7 per FTE)	0.26	Burial acres used/developed acres may vary
Field Workers Subtotal	0.92	
Employees	1.41	Admn. & field workers
Cem. Director (GS 9--\$36.7 x 1.3 for fringes)	\$47,652.80	NCA Costs 1.0 Full Time Equivalent Employee (FTEE)
Equip. Operator (WG-8--\$28 x 1.3)	\$36,142.60	1.0 FTEE
Total Salary	\$83,795.40	
Operations Factors		
Data		
Utilities & communications	\$1,117.50	Phone, water, electricity, gas (\$400 x acres)
Supplies & materials	\$2,095.31	Fuel, fertilizer, etc. (\$750 x acres)
Contractual services	\$1,187.34	Janitorial, security, irrigation (\$425 x acres)
Subtotal	\$4,400.16	
Total Annual Operations \$88,195.56		
<i>Maintenance and Repairs extra</i>		
<i>Equipment Replacement extra</i>		

¹ The standard usage factor is 25% but we have increased the factor to 50% in this case because of the difficulty in projecting usage in this area. While 50% usage may be high, it would be better to estimate a higher number at this point rather than a lower number.

² The model assumes a suitable site with easily developed cemetery land. In this case, it would be better to acquire as large a parcel as possible in order to assure suitable land and the ability to buffer surrounding land uses. At least 20 acres should be considered.

State Cemetery Grants Program

- The U.S. Department of Veterans Affairs (VA) State Cemetery Grants Program was established in 1978 to complement VA's national cemeteries.
- The program assists states in providing gravesites for veterans in those areas where NCA cannot fully satisfy their burial needs.
- Grants may be used only to establish, expand or improve veterans cemeteries that are owned and operated by a state. Aid is granted only to states, not to private organizations, counties, cities, or other government agencies.
- VA can provide up to 100 percent of the development cost for an approved project. For establishment of new cemeteries, VA can provide for operating equipment as well. VA cannot pay for acquisition of land.
- Cemeteries established under the grant program must conform to the standards and guidelines pertaining to site selection, planning, and construction prescribed by VA.
- Cemeteries must be operated solely for the interment of service members who die on active duty, veterans (as defined by federal law), and their eligible spouses and dependent children. States may impose residency requirements and other limitations to eligibility in addition to those imposed by federal law. State eligibility requirements, however, may not be less stringent than Federal requirements.
- The administration, operation, and maintenance of a VA-supported state cemetery is solely the responsibility of the state.
- VA is authorized to pay a "plot allowance" of \$300 to a state for expenses incurred in the burial of certain eligible veterans.
- VA has awarded 152 grants totaling more than \$274 million to establish, expand or improve 71 veterans cemeteries in 35 states and Guam.
- In fiscal year 2006 NCA-supported state cemeteries provided more than 22,000 interments.

BURIAL & MEMORIALS

State Cemetery Grants Program - General Information

The Department of Veterans Affairs (VA) State Cemetery Grants program was established in 1978 to complement VA's National Cemetery Administration.

The program assists states in providing gravesites for veterans in those areas where VA's national cemeteries cannot fully satisfy their burial needs.

Grants may be used only for the purpose of establishing, expanding or improving veterans cemeteries that are owned and operated by a state or U.S. territory. Aid can be granted only to states or U.S. territories. VA cannot provide grants to private organizations, counties, cities or other government agencies.

VA can now provide up to 100 percent of the development cost for an approved project. For establishment of new cemeteries, VA can provide for operating equipment. VA does not provide for acquisition of land. The value of the land cannot be considered as an "allowable cost" under the grant. States are solely responsible for acquisition of the necessary land. Any state ceasing to own or operate a cemetery established, expanded or improved through the use of grant funds, or using the funds for any other purpose than for which the grant was made will be liable for the total refund of all grants made for that cemetery. Federal funds can also be suspended or withdrawn for noncompliance with the terms and conditions of the grant.

Massachusetts State Veterans Cemetery Agawam

Cemeteries established under the grant program must conform to the standards and guidelines pertaining to site selection, planning and construction prescribed by VA. Cemeteries must be operated solely for the burial of service members who die on active duty, veterans, and their eligible spouses and dependent children. Any cemetery assisted by a VA grant must be maintained and operated according to the operational standards and measures of the National Cemetery Administration.

The administration, operation and maintenance of a VA-supported state cemetery is solely the responsibility of the state. The Secretary of Veterans Affairs is authorized to pay a plot or interment allowance (not to exceed \$300) to a state for expenses incurred by the state in the burial of eligible veterans in a cemetery owned and operated by the state if the burial is performed at no cost to the veteran's next-of-kin. This benefit is administered by the Veterans Benefits Administration (VBA) and the state must apply to VBA to receive it.

VA has awarded 152 grants totaling more than \$264 million to establish, expand or improve 65 veterans cemeteries in 35 states, Guam and Northern Mariana Islands.

There are 65 operational cemeteries and four more under construction.

A list of state veterans cemeteries is available.

BURIAL & MEMORIALS

Establishing a State Veterans Cemetery

Determine Need

Analyze existing service provided by national cemeteries and other state cemeteries. Consider service life of existing cemeteries. Provide data on veteran population, including age.

Investigate Availability of Suitable Land

Suitable land should be easily accessed by road, free of limitations such as rock, steep slopes and wetlands, uncompromised by incompatible land uses near by, and appropriate for cemetery use. Land already owned by the state, county or municipality is usually the best choice. The state must have title to the land.

Assess Impacts

Analyze possible negative environmental and historic preservation impacts the cemetery location may have. Can such limitations be overcome?

Encourage Support

Veterans service organizations should be informed of the project and be in support of an effort to establish a state veterans cemetery. Local governments should also be supportive. Ultimately, the state legislature must pass necessary legislation authorizing the state cemetery and appropriating funds for establishment and operation.

Complete Application

Apply to the Department of Veterans Affairs for federal assistance with a grant for establishing a state veterans cemetery. For forms and other guidance, see OMB Grants Management and the Catalog of Federal Domestic Assistance.

State Grants Planning Model Overview

[Veterans Shrine Commitment](#)

[General Program Requirements](#)

[Project Design Requirements](#)

[Site Considerations - Site Selection
Standards for a State Cemetery](#)

[Site Description and Site Analysis](#)

[Planning Process for Establishing State
Cemeteries](#)

[Phasing](#)

Veterans Shrine Commitment

The appearance of state veterans cemeteries demonstrates to America's veterans that the nation appreciates their selfless service and the sacrifices they have made. Elevating the appearance of the cemeteries to shrine status signals the commitment to maintain our veterans' cemeteries at the highest standards forever. State veterans cemeteries help foster patriotism and preserve the nation's history.

Each visitor should depart feeling that the grounds, the gravesites and the environs of the state cemetery are a beautiful and awe-inspiring tribute to those who gave much to preserve the nation's freedom and way of life.

Each state cemetery exists as a veterans shrine and serves as an expression of the appreciation and respect of a grateful state and nation for the service and sacrifice of its veterans. Each cemetery provides an enduring memorial to their sacrifice as well as a dignified and respectful setting for their final rest.

To satisfy this requirement, pre-applications should include a written assurance that the state will maintain the cemetery according to VA National Cemetery Administration standards as established in 38 CFR Section 39.6(4).

General Program Requirements

In general, state cemetery projects should be built to create a sense of visual continuity with the site and reflect the tradition and heritage of the area. Cemetery buildings should not be isolated, preeminent elements of the cemetery. Buildings should blend with the site design and may be contemporary, single-story architectural structures found in the project region, or transitional, with a style reminiscent of historic state architecture. All buildings should be designed to reflect permanence and durability with minimum maintenance required. The overall design should consider human scale and privacy for visitors. A consistent architectural expression shall be maintained throughout the cemetery.

Cemetery master plans should be laid out in a looped circulation configuration. Loop configurations include roads that separate vehicular, pedestrian and maintenance traffic. Loop configurations also help define memorial areas but roads should not be used as boundaries to circumscribe the burial areas. The design should establish a strong sense of entry into the cemetery and create an interesting and dramatic sequence of spaces.

The development plan should be divided into phases, each consisting of an area approximating the burial need over a 10-year period. Construction of burial areas in latter phases should be programmed to be completed two years before actual need. This lead-time allows for the continuity of interment service.

Prior to construction, the site chosen should be evaluated for environmental impact and issues. Projects are required to support a FONSI (Finding of No Significant Impact) indicating the project will not have an undue negative impact on the environment.

In general, cemetery plans should avoid lakes, greenhouses and bridges. Chapel buildings, whether freestanding or part of another structure, are not allowed under 38 CFR (Code of Federal Regulations) Part 39. The cost to build and maintain cemetery features of this nature is not supported by the State Cemetery Grants Program. Additionally, per the CFR, the grants program does not fund cemetery land costs or offsite utilities. Some current state cemeteries received land donations for their project.

[back to top](#)

Project Design Requirements

The following is a list of the reference documents required for the design of the project.

- 38 CFR (Code of Federal Regulations), Part 39
- Your State Contract Requirements (A/E, Construction)
- State Cemetery Grants Program - Grant Information Kit July 2001
- A/E Submission Requirements; PG-18-15 Volume D June 1999

All cemetery designs must conform to all state and local codes and requirements.

Site Considerations

Site Selection Standards for a State Cemetery:

- **Proximity** - Locate the site as close as possible to the most densely populated location in the area under consideration. Not only actual distance, but travel time to the site must be considered.
- **Size** - Site acreage is sufficient to provide at least 20-40 years of gravesites based on state projected burial rate. More acreage is encouraged. The acreage required will depend on the burial method, gravesite yield, projected burial rates based on the state's estimated needs for at least 20 years, and the project site's proximity to other national and state cemeteries.
- **Shape** - Uniform boundaries, undivided by roads or easements, with generally square or rectangular shapes are desired. Irregularly shaped sites are more difficult to access and less efficient to design and develop.
- **Accessibility** - Site accessible by highway. Public transportation service is desirable but not required. Road quality of access streets should also be considered.

- **Utilities & Water** - Availability of public utilities (electricity, water, sewer, gas) is important. However, on-site septic systems and on-site potable water wells or ponds are acceptable. An adequate water supply for irrigation is of primary importance. Consider the availability of on-site or off-site recyclable water. The grant program does not fund off-site improvements such as water line extensions.
- **Surrounding Land Use** - Surrounding land should be free from noise or adverse environmental impact(s) (nuisance, landfills or hazardous waste sites). Consider the attractiveness and compatibility of adjacent land. Sites adjacent to visually objectionable, loud noise, high traffic, or other nuisance elements should be avoided. Both current and future projected land use are considered.
- **Soils** - Soils should be of a quality which will provide adequate topsoil for growing turf. The soil should have adequate stability for constructing roads and buildings and should be free from shallow-depth groundwater. The water table must be lower than the maximum proposed depth of burial. There should be no sub-surface obstructions or hazardous waste present. Site soil information is available through the Natural Resources Conservation Service, United States Department of Agriculture (www.nrcs.usda.gov).
- **Topography** - Land should be relatively level to rolling terrain for areas to be developed. The grade of the site should be in the two to ten percent range. There should be sufficient slope to enable proper drainage of the site. Ravines, wetlands, lakes, streams, floodplains and sinkholes cannot be developed. If hilly land is used, access must not be cost prohibitive.
- **Aesthetics** - Existing site amenities such as pleasant views and quality vegetative cover are favorable.
- **Restrictions to Development** - The presence of elements such as cultural/historic/archaeological elements, utility easements, rights-of-way or mineral rights can hamper or legally prevent development. Presence of endangered species limits land development. Potential flood hazards must be avoided.
- **Site Suitability and Acceptability** - Consider the following tests and items to determine site suitability and acceptability: 1) Soil Borings and Test Pits, Perk Test (Septic Field Requirements), Soil Sample Analysis; 2) Well, Aquifer Level, Underground Water Quality Testing; 3) Historic and Archaeological Land Use Review; 4) Cultural Resources; 5) Flood Plains, Wetlands, and Endangered Species; 6) Land Use and Public Access; 7) Utilities; 8) Hazardous Waste; 9) Corrective Action Agreement.

[back to top](#)

Site Description and Site Analysis

Per 38 CFR 39.8, the plan for a state cemetery requires a description of the site and its various elements. The description should explain specific development of the site, design concepts and include space and area requirements (space outline) for support facilities. The description should also include: proposed and existing burial acreage; available gravesites, total acreage and gravesites upon completion of the project; and the projected annual interment rates. (If the cemetery is to be developed in phases, each phase will be handled as a separate project.)

As part of the site selection process, NCA may provide states with demographic data from the Future Burial Needs report. This information will assist states in locating state veterans cemeteries in the most advantageous sites. Through its technical assistance program, NCA will assist State Directors of Veterans Affairs in answering related questions from other state officials.

Cemeteries established under the grant program must conform to VA-prescribed standards and guidelines for site selection, planning and construction. Cemeteries must be operated solely for the interment of service members who die on active duty, eligible veterans and their spouses and minor children. The administration, operation and maintenance of a VA-supported state cemetery are solely the responsibility of the state. VA is authorized to pay a "plot allowance" of \$300 to a state for expenses incurred in the burial of an eligible veteran.

Planning Process for Establishing State Cemeteries

Using the Site Selection Standards listed above, states should identify several potential sites. Sites should be assessed for overall site potential, proximity to veterans in the state, topographical features, available acreage and the surrounding land use. Once the number of sites has been narrowed to the most favorable locations, consider the suitability of the land for development as a cemetery. The preferred site is then described in the pre-application for a grant. States have always been partners with the Federal government in providing for the needs of military veterans. The VA State Cemetery Grants Program (SCGP) assists the states in providing gravesites with grants used to establish, expand or improve veterans cemeteries owned and operated by the state.

Phasing

Cemeteries are constructed in phases based on the needs of the veteran population. The initial phase of construction should be based on a projected ten-year interment rate. Initial development of larger increments would unnecessarily increase state maintenance costs. This first phase includes the development and construction of the cemetery infrastructure as follows:

- Entry Features (including Avenue of Flags)
- Roads and Parking
- Avenue of Flags
- Assembly Area (Flag Location)
- Burial Areas and Burial Sections
- Committal Service Shelter
- Columbarium and In-Ground Cremain Burials
- Memorial Walk
- Administration Building
- Public Information Center (PIC)
- Public Restrooms
- Maintenance Building
- Service Yard
- Irrigation System
- Utility Distribution System
- Carillon Tower

In subsequent phases cemeteries should look at burial needs for 10 years. Subsequent phases will include the build out of additional burial sections and continuation of the columbarium, as required. The additional phases will require the extension of roadways to access the planned burial sections. Initially, cemeteries are specifically designed with loop roads to easily accommodate additional phases. Planning for the second phase should start approximately six years after the cemetery opens.

BURIAL & MEMORIALS

State Cemetery Grants Program/Grant Information Kit

[Applicant Eligibility](#) [Program History and Background](#) [Scope of the Program](#) [Availability of Funds](#) [Application Guidelines](#) [Application Content](#) [Selection Criteria](#) [Review Process](#)

Applicant Eligibility

1. State governments are eligible to receive grants to **establish, expand or improve** state veterans cemeteries. The term "state" means each of the several states, territories and possessions of the United States, including Guam, American Samoa, the Virgin Islands and the Commonwealth of the Northern Marianas Islands. The District of Columbia and the Commonwealth of Puerto Rico are also eligible to receive grants.
2. Counties, cities and other state subdivisions, including multi-agency organizations are not eligible for grants. Native American tribal governments and entities are not eligible to receive grants. Private organizations are not eligible to receive grants.
3. **Applicants must own the land** on which the cemetery is to be established. The state is responsible for the provision of land. Land may be purchased, transferred from another agency or donated.
4. Eligible applicants must provide assurance that they possess legislative authority and adequate appropriations to construct the project to be built with grant assistance.
5. Cemeteries must be operated solely for the interment of service members who die on active duty, veterans (as defined in Title 38, U.S. Code §101.(2)), and their spouses and minor children. States may impose residency requirements for eligibility but are encouraged not to.
6. Grants may only be awarded to establish, expand or improve state-owned veterans cemeteries. Grants may not be awarded for maintenance or repairs.

7. New cemeteries must be capable of providing at least 20 years of service.

Program History and Background

1. The federal government's system of national cemeteries was first established during the Civil War. The Army operated most of the cemeteries until 1973 when they were transferred to the U.S. Department of Veterans Affairs (VA). Arlington National Cemetery is still operated by the Department of the Army. The National Park Service operates several historical national cemeteries such as Gettysburg and Vicksburg. An independent agency, the American Battle Monuments Commission, maintains cemeteries overseas for the dead of World War I and World War II. States have operated veterans cemeteries since the War with Mexico.
2. The VA State Cemetery Grants Program was established in 1978 to complement VA's network of national cemeteries. Funds were first appropriated for the program in 1980. As originally authorized, VA provided 50 percent of the cost and states provided 50 percent. The value of the state land dedicated to the cemetery comprised up to half of the state's share.
3. The program assists states in providing gravesites in those areas where the National Cemetery Administration (NCA) cannot fully satisfy veterans' burial needs.
4. 4. Public Law 105-368, which went into effect in 1999, authorized VA to provide up to 100 percent of the development cost for an approved project. VA can now provide for operating equipment for establishment of new cemeteries. VA does not provide for acquisition of land.
5. The administration, operation and maintenance of a VA-supported state cemetery are solely the responsibility of the state.
6. VA is authorized to pay a "plot allowance" of \$300 to a state for expenses incurred in the burial of an eligible veteran without charge.
7. Federal statutes authorizing the program are codified at 38 U.S.C. § 2408. Regulations are at 38 C.F.R. Part 39.
8. The State Cemetery Grants Program is described in the *Catalog of Federal Domestic Assistance* under "State Cemetery Grants" at 64.203.

Scope of the Program

1. The State Cemetery Grants Program is intended to complement the service provided by the VA's system of veterans cemeteries operated by the National Cemetery Administration.
2. VA seeks to provide the service of a veterans cemetery within 75 miles of 90 percent of the veterans across the country. Data shows that a 75-mile radius defines the effective "service area" of a veterans cemetery.
3. Since 1973, VA has opened many new cemeteries, primarily in large metropolitan areas where veterans previously had no effective service. VA also works to expand existing national cemeteries to maintain current service. VA has more than doubled the acreage available in federal veterans cemeteries since 1973 and the burial rate at these cemeteries has also increased by more than 100 percent.
4. Smaller cities and rural areas located beyond the 75-mile service areas of these existing national cemeteries are ideal locations for state veterans cemeteries.

Availability of Funds

1. Federal funds are appropriated each year for the State Cemetery Grants Program. VA requested \$32 million in funding for FY 2004 (October 1, 2003 through September 30, 2004).
2. Appropriated funds are available until expended.
3. If a state that has received a grant under this program ceases to operate the cemetery as a veterans cemetery, the federal government is entitled to recover the total of all grants made under this program to that state..
4. Funds must be expended in accordance with applicable guidelines, including Office of Management and Budget (OMB) Circular A-87, "Cost Principles for State, Local and Indian Tribal Governments."
5. All grant costs must be "necessary, reasonable" and allocable to the project for which funds have been requested.
6. When all requirements for Federal funding have been met, VA will award grants providing sufficient funds are available.
7. If sufficient funds are not available, VA will award funds according to the priority established (see "Selection Criteria").

Application Guidelines

1. A state seeking grant funding for a veterans cemetery project must apply to the U.S. Department of Veterans Affairs in accordance with 38 CFR (Code of Federal Regulations) Part 39. The applicant must also conform with the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, 38 CFR Part 43, known as the "Common Grants Management Rule."
2. The applicant must have clear legislative authority from the state to apply for the grant.
3. The applicant must have the funds necessary to begin design and planning work. Federal funds are awarded on the basis of the bids received for construction. **State funds are needed to prepare plans and specifications prior to bidding.** Once the successful bidder has been determined and VA has awarded the grant, the state may be reimbursed for allowable costs already incurred.
4. The applicant must provide written assurance that any cemetery established, expanded, or improved through a grant will be maintained and operated in accordance with the operational standards and measures of the National Cemetery Administration.
5. VA provides **no monetary assistance to operate state veterans cemeteries.** States must be aware of the commitment to operate the cemetery.
6. VA must receive applications by July 1 for projects to be funded in the next Federal fiscal year (October 1 through September 30).
7. Applications must be reviewed by the State "Single Point of Contact" under the Executive Order 12372 process.
8. Applications must be signed and dated by the authorized state representative, normally the director of

the state veterans affairs agency.

9. Cemeteries established under the grant program must conform to VA-prescribed standards and guidelines for site selection, planning and construction.

Application Content

1. Standard forms approved by the U.S. Office of Management and Budget (OMB) must be used to apply for grants. All these forms are provided in the "State Cemetery Grants Program Guide, PG 40-1." They are also available on the [OMB Grants Management](#) website.
 - o The basic application form is SF (Standard Form) 424, titled "Application for Federal Assistance," and known as the "face sheet."
 - o The application must also include SF 424C, "Budget Information—Construction Programs."
 - o The applicant must also submit SF 424D, "Assurances—Construction Programs."
 - o The "Certificate of Compliance" with Federal drug-free workplace and debarment and suspension requirements is required.
 - o In addition, the applicant must submit the "Certification for Contracts, Grants, Loan and Cooperative Agreements," which certifies that the applicant will not use grant funds for lobbying. If grant funds are to be used for lobbying, they must be disclosed on the "Disclosure" form.

The applicant must submit written assurance that it possesses authority to establish and operate a state veterans cemetery and that it will maintain the cemetery in accordance with VA standards.

2. For all projects expected to cost \$100,000 or more, the applicant must submit a pre-application. The pre-application is intended to:
 - o Establish communication between the grantor agency (VA) and the applicant;
 - o Determine the applicant's eligibility;
 - o Determine how well the proposed project can compete with applications from others;
 - o Discourage proposals that have little or no chance of being funded.
3. Pre-applications must include the following:
 - o The location of the cemetery. A specific site may be designated during the review phase of the application, but the pre-application must designate the area to be served and the preferred location of the cemetery;
 - o A design concept that describes the primary features to be included in the project and the number of gravesites to be provided. Standard features include items such as the entrance gate, administration building, committal service facility, flag plaza and assembly area;
 - o A needs assessment that explains the need for the project to establish, expand or improve the veterans cemetery. This should be concise and quantitative to the degree possible.

Selection Criteria

1. Preapplications received by July 1, will be prioritized for funding in the following fiscal year.
2. Only preapplications which have met the requirements noted in the "Application Guidelines" and the "Application Content" sections will be prioritized. That is, applications must be properly completed on the appropriate forms. They must include the proper attachments and the applicant must have clear authority and adequate funding to begin the design process.
3. Preapplications meeting these basic requirements will be prioritized according to published criteria in the Program Guide, PG 40-1.
4. VA will rank the preapplications and announce priorities by August 15. VA will rank applications according to priority and the date on which the application was received.
5. Prioritization follows these rules:
 - o PRIORITY I - Projects needed to avoid disruption in burial service that would otherwise occur at existing veterans' cemeteries within 4 years of the date of the preapplication. Such projects would include phased expansion projects as well as improvement projects that are needed to continue interment operations.
 - o PRIORITY II - Projects for the establishment of new veterans' cemeteries.
 - o PRIORITY III - Planned phased developments prior to need.
 - o PRIORITY IV - Other improvement projects.

Within priority groups 1, 2 and 3, highest priority will be given to projects in geographical locations that would provide **service to the largest number** of unserved veterans as determined by VA. Within priority group 4, projects will be ranked in order based upon VA's determination of the relative importance and necessity to operate.

Review Process

1. In addition to the required forms, assurances, certifications and attachments, all projects must comply with the National Environmental Policy Act and the National Historic Preservation Act. In many cases, especially with new cemeteries, the applicant will be required to perform an Environmental Assessment (EA) to determine whether a more in-depth Environmental Impact Study (EIS) is required. The EA should progress toward a Finding of No Significant Impact (FONSI). The FONSI should be made available for public review and comment.
2. The National Historic Preservation Act requires VA to determine whether proposed projects will have any impact on historic or cultural resources. When a new cemetery is being established, it is normally necessary to perform an investigation of the site to determine whether any historic or cultural resources would be affected and, if so, what mitigation or protection may be afforded. The applicant then confers with the State Historic Preservation Office (SHPO), which renders an opinion of the project's impact. Depending on the opinion of the SHPO, VA may be able to approve the project.
3. Most states hire architect/engineer (A/E) firms to design major projects. In the case of major projects, including all establishment grants, VA requires a "pre-design conference" in which VA, state and A/E representatives meet to familiarize themselves with the site and VA design requirements.
4. VA requires a "master plan" for establishment of new cemeteries. The master plan should analyze the

major factors affecting design of the cemetery—including climate, soil, hydrology, site constraints, views, and activity level. The plan should analyze alternative designs and address the ultimate “build-out” of the site and planned phases of development.

5. The design process then proceeds to “design development” or partial plans, sometimes called 40 percent or 50 percent drawings. Again VA must review these submissions and approve them.
6. The final design submission comprises the construction drawings and specifications. VA is required to approve these documents before the state advertises for bids. Cemetery plans must be complete, comprehensive and professional.
7. Based on construction bids, the state submits a new form 424 and 424C that reflects the actual construction amount rather than the estimated amount provided in the preapplication. Along with the forms, the state must submit a tabulation of bids and designate the contractor to whom the contract will be awarded. VA reviews these materials and then awards the grant. Once the state receives the Notification of Grant Award, they may request reimbursement for costs they have already incurred such as design costs.

64.203 State Cemetery Grants

FEDERAL AGENCY:

NATIONAL CEMETERY ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS

AUTHORIZATION:

Veterans Housing Benefits Act of 1978, Section 202, Public Laws 95-476, 98-223, 100-687, 103-446, and 105-368; 38 U.S.C. 2408.

OBJECTIVES:

To assist States in the establishment, expansion, and improvement of veterans' cemeteries.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Monetary assistance is provided under this program to construct, expand, and improve State veterans' cemeteries. Cemeteries must be State-owned and operated solely for the interment of eligible veterans and their dependents and/or spouses. Construction cost means the amount found necessary to convert a tract of land to an operational cemetery.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Any State may apply.

Beneficiary Eligibility:

The cemetery must be used solely for the interment of veterans, their wives, husbands, surviving spouses, minor children, and unmarried adult children who were physically or mentally disabled and incapable of self support: section 1.620 of 38 CFR.

Credentials/Documentation:

Costs will be determined in accordance with revised OMB Circular No. A-87 for State Governments, dated May 4, 1995, and further amended August 29, 1997.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Consultation or assistance is available from VA Central Office personnel (State Cemetery Grants Service) to aid in the preparation of an application. The standard application forms as furnished by VA and required by OMB Circular No. A-102 must be used for this program (Standard Form 424, "Application for Federal Assistance," with attachments). An environmental assessment is required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if

the State has selected the program for review.

Application Procedure:

Submit Standard Form 424, "Application for Federal Assistance for Construction Programs," with attachments, to the Director, State Cemetery Grants Service (401C), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

Formal notification of the award to the State is made by the Under Secretary for Memorial Affairs, National Cemetery Administration.

Deadlines:

A deadline of July 1 is established for the filing of applications in the year prior to the fiscal year in which funding is requested.

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

No application shall be disapproved until the applicant has been afforded an opportunity for a hearing.

Renewals:

Not applicable.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The amount of the Federal contribution to a State is up to 100 percent of the cost of establishing, improving or expanding State Veterans Cemeteries. In the case of establishment grants, the cost of operating equipment may also be included. Land value is not included as an allowable cost for reimbursement under the grant.

Length and Time Phasing of Assistance:

Funds are provided by electronic transfer of funds and must be used within 3 years.

POST ASSISTANCE REQUIREMENTS:

Reports:

Outlay Report and Request for Reimbursement for Construction Programs, and Performance Reports are accomplished in accord with 38 CFR Part 43.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 24, 1997), "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$300,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$300,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Financial records, supporting documents, statistical records and all other records pertinent to a grant shall be retained for a period of 3 years. If any claim or audit is started before the expiration of the 3 year period, the records shall be retained until all litigation, claims or audit findings involving the records

have been resolved.

FINANCIAL INFORMATION:**Account Identification:**

36-0183-0-1-705.

Obligations:

(Grants) FY 04 \$33,621,693; FY 05 est \$36,109,000; and FY 06 est \$32,000,000.

Range and Average of Financial Assistance:

\$4,305 to \$10,965,607. Average: \$1,533,992.

PROGRAM ACCOMPLISHMENTS:

For fiscal year 2005 the State Cemetery Grants Service has received requests totaling \$126,070,995. The State Cemetery Grants Service estimates approximately 5 to 10 applications to establish, expand, or improve State veterans cemeteries in fiscal years 2005 and 2006.

REGULATIONS, GUIDELINES, AND LITERATURE:

VA Regulations 38 CFR Parts 39 and 43, State Cemetery Grant Program; State Cemetery Grants Program Guide (PG 40-1); and, "Federal Assistance for Establishment, Expansion and Improvement of State Veterans' Cemeteries (State Cemetery Grants Program)" (VA Pamphlet 40-96).

INFORMATION CONTACTS:**Regional or Local Office:**

None.

Headquarters Office:

Director, State Cemetery Grants Service, (41E), National Cemetery Administration, Department of Veterans Affairs, 810 Vermont Avenue, N.W., Washington, DC 20420. Contact: Mr. William Jayne. Telephone: (202) 565-6152 or 565-6801. Fax: (202) 565-6141.

Web Site Address:

<http://www.va.gov>.

RELATED PROGRAMS:

64.101, Burial Expenses Allowance for Veterans; 64.201, National Cemeteries; 64.202, Procurement of Headstones and Markers and/or Presidential Memorial Certificates.

EXAMPLES OF FUNDED PROJECTS:

1) Construction necessary to convert a tract of land to an operational cemetery; 2) construction of a committal facility, administration/maintenance building, and improve storm drainage system; and 3) the expansion of cemetery acreage or building a committal shelter.

CRITERIA FOR SELECTING PROPOSALS:

Applications are prioritized and ranked with other projects in the order received. The priority system consists of six groups or categories. Examples: The extent to which States have adequate funds to match the Federal grant; and the extent to which a project involves additional gravesites necessary to keep the cemetery open. The availability of the Federal and nonfederal share of the project is a primary consideration.

What Is A VA Burial Allowance ?

A VA burial allowance is a partial reimbursement of an eligible veteran's burial and funeral costs. When the cause of death is not service-related, the reimbursement is generally described as two payments: (1) a burial and funeral expense allowance, and (2) a plot interment allowance.

Who Is Eligible ?

You may be eligible for a VA burial allowance if:

- ✧ you paid for a veteran's burial or funeral **AND**
- ✧ you have not been reimbursed by another government agency or some other source, such as the deceased veteran's employer **AND**
- ✧ the veteran was discharged under conditions other than dishonorable.

In addition, at least one of the following conditions must be met:

- ✧ the veteran died because of a service-related disability **OR**
- ✧ the veteran was receiving VA pension or compensation at the time of death **OR**
- ✧ the veteran was entitled to receive VA pension or compensation but decided not to reduce his/her military retirement or disability pay **OR**
- ✧ the veteran died in a VA hospital or while in a nursing home under VA contract, or while in an approved state nursing home.

How Much Does VA Pay ?

Service-Related Death. VA will pay up to \$1,500 toward burial expenses for deaths prior to September 10, 2001. For deaths on or after September 11, 2001, VA will pay \$2,000. If the veteran is buried in a VA national cemetery, some or all of the cost of moving the deceased may be reimbursed.

Nonservice-Related Death. VA will pay up to \$300 toward burial and funeral expenses, and a \$150 plot interment allowance for deaths prior to December 1, 2001. The plot-interment allowance is \$300 for deaths on or after December 1, 2001. If the death happened while the veteran was in a VA hospital or under contracted nursing home care, some or all of the costs for transporting the deceased's remains may be reimbursed.

How Can You Apply ?

You can apply by filling out VA Form 21-530, Application for Burial Allowance. You should attach proof of the veteran's military service (DD 214), a death certificate, and copies of funeral and burial bills you have paid.

The Honorable Bob Roses, Chair
Military and Veterans' Affairs Committee
Alaska Capitol, Room 416
Juneau, AK 99801-1182

RE: HB 45 (Guttenberg and Doll) -Support

Dear Chair Roses:

On behalf of the members of AARP in Alaska, we urge you and your colleagues on the House Military and Veterans' Affairs Committee to support HB 45, authored by Representatives David Guttenberg and Andrea Doll and co-sponsored by Representative Bob Lynn.

HB 45 would establish a new veterans' cemetery in the Interior. As you know, the closest military cemetery is in Anchorage yet the Fairbanks area alone has over 11,000 veterans, many of whom are AARP members.

Burial in a veterans' cemetery is one of the last honors we can offer our fellow citizens who have served in the Armed Forces. We think it is a well-deserved tribute to these men and women who served our country and a veterans' cemetery in the Interior simply makes sense. It is a proper thank you to the veterans and their families.

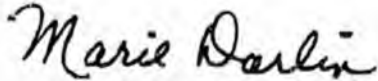

Undoubtedly there may be some costs associated with a new cemetery. Our veterans didn't weigh the costs when they joined the armed services. Surely we can bear the costs of this final thank-you to them.

AARP recommends an "AYE" vote on HB 45.

Should you have any questions about our position, please feel free to contact me (586-3637) or Patrick Luby, AARP Advocacy Director (907-762-3314).

Thank you for your consideration.

Sincerely,

Marie Darlin, Coordinator
AARP Capital City Task Force

Disabled American Veterans
Department of Alaska
Resolution #2007-01

SUPPORT FOR A POLICY FOR A STATE VETERANS CEMETARY

WHEREAS, Alaskan veterans deserve a cemetery that is located in the Interior that honors their service; and

WHEREAS, according to the Department of Veterans Affairs National Cemetery Administration, Alaska has more residents in the military on a per-capita basis than any other state. The Fairbanks North Star Borough has approximately 11,164 veterans; Forty percent of families in the Fairbanks area have at least one veteran in their household and sixteen percent have at least one woman in the household who is a veteran; and

WHEREAS, A State Veterans' Cemetery in the Interior would better serve needs of the veterans and their families and provide a place that is centrally located, honorable and well maintained; and

WHEREAS, The nearest officially designated military cemetery is located 350 miles North of Anchorage at Ft. Richardson; and

WHEREAS, The Department of Veterans Affairs National Cemetery Administrations' goal is to provide eligible veterans reasonable access to Department of Veterans Affairs (VA) burial options; and

WHEREAS, The VA provides a burial and funeral expense allowance of \$300 and a plot-interment allowance of \$300; and

WHEREAS, The Department of Veterans Affairs National Cemetery Administration follows a six-step process to build a new state veteran cemetery; site selection; environmental statement; land acquisition; master planning and design development; construction document preparation; and construction award and completion; and

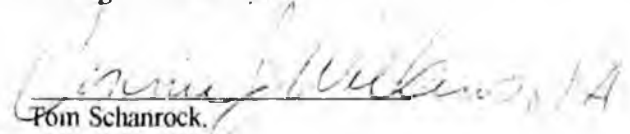

WHEREAS, The Alaska Department of Military and Veterans' Affairs can be awarded up to 100% of the development costs from the Department of Veterans Affairs National Cemetery Administration for an approved project; and

WHEREAS, To date, the Veterans Administration has awarded 137 grants totaling more than \$200 million to establish, expand or improve sixty-two veterans cemeteries in thirty-two states, plus Guam, Fifty-six cemeteries in twenty-one states and Guam are now operational; and

WHEREAS, According to the Division of Motor Vehicles from FY03 to FY05, \$45,040, has been generated from both the Federal and Commemorative Veterans license plate programs. The monies collected from the state license plate program currently goes into the general fund; and

WHEREAS, The construction of a state veterans cemetery in the Interior would be a great benefit to the friends and families of veterans in our community and would provide a place in the Interior for soldiers to be laid with full military funeral honors, pallbearers, rifle team, flag folding and flag presentation; therefore, be it

RESOLVED, By the Disabled American Veterans, Department of Alaska, That support be given in the creation of a veterans state cemetery, as proposed in HB45, open to all veterans in the state and recognizes the veterans sacrifices while serving our cemetery.

Pam Schanrock,
Department Commander

January 30, 2007

Representative David Guttenberg
State Capital
Room 418
Juneau, AK. 99801

Reference: Veterans Cemetery in Fairbanks

Dear Representative Guttenberg:

As the 2007 Legislative session begins, Veterans organizations are again requesting Legislative support for the establishment of a Veterans Cemetery in Fairbanks. You will recall that the American Legion, Department of Alaska, at their 2005 State Convention in Kodiak voted unanimously in support of that cemetery. Most noteworthy is that the resolution calling for a new veteran's cemetery came from our Anchorage American Legion comrades who recognized the only existing veteran's cemetery in Alaska is located at Fort Richardson.

We have met with Federal Veterans Affairs officials, State Veterans Affairs personnel, American Legion Posts, veterans of Foreign Wars, Alaska Native Veterans, members of the Order of The Purple Heart and other veterans organizations who all strongly support your bill to establish a second veterans cemetery to serve the desperate need for a final resting ground for those many who have served our country in times of war and peace.

The need for a new veteran's cemetery is urgent as the few veterans' sites available will soon be filled with no provision existing for veteran's grave anywhere in the interior.

Please share this letter with other members of the Legislature.

For God and Country,

Darrell Peterson, Commander

FAIRBANKS NORTH STAR BOROUGH

RESOLUTION NO. 2005 - 15

A RESOLUTION SUPPORTING THE CREATION OF A STATE VETERANS' CEMETERY IN THE INTERIOR THROUGH LEGISLATION THAT ESTABLISHES AN ALASKAN VETERANS CEMETERY WITH FUNDS FROM THE U.S. DEPARTMENT OF VETERANS AFFAIRS (VA) STATE CEMETERY GRANTS PROGRAM.

WHEREAS, Alaskan veterans deserve a cemetery that is located in the Interior that honors their service; and

WHEREAS, according to the Department of Veterans Affairs National Cemetery Administration, Alaska has more residents in the military on a per-capita basis than any other state. There are approximately 11,164 veterans living in the Fairbanks North Star Borough; and

WHEREAS, the nearest officially designated military cemetery is located in Anchorage at Fort Richardson Army base; and

WHEREAS, the VA National Cemetery Administration follows a 6-step process to build a new state veterans cemetery: site selection; environmental assessment; land acquisition; master planning and design development; construction documents preparation; and construction award and completion; and

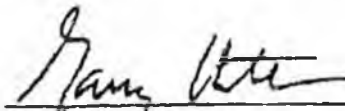

WHEREAS, the Alaska Department of Military and Veterans' Affairs can be awarded up to 100 percent of the development costs from the VA State Cemetery Grants Program for an approved project and the VA has awarded 137 grants to establish and improve veterans cemeteries around the country; and

WHEREAS, a State Veterans' Cemetery in the Interior would better serve needs of the veterans and their families, and provide a place that is centrally located, honorable, and would provide a place in the Interior for soldiers to be laid with full military funeral honors, pallbearers, rifle team, flag folding, and flag presentation; and

NOW THEREFORE BE IT RESOLVED, that the Fairbanks North Star Borough Assembly supports the creation of a State Veterans' Cemetery in the Interior and recognizes veterans' sacrifices while serving our country.

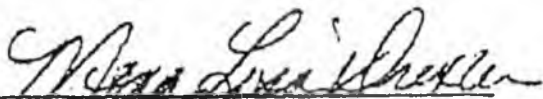

46 BE IT FURTHER RESOLVED, that copies of this resolution shall be
47 forwarded to The Honorable Governor Frank Murkowski, the Alaska Interior Delegation,
48 members of the House Military and Veterans Affairs Committee, Major General Craig E.
49 Campbell Adjutant General/Commissioner, Military and Veterans Affairs, The Honorable
50 Senator Ted Stevens, the Honorable Senator Lisa Murkowski, the Honorable
51 Congressman Don Young.

52 PASSED AND APPROVED THIS 24th DAY OF MARCH 2005.

The Honorable David Guttenberg
House of Representatives
State Capitol, Room 418
Juneau, AK 99801-1182

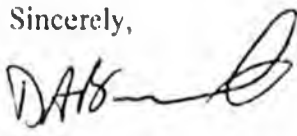

Dear Representative Guttenberg:

I received your request for information concerning the revenues associated with the Veteran License Plate programs. The following schedule shows revenues collected for FY03 through FY06, and for the first half of FY07.

	Standard Veteran License Plates	Commemorative Veteran License Plates - Original	Commemorative Veteran License Plates - Renewal
FY03	\$ 18,330	\$ 0	\$ 0
FY04	18,390	200	0
FY05	22,510	1,800	70
FY06	21,160	1,700	0
FY07 (Jul-Dec)	10,755	970	0

I hope you find this information useful. If I may be of further assistance on this, or any other DMV matter, please don't hesitate to contact me directly.

Sincerely,

Duane Bannock

From: Representative David Guttenberg

Date: February 22, 2007

Re: **Hearing request** for HB 45, "An Act authorizing the Department of Military and Veterans' Affairs to establish and maintain Alaska veterans' cemeteries; and establishing the Alaska veterans' cemetery fund in the general fund."

I respectfully request a hearing on House Bill 45 in the House State Affairs Committee.

In the following packet you will find:

- Sponsor Statement
- Current CS Version of HB 45
- Fiscal Notes
- Sectional Analysis
- State Cemetery Grant Program overview and eligibility requirements for Burial Benefits from the Department of Veterans Affairs Administration
- Fairbanks Veterans Cemetery Worksheet relating to Operational Costs
- Commemorative Plates information from DMV
- Support Letters/Resolutions

I look forward to presenting it before the committee as soon as is convenient. My staff, Dana Krawchuk, is assigned to this legislation if there are any questions, 465-4955.

A handwritten signature in cursive script, appearing to read "Dana Krawchuk".

House Bill 45 - State Veterans' Cemetery

All Alaska veterans deserve access to a military cemetery that honors their service and recognizes their sacrifices while serving our country, usually under challenging conditions, and frequently in harm's way.

On a per capita basis, Alaska has more residents in active military service or who are veterans than all but one other state. According to the U.S. Department of Veterans Affairs (VA), a total of 9,469 veterans reside in the Fairbanks North Star Borough.

The VA's long-term goal is to provide an operational veterans' cemetery within 75 miles of 90 percent of the veterans in the country. The nearest veterans' cemetery to Fairbanks is Fort Richardson National Cemetery, located 350 miles away in Anchorage. By the VA's own estimation, a facility in Fairbanks would greatly increase the number of veterans served by a veterans' cemetery.

Interior Alaska's veterans deserve a cemetery located in the Interior of the state. A state veterans' cemetery in the Interior would better serve the needs of veterans and their families, and provide a final resting place that is centrally located, honorable, and well maintained. An Interior veterans' cemetery will help families avoid the pain of burying a loved one far from home.

HB 45 seeks to establish a state cemetery similar to the Fort Richardson and Sitka National Cemeteries. It will provide a place in the Interior for soldiers to be laid to rest with full military funeral honors, including uniformed pallbearers, rifle team, and ceremonial folding and presentation of the United States flag.

HB 45 authorizes the Alaska Department of Military and Veterans' Affairs to establish and maintain a state veterans' cemetery with funds from the U.S. Department of Veterans Affairs, State Cemetery Grants Program. Through this program, the Alaska Department of Military and Veterans' Affairs may be awarded up to 100% of allowable costs for design, construction, and operating equipment for an approved project. To date, the VA has awarded 152 grants totaling more than \$264 million to establish, expand, or improve 65 veterans' cemeteries in 35 states, Guam and Northern Mariana Islands. There are now 65 operational cemeteries and four more under construction.

I urge you to support this legislation.

MEMORANDUM

January 31, 2007

SUBJECT: Sectional summary of HB 45 (Work Order No. 25-LS0230\A)

TO: Representative David Guttenberg
Attn: Dana Krawchuk

FROM: 
Donald M. Bullock Jr.
Legislative Counsel

You have requested a sectional summary of the above-described bill.

As a preliminary matter, note that a sectional summary of a bill should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents. If you would like an interpretation of the bill as it may apply to a particular set of circumstances, please advise.

Section 1. Allows the legislature to appropriate a portion of the money received for special request plates commemorating Alaska veterans to the Alaska veterans' cemetery fund created in sec. 2 of the bill.

Section 2. Creates the Alaska veterans' cemetery fund in the general fund; the fund is not exempt from the requirements of AS 37.07 (Executive Budget Act) and money in the fund is not dedicated for a specific purpose. Provides that the legislature may appropriate amounts from the fund to the Department of Military and Veterans' Affairs for the construction, operation, and maintenance of veterans' cemeteries established under sec. 3 of the bill. Appropriations to the veterans' cemetery fund do not lapse under AS 37.25.010, and the unexpended and unobligated balance of an appropriation from the fund lapses back into the fund.

Section 3. Authorizes the Department of Military and Veterans' Affairs to establish and maintain Alaska veterans' cemeteries in the state. Allows the department to accept gifts, donations, and grants for the purpose of establishing and maintaining the cemeteries; land received by the department is owned by the state. Requires the department to consult with the Alaska Veterans' Advisory Council for adopting regulations for determining eligibility for burial in a state veterans' cemetery, receive the plot or interment allowance on behalf of the state, comply with all requirements for a state veterans' cemetery grant established by the United States Department of Veterans' Affairs, and apply for state veterans' cemetery grants from the United States Department of Veterans' Affairs. Authorizes the Department of Military and Veterans' Affairs to adopt regulations, enter

Representative David Guttenberg

FAIRBANKS VETERANS CEMETERY WORKSHEET OPERATIONAL AND MAINTENANCE COSTS¹

Demographic Factors	Data	Notes
Veterans in four areas	11,164	Fairbanks/North Star and 3 adjoining areas
Avg. annual death rate	149	2005-2026 VA figures
Usage factor	0.50	50% will choose cemetery
Dependents factor	1.50	1 dependent per 2 veterans
Annual burial rate	112	[Death rate x usage] x dependents factor
Graves per acre (gross)	600	Rule of thumb
Min. gravesites needed (20 yr.)	1,676	[Annual burials x 0.75] x 20
Min. burial acreage needed	2.79	One of four is a "second interment"
Gross acreage recommended	20.00 ²	Min. gravesites/600 see note below
Personnel Factors		
	Data	
Admn. Workers (230 inter. Per FTE)	0.49	Based on NCA estimates
Field workers		Cumulative
Interments (250 per FTE)	0.45	Includes PT, temp., etc.
Gravesites (7,844.4 per FTE)	0.21	Rises over time
Acres Maint. (10.7 per FTE)	0.26	Burial acres used/developed acres may vary
Field Workers Subtotal	0.92	
Employees	1.41	Admn. & field workers
Cem. Director (GS 9--\$36.7 x 1.3 for fringes)	\$47,652.80	NCA Costs 1.0 Full Time Equivalent Employee (FTEE)
Equip. Operator (WG-8--\$28 x 1.3)	\$36,142.60	1.0 FTEE
Total Salary	\$83,795.40	
Operations Factors		
	Data	
Utilities & communications	\$1,117.50	Phone, water, electricity, gas (\$400 x acres)
Supplies & materials	\$2,095.31	Fuel, fertilizer, etc. (\$750 x acres)
Contractual services	\$1,187.34	Janitorial, security, irrigation (\$425 x acres)
Subtotal	\$4,400.16	
Total Annual Operations \$88,195.56		
<i>Maintenance and Repairs extra</i>		
<i>Equipment Replacement extra</i>		

¹ The standard usage factor is 25% but we have increased the factor to 50% in this case because of the difficulty in projecting usage in this area. While 50% usage may be high, it would be better to estimate a higher number at this point rather than a lower number.

² The model assumes a suitable site with easily developed cemetery land. In this case, it would be better to acquire as large a parcel as possible in order to assure suitable land and the ability to buffer surrounding land uses. At least 20 acres should be considered.

State Cemetery Grants Program

- The U.S. Department of Veterans Affairs (VA) State Cemetery Grants Program was established in 1978 to complement VA's national cemeteries.
- The program assists states in providing gravesites for veterans in those areas where NCA cannot fully satisfy their burial needs.
- Grants may be used only to establish, expand or improve veterans cemeteries that are owned and operated by a state. Aid is granted only to states, not to private organizations, counties, cities, or other government agencies.
- VA can provide up to 100 percent of the development cost for an approved project. For establishment of new cemeteries, VA can provide for operating equipment as well. VA cannot pay for acquisition of land.
- Cemeteries established under the grant program must conform to the standards and guidelines pertaining to site selection, planning, and construction prescribed by VA.
- Cemeteries must be operated solely for the interment of service members who die on active duty, veterans (as defined by federal law), and their eligible spouses and dependent children. States may impose residency requirements and other limitations to eligibility in addition to those imposed by federal law. State eligibility requirements, however, may not be less stringent than Federal requirements.
- The administration, operation, and maintenance of a VA-supported state cemetery is solely the responsibility of the state.
- VA is authorized to pay a "plot allowance" of \$300 to a state for expenses incurred in the burial of certain eligible veterans.
- VA has awarded 152 grants totaling more than \$274 million to establish, expand or improve 71 veterans cemeteries in 35 states and Guam.
- In fiscal year 2006 NCA-supported state cemeteries provided more than 22,000 interments.

BURIAL & MEMORIALS

State Cemetery Grants Program - General Information

The Department of Veterans Affairs (VA) State Cemetery Grants Program was established in 1978 to complement VA's National Cemetery Administration.

The program assists states in providing gravesites for veterans in those areas where VA's national cemeteries cannot fully satisfy their burial needs.

Grants may be used only for the purpose of establishing, expanding or improving veterans cemeteries that are owned and operated by a state or U.S. territory. Aid can be granted only to states or U.S. territories. VA cannot provide grants to private organizations, counties, cities or other government agencies.

VA can now provide up to 100 percent of the development cost for an approved project. For establishment of new cemeteries, VA can provide for operating equipment. VA does not provide for acquisition of land. The value of the land cannot be considered as an "allowable cost" under the grant. States are solely responsible for acquisition of the necessary land. Any state ceasing to own or operate a cemetery established, expanded or improved through the use of grant funds, or using the funds for any other purpose than for which the grant was made will be liable for the total refund of all grants made for that cemetery. Federal funds can also be suspended or withdrawn for noncompliance with the terms and conditions of the grant.

Massachusetts State Veterans Cemetery Agawam

Cemeteries established under the grant program must conform to the standards and guidelines pertaining to site selection, planning and construction prescribed by VA. Cemeteries must be operated solely for the burial of service members who die on active duty, veterans, and their eligible spouses and dependent children. Any cemetery assisted by a VA grant must be maintained and operated according to the operational standards and measures of the National Cemetery Administration.

The administration, operation and maintenance of a VA-supported state cemetery is solely the responsibility of the state. The Secretary of Veterans Affairs is authorized to pay a plot or interment allowance (not to exceed \$300) to a state for expenses incurred by the state in the burial of eligible veterans in a cemetery owned and operated by the state if the burial is performed at no cost to the veteran's next-of-kin. This benefit is administered by the Veterans Benefits Administration (VBA) and the state must apply to VBA to receive it.

VA has awarded 152 grants totaling more than \$264 million to establish, expand or improve 65 veterans cemeteries in 35 states, Guam and Northern Mariana Islands.

There are 65 operational cemeteries and four more under construction.

A list of state veterans cemeteries is available.

BURIAL & MEMORIALS

Establishing a State Veterans Cemetery

Determine Need

Analyze existing service provided by national cemeteries and other state cemeteries. Consider service life of existing cemeteries. Provide data on veteran population, including age.

Investigate Availability of Suitable Land

Suitable land should be easily accessed by road, free of limitations such as rock, steep slopes and wetlands, uncompromised by incompatible land uses near by, and appropriate for cemetery use. Land already owned by the state, county or municipality is usually the best choice. The state must have title to the land.

Assess Impacts

Analyze possible negative environmental and historic preservation impacts the cemetery location may have. Can such limitations be overcome?

Encourage Support

Veterans service organizations should be informed of the project and be in support of an effort to establish a state veterans cemetery. Local governments should also be supportive. Ultimately, the state legislature must pass necessary legislation authorizing the state cemetery and appropriating funds for establishment and operation.

Complete Application

Apply to the Department of Veterans Affairs for federal assistance with a grant for establishing a state veterans cemetery. For forms and other guidance, see OMB Grants Management and the Catalog of Federal Domestic Assistance.

State Grants Planning Model Overview

[Veterans Shrine Commitment](#)

[General Program Requirements](#)

[Project Design Requirements](#)

[Site Considerations - Site Selection Standards for a State Cemetery](#)

[Site Description and Site Analysis](#)

[Planning Process for Establishing State Cemeteries](#)

[Phasing](#)

Veterans Shrine Commitment

The appearance of state veterans cemeteries demonstrates to America's veterans that the nation appreciates their selfless service and the sacrifices they have made. Elevating the appearance of the cemeteries to shrine status signals the commitment to maintain our veterans' cemeteries at the highest standards forever. State veterans cemeteries help foster patriotism and preserve the nation's history.

Each visitor should depart feeling that the grounds, the gravesites and the environs of the state cemetery are a beautiful and awe-inspiring tribute to those who gave much to preserve the nation's freedom and way of life.

Each state cemetery exists as a veterans shrine and serves as an expression of the appreciation and respect of a grateful state and nation for the service and sacrifice of its veterans. Each cemetery provides an enduring memorial to their sacrifice as well as a dignified and respectful setting for their final rest.

To satisfy this requirement, pre-applications should include a written assurance that the state will maintain the cemetery according to VA National Cemetery Administration standards as established in 38 CFR Section 39.6(4).

General Program Requirements

In general, state cemetery projects should be built to create a sense of visual continuity with the site and reflect the tradition and heritage of the area. Cemetery buildings should not be isolated, preeminent elements of the cemetery. Buildings should blend with the site design and may be contemporary, single-story architectural structures found in the project region, or transitional, with a style reminiscent of historic state architecture. All buildings should be designed to reflect permanence and durability with minimum maintenance required. The overall design should consider human scale and privacy for visitors. A consistent architectural expression shall be maintained throughout the cemetery.

Cemetery master plans should be laid out in a looped circulation configuration. Loop configurations include roads that separate vehicular, pedestrian and maintenance traffic. Loop configurations also help define memorial areas but roads should not be used as boundaries to circumscribe the burial areas. The design should establish a strong sense of entry into the cemetery and create an interesting and dramatic sequence of spaces.

The development plan should be divided into phases, each consisting of an area approximating the burial need over a 10-year period. Construction of burial areas in latter phases should be programmed to be completed two years before actual need. This lead-time allows for the continuity of interment service.

Prior to construction, the site chosen should be evaluated for environmental impact and issues. Projects are required to support a FONSI (Finding of No Significant Impact) indicating the project will not have an undue negative impact on the environment.

In general, cemetery plans should avoid lakes, greenhouses and bridges. Chapel buildings, whether freestanding or part of another structure, are not allowed under 38 CFR (Code of Federal Regulations) Part 39. The cost to build and maintain cemetery features of this nature is not supported by the State Cemetery Grants Program. Additionally, per the CFR, the grants program does not fund cemetery land costs or offsite utilities. Some current state cemeteries received land donations for their project.

[back to top](#)

Project Design Requirements

The following is a list of the reference documents required for the design of the project.

- 38 CFR (Code of Federal Regulations), Part 39
- Your State Contract Requirements (A/E, Construction)
- State Cemetery Grants Program - Grant Information Kit July 2001
- A/E Submission Requirements; PG-18-15 Volume D June 1999

All cemetery designs must conform to all state and local codes and requirements.

Site Considerations

Site Selection Standards for a State Cemetery:

- **Proximity** - Locate the site as close as possible to the most densely populated location in the area under consideration. Not only actual distance, but travel time to the site must be considered.
- **Size** - Site acreage is sufficient to provide at least 20-40 years of gravesites based on state projected burial rate. More acreage is encouraged. The acreage required will depend on the burial method, gravesite yield, projected burial rates based on the state's estimated needs for at least 20 years, and the project site's proximity to other national and state cemeteries.
- **Shape** - Uniform boundaries, undivided by roads or easements, with generally square or rectangular shapes are desired. Irregularly shaped sites are more difficult to access and less efficient to design and develop.
- **Accessibility** - Site accessible by highway. Public transportation service is desirable but not required. Road quality of access streets should also be considered.

- **Utilities & Water** - Availability of public utilities (electricity, water, sewer, gas) is important. However, on-site septic systems and on-site potable water wells or ponds are acceptable. An adequate water supply for irrigation is of primary importance. Consider the availability of on-site or off-site recyclable water. The grant program does not fund off-site improvements such as water line extensions.
- **Surrounding Land Use** - Surrounding land should be free from noise or adverse environmental impact(s) (nuisance, landfills or hazardous waste sites). Consider the attractiveness and compatibility of adjacent land. Sites adjacent to visually objectionable, loud noise, high traffic, or other nuisance elements should be avoided. Both current and future projected land use are considered.
- **Soils** - Soils should be of a quality which will provide adequate topsoil for growing turf. The soil should have adequate stability for constructing roads and buildings and should be free from shallow-depth groundwater. The water table must be lower than the maximum proposed depth of burial. There should be no sub-surface obstructions or hazardous waste present. Site soil information is available through the Natural Resources Conservation Service, United States Department of Agriculture (www.nrcs.usda.gov).
- **Topography** - Land should be relatively level to rolling terrain for areas to be developed. The grade of the site should be in the two to ten percent range. There should be sufficient slope to enable proper drainage of the site. Ravines, wetlands, lakes, streams, floodplains and sinkholes cannot be developed. If hilly land is used, access must not be cost prohibitive.
- **Aesthetics** - Existing site amenities such as pleasant views and quality vegetative cover are favorable.
- **Restrictions to Development** - The presence of elements such as cultural/historic/archaeological elements, utility easements, rights-of-way or mineral rights can hamper or legally prevent development. Presence of endangered species limits land development. Potential flood hazards must be avoided.
- **Site Suitability and Acceptability** - Consider the following tests and items to determine site suitability and acceptability: 1) Soil Borings and Test Pits, Perk Test (Septic Field Requirements), Soil Sample Analysis; 2) Well, Aquifer Level, Underground Water Quality Testing; 3) Historic and Archaeological Land Use Review; 4) Cultural Resources; 5) Flood Plains, Wetlands, and Endangered Species; 6) Land Use and Public Access; 7) Utilities; 8) Hazardous Waste; 9) Corrective Action Agreement.

[back to top](#)

Site Description and Site Analysis

Per 38 CFR 39.8, the plan for a state cemetery requires a description of the site and its various elements. The description should explain specific development of the site, design concepts and include space and area requirements (space outline) for support facilities. The description should also include: proposed and existing burial acreage; available gravesites; total acreage and gravesites upon completion of the project; and the projected annual interment rates. (If the cemetery is to be developed in phases, each phase will be handled as a separate project.)

As part of the site selection process, NCA may provide states with demographic data from the Future Burial Needs report. This information will assist states in locating state veterans cemeteries in the most advantageous sites. Through its technical assistance program, NCA will assist State Directors of Veterans Affairs in answering related questions from other state officials.

Cemeteries established under the grant program must conform to VA-prescribed standards and guidelines for site selection, planning and construction. Cemeteries must be operated solely for the interment of service members who die on active duty, eligible veterans and their spouses and minor children. The administration, operation and maintenance of a VA-supported state cemetery are solely the responsibility of the state. VA is authorized to pay a "plot allowance" of \$300 to a state for expenses incurred in the burial of an eligible veteran.

Planning Process for Establishing State Cemeteries

Using the Site Selection Standards listed above, states should identify several potential sites. Sites should be assessed for overall site potential, proximity to veterans in the state, topographical features, available acreage and the surrounding land use. Once the number of sites has been narrowed to the most favorable locations, consider the suitability of the land for development as a cemetery. The preferred site is then described in the pre-application for a grant. States have always been partners with the Federal government in providing for the needs of military veterans. The VA State Cemetery Grants Program (SCGP) assists the states in providing gravesites with grants used to establish, expand or improve veterans cemeteries owned and operated by the state.

Phasing

Cemeteries are constructed in phases based on the needs of the veteran population. The initial phase of construction should be based on a projected ten-year interment rate. Initial development of larger increments would unnecessarily increase state maintenance costs. This first phase includes the development and construction of the cemetery infrastructure as follows:

- Entry Features (including Avenue of Flags)
- Roads and Parking
- Avenue of Flags
- Assembly Area (Flag Location)
- Burial Areas and Burial Sections
- Committal Service Shelter
- Columbarium and In-Ground Cremain Burials
- Memorial Walk
- Administration Building
- Public Information Center (PIC)
- Public Restrooms
- Maintenance Building
- Service Yard
- Irrigation System
- Utility Distribution System
- Carillon Tower

In subsequent phases cemeteries should look at burial needs for 10 years. Subsequent phases will include the build out of additional burial sections and continuation of the columbarium, as required. The additional phases will require the extension of roadways to access the planned burial sections. Initially, cemeteries are specifically designed with loop roads to easily accommodate additional phases. Planning for the second phase should start approximately six years after the cemetery opens.

BURIAL & MEMORIALS

State Cemetery Grants Program/Grant Information Kit

[Applicant Eligibility](#) [Program History and Background](#) [Scope of the Program](#) [Availability of Funds](#) [Application Guidelines](#) [Application Content](#) [Selection Criteria](#) [Review Process](#)

Applicant Eligibility

1. State governments are eligible to receive grants to **establish, expand or improve** state veterans cemeteries. The term "state" means each of the several states, territories and possessions of the United States, including Guam, American Samoa, the Virgin Islands and the Commonwealth of the Northern Mariana Islands. The District of Columbia and the Commonwealth of Puerto Rico are also eligible to receive grants.
2. Counties, cities and other state subdivisions, including multi agency organizations are not eligible for grants. Native American tribal governments and entities are not eligible to receive grants. Private organizations are not eligible to receive grants.
3. **Applicants must own the land** on which the cemetery is to be established. The state is responsible for the provision of land. Land may be purchased, transferred from another agency or donated.
4. Eligible applicants must provide assurance that they possess legislative authority and adequate appropriations to construct the project to be built with grant assistance.
5. Cemeteries must be operated solely for the interment of service members who die on active duty, veterans (as defined in Title 38, U.S. Code §101.(2)), and their spouses and minor children. States may impose residency requirements for eligibility but are encouraged not to.
6. Grants may only be awarded to establish, expand or improve state-owned veterans cemeteries. Grants may not be awarded for maintenance or repairs.

7. New cemeteries must be capable of providing at least 20 years of service.

Program History and Background

1. The federal government's system of national cemeteries was first established during the Civil War. The Army operated most of the cemeteries until 1973 when they were transferred to the U.S. Department of Veterans Affairs (VA). Arlington National Cemetery is still operated by the Department of the Army. The National Park Service operates several historical national cemeteries such as Gettysburg and Vicksburg. An independent agency, the American Battle Monuments Commission, maintains cemeteries overseas for the dead of World War I and World War II. States have operated veterans cemeteries since the War with Mexico.
2. The VA State Cemetery Grants Program was established in 1978 to complement VA's network of national cemeteries. Funds were first appropriated for the program in 1980. As originally authorized, VA provided 50 percent of the cost and states provided 50 percent. The value of the state land dedicated to the cemetery comprised up to half of the state's share.
3. The program assists states in providing gravesites in those areas where the National Cemetery Administration (NCA) cannot fully satisfy veterans' burial needs.
4. 4. Public Law 105-368, which went into effect in 1999, authorized VA to provide up to 100 percent of the development cost for an approved project. VA can now provide for operating equipment for establishment of new cemeteries. VA does not provide for acquisition of land.
5. The administration, operation and maintenance of a VA-supported state cemetery are solely the responsibility of the state.
6. VA is authorized to pay a "plot allowance" of \$300 to a state for expenses incurred in the burial of an eligible veteran without charge.
7. Federal statutes authorizing the program are codified at 38 U.S.C. § 2408. Regulations are at 38 C.F.R. Part 39.
8. The State Cemetery Grants Program is described in the *Catalog of Federal Domestic Assistance* under "State Cemetery Grants" at 64.203.

Scope of the Program

1. The State Cemetery Grants Program is intended to complement the service provided by the VA's system of veterans cemeteries operated by the National Cemetery Administration.
2. VA seeks to provide the service of a veterans cemetery within 75 miles of 90 percent of the veterans across the country. Data shows that a 75-mile radius defines the effective "service area" of a veterans cemetery.
3. Since 1973, VA has opened many new cemeteries, primarily in large metropolitan areas where veterans previously had no effective service. VA also works to expand existing national cemeteries to maintain current service. VA has more than doubled the acreage available in federal veterans cemeteries since 1973 and the burial rate at these cemeteries has also increased by more than 100 percent.
4. Smaller cities and rural areas located beyond the 75-mile service areas of these existing national cemeteries are ideal locations for state veterans cemeteries.

Availability of Funds

1. Federal funds are appropriated each year for the State Cemetery Grants Program. VA requested \$32 million in funding for FY 2004 (October 1, 2003 through September 30, 2004).
2. Appropriated funds are available until expended.
3. If a state that has received a grant under this program ceases to operate the cemetery as a veterans cemetery, the federal government is entitled to recover the total of all grants made under this program to that state..
4. Funds must be expended in accordance with applicable guidelines, including Office of Management and Budget (OMB) Circular A-87, "Cost Principles for State, Local and Indian Tribal Governments."
5. All grant costs must be "necessary, reasonable" and allocable to the project for which funds have been requested.
6. When all requirements for Federal funding have been met, VA will award grants providing sufficient funds are available.
7. If sufficient funds are not available, VA will award funds according to the priority established (see "Selection Criteria").

Application Guidelines

1. A state seeking grant funding for a veterans cemetery project must apply to the U.S. Department of Veterans Affairs in accordance with 38 CFR (Code of Federal Regulations) Part 39. The applicant must also conform with the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, 38 CFR Part 43, known as the "Common Grants Management Rule."
2. The applicant must have clear legislative authority from the state to apply for the grant.
3. The applicant must have the funds necessary to begin design and planning work. Federal funds are awarded on the basis of the bids received for construction. **State funds are needed to prepare plans and specifications prior to bidding.** Once the successful bidder has been determined and VA has awarded the grant, the state may be reimbursed for allowable costs already incurred.
4. The applicant must provide written assurance that any cemetery established, expanded, or improved through a grant will be maintained and operated in accordance with the operational standards and measures of the National Cemetery Administration.
5. VA provides **no monetary assistance to operate state veterans cemeteries.** States must be aware of the commitment to operate the cemetery.
6. VA must receive applications by July 1 for projects to be funded in the next Federal fiscal year (October 1 through September 30).
7. Applications must be reviewed by the State "Single Point of Contact" under the Executive Order 12372 process.
8. Applications must be signed and dated by the authorized state representative, normally the director of

the state veterans affairs agency.

9. Cemeteries established under the grant program must conform to VA-prescribed standards and guidelines for site selection, planning and construction.

Application Content

1. Standard forms approved by the U.S. Office of Management and Budget (OMB) must be used to apply for grants. All these forms are provided in the "State Cemetery Grants Program Guide, PG 40-1." They are also available on the OMB Grants Management website.
 - o The basic application form is SF (Standard Form) 424, titled "Application for Federal Assistance," and known as the "face sheet."
 - o The application must also include SF 424C, "Budget Information—Construction Programs."
 - o The applicant must also submit SF 424D, "Assurances—Construction Programs."
 - o The "Certificate of Compliance" with Federal drug-free workplace and debarment and suspension requirements is required.
 - o In addition, the applicant must submit the "Certification for Contracts, Grants, Loan and Cooperative Agreements," which certifies that the applicant will not use grant funds for lobbying. If grant funds are to be used for lobbying, they must be disclosed on the "Disclosure" form.

The applicant must submit written assurance that it possesses authority to establish and operate a state veterans cemetery and that it will maintain the cemetery in accordance with VA standards.

2. For all projects expected to cost \$100,000 or more, the applicant must submit a pre-application. The pre-application is intended to:
 - o Establish communication between the grantor agency (VA) and the applicant;
 - o Determine the applicant's eligibility;
 - o Determine how well the proposed project can compete with applications from others;
 - o Discourage proposals that have little or no chance of being funded.
3. Pre-applications must include the following:
 - o The location of the cemetery. A specific site may be designated during the review phase of the application, but the pre-application must designate the area to be served and the preferred location of the cemetery;
 - o A design concept that describes the primary features to be included in the project and the number of gravesites to be provided. Standard features include items such as the entrance gate, administration building, committal service facility, flag plaza and assembly area;
 - o A needs assessment that explains the need for the project to establish, expand or improve the veterans cemetery. This should be concise and quantitative to the degree possible.

Selection Criteria

1. Preapplications received by July 1, will be prioritized for funding in the following fiscal year.
2. Only preapplications which have met the requirements noted in the "Application Guidelines" and the "Application Content" sections will be prioritized. That is, applications must be properly completed on the appropriate forms. They must include the proper attachments and the applicant must have clear authority and adequate funding to begin the design process.
3. Preapplications meeting these basic requirements will be prioritized according to published criteria in the Program Guide, PG 40-1.
4. VA will rank the preapplications and announce priorities by August 15. VA will rank applications according to priority and the date on which the application was received.
5. Prioritization follows these rules:
 - o PRIORITY I - Projects needed to avoid disruption in burial service that would otherwise occur at existing veterans' cemeteries within 4 years of the date of the preapplication. Such projects would include phased expansion projects as well as improvement projects that are needed to continue interment operations.
 - o PRIORITY II - Projects for the establishment of new veterans' cemeteries.
 - o PRIORITY III - Planned phased developments prior to need.
 - o PRIORITY IV - Other improvement projects.

Within priority groups 1, 2 and 3, highest priority will be given to projects in geographical locations that would provide **service to the largest number** of unserved veterans as determined by VA. Within priority group 4, projects will be ranked in order based upon VA's determination of the relative importance and necessity to operate.

Review Process

1. In addition to the required forms, assurances, certifications and attachments, all projects must comply with the National Environmental Policy Act and the National Historic Preservation Act. In many cases, especially with new cemeteries, the applicant will be required to perform an Environmental Assessment (EA) to determine whether a more in-depth Environmental Impact Study (EIS) is required. The EA should progress toward a Finding of No Significant Impact (FONSI). The FONSI should be made available for public review and comment.
2. The National Historic Preservation Act requires VA to determine whether proposed projects will have any impact on historic or cultural resources. When a new cemetery is being established, it is normally necessary to perform an investigation of the site to determine whether any historic or cultural resources would be affected and, if so, what mitigation or protection may be afforded. The applicant then confers with the State Historic Preservation Office (SHPO), which renders an opinion of the project's impact. Depending on the opinion of the SHPO, VA may be able to approve the project.
3. Most states hire architect/engineer (A/E) firms to design major projects. In the case of major projects, including all establishment grants, VA requires a "pre-design conference" in which VA, state and A/E representatives meet to familiarize themselves with the site and VA design requirements.
4. VA requires a "master plan" for establishment of new cemeteries. The master plan should analyze the

major factors affecting design of the cemetery—including climate, soil, hydrology, site constraints, views, and activity level. The plan should analyze alternative designs and address the ultimate “build-out” of the site and planned phases of development.

5. The design process then proceeds to “design development” or partial plans, sometimes called 40 percent or 50 percent drawings. Again VA must review these submissions and approve them.
6. The final design submission comprises the construction drawings and specifications. VA is required to approve these documents before the state advertises for bids. Cemetery plans must be complete, comprehensive and professional.
7. Based on construction bids, the state submits a new form 424 and 424C that reflects the actual construction amount rather than the estimated amount provided in the preapplication. Along with the forms, the state must submit a tabulation of bids and designate the contractor to whom the contract will be awarded. VA reviews these materials and then awards the grant. Once the state receives the Notification of Grant Award, they may request reimbursement for costs they have already incurred such as design costs.

64.203 State Cemetery Grants

FEDERAL AGENCY:

NATIONAL CEMETERY ADMINISTRATION, DEPARTMENT OF VETERANS AFFAIRS

AUTHORIZATION:

Veterans Housing Benefits Act of 1978, Section 202, Public Laws 95-476, 98-223, 100-687, 103-446, and 105-368; 38 U.S.C. 2408.

OBJECTIVES:

To assist States in the establishment, expansion, and improvement of veterans' cemeteries.

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

Monetary assistance is provided under this program to construct, expand, and improve State veterans' cemeteries. Cemeteries must be State-owned and operated solely for the interment of eligible veterans and their dependents and/or spouses. Construction cost means the amount found necessary to convert a tract of land to an operational cemetery.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Any State may apply.

Beneficiary Eligibility:

The cemetery must be used solely for the interment of veterans, their wives, husbands, surviving spouses, minor children, and unmarried adult children who were physically or mentally disabled and incapable of self support: Section 1.620 of 38 CFR.

Credentials/Documentation:

Costs will be determined in accordance with revised OMB Circular No. A-87 for State Governments, dated May 4, 1995, and further amended August 29, 1997.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Consultation or assistance is available from VA Central Office personnel (State Cemetery Grants Service) to aid in the preparation of an application. The standard application forms as furnished by VA and required by OMB Circular No. A-102 must be used for this program (Standard Form 424, "Application for Federal Assistance," with attachments). An environmental assessment is required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if

the State has selected the program for review.

Application Procedure:

Submit Standard Form 424, "Application for Federal Assistance for Construction Programs," with attachments, to the Director, State Cemetery Grants Service (401C), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

Formal notification of the award to the State is made by the Under Secretary for Memorial Affairs, National Cemetery Administration.

Deadlines:

A deadline of July 1 is established for the filing of applications in the year prior to the fiscal year in which funding is requested.

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

No application shall be disapproved until the applicant has been afforded an opportunity for a hearing.

Renewals:

Not applicable.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The amount of the Federal contribution to a State is up to 100 percent of the cost of establishing, improving or expanding State Veterans Cemeteries. In the case of establishment grants, the cost of operating equipment may also be included. Land value is not included as an allowable cost for reimbursement under the grant.

Length and Time Phasing of Assistance:

Funds are provided by electronic transfer of funds and must be used within 3 years.

POST ASSISTANCE REQUIREMENTS:

Reports:

Outlay Report and Request for Reimbursement for Construction Programs, and Performance Reports are accomplished in accord with 38 CFR Part 43.

Audits:

In accordance with the provisions of OMB Circular No. A- 133 (Revised, June 24, 1997), "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$300,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$300,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Financial records, supporting documents, statistical records and all other records pertinent to a grant shall be retained for a period of 3 years. If any claim or audit is started before the expiration of the 3 year period, the records shall be retained until all litigation, claims or audit findings involving the records

have been resolved.

FINANCIAL INFORMATION:

Account Identification:

36-0183-0-1-705.

Obligations:

(Grants) FY 04 \$33,621,693; FY 05 est \$36,109,000; and FY 06 est \$32,000,000.

Range and Average of Financial Assistance:

\$4,305 to \$10,965,607. Average: \$1,533,992.

PROGRAM ACCOMPLISHMENTS:

For fiscal year 2005 the State Cemetery Grants Service has received requests totaling \$126,070,995. The State Cemetery Grants Service estimates approximately 5 to 10 applications to establish, expand, or improve State veterans cemeteries in fiscal years 2005 and 2006.

REGULATIONS, GUIDELINES, AND LITERATURE:

VA Regulations 38 CFR Parts 39 and 43, State Cemetery Grant Program; State Cemetery Grants Program Guide (PG 40-1); and, "Federal Assistance for Establishment, Expansion and Improvement of State Veterans' Cemeteries (State Cemetery Grants Program)" (VA Pamphlet 40-96).

INFORMATION CONTACTS:

Regional or Local Office:

None.

Headquarters Office:

Director, State Cemetery Grants Service, (41E), National Cemetery Administration, Department of Veterans Affairs, 810 Vermont Avenue, N.W., Washington, DC 20420. Contact: Mr. William Jayne. Telephone: (202) 565-6152 or 565-6801. Fax: (202) 565-6141.

Web Site Address:

<http://www.va.gov>.

RELATED PROGRAMS:

64.101, Burial Expenses Allowance for Veterans; 64.201, National Cemeteries; 64.202, Procurement of Headstones and Markers and/or Presidential Memorial Certificates.

EXAMPLES OF FUNDED PROJECTS:

1) Construction necessary to convert a tract of land to an operational cemetery; 2) construction of a committal facility, administration/maintenance building, and improve storm drainage system; and 3) the expansion of cemetery acreage or building a committal shelter.

CRITERIA FOR SELECTING PROPOSALS:

Applications are prioritized and ranked with other projects in the order received. The priority system consists of six groups or categories. Examples: The extent to which States have adequate funds to match the Federal grant; and the extent to which a project involves additional gravesites necessary to keep the cemetery open. The availability of the Federal and nonfederal share of the project is a primary consideration.

What Is A VA Burial Allowance ?

A VA burial allowance is a partial reimbursement of an eligible veteran's burial and funeral costs. When the cause of death is not service-related, the reimbursement is generally described as two payments: (1) a burial and funeral expense allowance, and (2) a plot interment allowance.

Who Is Eligible ?

You may be eligible for a VA burial allowance if:

- ❖ you paid for a veteran's burial or funeral **AND**
- ❖ you have not been reimbursed by another government agency or some other source, such as the deceased veteran's employer **AND**
- ❖ the veteran was discharged under conditions other than dishonorable.

In addition, at least one of the following conditions must be met:

- ❖ the veteran died because of a service-related disability **OR**
- ❖ the veteran was receiving VA pension or compensation at the time of death **OR**
- ❖ the veteran was entitled to receive VA pension or compensation but decided not to reduce his/her military retirement or disability pay **OR**
- ❖ the veteran died in a VA hospital or while in a nursing home under VA contract, or while in an approved state nursing home.

How Much Does VA Pay ?

Service-Related Death. VA will pay up to \$1,500 toward burial expenses for deaths prior to September 10, 2001. For deaths on or after September 11, 2001, VA will pay \$2,000. If the veteran is buried in a VA national cemetery, some or all of the cost of moving the deceased may be reimbursed.

Nonservice-Related Death. VA will pay up to \$300 toward burial and funeral expenses, and a \$150 plot interment allowance for deaths prior to December 1, 2001. The plot-interment allowance is \$300 for deaths on or after December 1, 2001. If the death happened while the veteran was in a VA hospital or under contracted nursing home care, some or all of the costs for transporting the deceased's remains may be reimbursed.

How Can You Apply ?

You can apply by filling out VA Form 21-530, Application for Burial Allowance. You should attach proof of the veteran's military service (DD 214), a death certificate, and copies of funeral and burial bills you have paid.

The Honorable Bob Roses, Chair
Military and Veterans' Affairs Committee
Alaska Capitol, Room 416
Juneau, AK 99801-1182

RE: HB 45 (Guttenberg and Doll)--Support

Dear Chair Roses:

On behalf of the members of AARP in Alaska, we urge you and your colleagues on the House Military and Veterans' Affairs Committee to support HB 45, authored by Representatives David Guttenberg and Andrea Doll and co-sponsored by Representative Bob Lynn.

HB 45 would establish a new veterans' cemetery in the Interior. As you know, the closest military cemetery is in Anchorage yet the Fairbanks area alone has over 11,000 veterans, many of whom are AARP members.

Burial in a veterans' cemetery is one of the last honors we can offer our fellow citizens who have served in the Armed Forces. We think it is a well-deserved tribute to these men and women who served our country and a veterans' cemetery in the Interior simply makes sense. It is a proper thank you to the veterans and their families.

Undoubtedly there may be some costs associated with a new cemetery. Our veterans didn't weigh the costs when they joined the armed services. Surely we can bear the costs of this final thank-you to them.

AARP recommends an "AYE" vote on HB 45.

Should you have any questions about our position, please feel free to contact me (586-3637) or Patrick Luby, AARP Advocacy Director (907-762-3314).

Thank you for your consideration.

Sincerely,

Marie Darlin

Disabled American Veterans
Department of Alaska
Resolution #2007-01

SUPPORT FOR A POLICY FOR A STATE VETERANS CEMETARY

WHEREAS, Alaskan veterans deserve a cemetery that is located in the Interior that honors their service; and

WHEREAS, according to the Department of Veterans Affairs National Cemetery Administration, Alaska has more residents in the military on a per-capita basis than any other state. The Fairbanks North Star Borough has approximately 11,164 veterans; Forty percent of families in the Fairbanks area have at least one veteran in their household and sixteen percent have at least one woman in the household who is a veteran; and

WHEREAS, A State Veterans' Cemetery in the Interior would better serve needs of the veterans and their families and provide a place that is centrally located, honorable and well maintained; and

WHEREAS, The nearest officially designated military cemetery is located 350 miles North of Anchorage at Ft. Richardson; and

WHEREAS, The Department of Veterans Affairs National Cemetery Administrations' goal is to provide eligible veterans reasonable access to Department of Veterans Affairs (VA) burial options; and

WHEREAS, The VA provides a burial and funeral expense allowance of \$300 and a plot-interment allowance of \$300; and

WHEREAS, The Department of Veterans Affairs National Cemetery Administration follows a six-step process to build a new state veteran cemetery; site selection; environmental statement; land acquisition; master planning and design development; construction document preparation; and construction award and completion; and

WHEREAS, The Alaska Department of Military and Veterans' Affairs can be awarded up to 100% of the development costs from the Department of Veterans Affairs National Cemetery Administration for an approved project; and

WHEREAS, To date, the Veterans Administration has awarded 137 grants totaling more than \$200 million to establish, expand or improve sixty-two veterans cemeteries in thirty-two states, plus Guam. Fifty-six cemeteries in twenty-one states and Guam are now operational; and

WHEREAS, According to the Division of Motor Vehicles from FY03 to FY05, \$45,040, has been generated from both the Federal and Commemorative Veterans license plate programs. The monies collected from the state license plate program currently goes into the general fund; and

WHEREAS, The construction of a state veterans cemetery in the Interior would be a great benefit to the friends and families of veterans in our community and would provide a place in the Interior for soldiers to be laid with full military funeral honors, pallbearers, rifle team, flag folding and flag presentation; therefore, be it

RESOLVED, By the Disabled American Veterans, Department of Alaska, That support be given in the creation of a veterans state cemetery, as proposed in HB45, open to all veterans in the state and recognizes the veterans sacrifices while serving our cemetery.

January 30, 2007

Representative David Guttenberg
State Capital
Room 418
Juneau, AK. 99801

Reference: Veterans Cemetery in Fairbanks

Dear Representative Guttenberg:

As the 2007 Legislative session begins, Veterans organizations are again requesting Legislative support for the establishment of a Veterans Cemetery in Fairbanks. You will recall that the American Legion, Department of Alaska, at their 2005 State Convention in Kodiak voted unanimously in support of that cemetery. Most noteworthy is that the resolution calling for a new veteran's cemetery came from our Anchorage American Legion comrades who recognized the only existing veteran's cemetery in Alaska is located at Fort Richardson.

We have met with Federal Veterans Affairs officials, State Veterans Affairs personnel, American Legion Posts, Veterans of Foreign Wars, Alaska Native Veterans, members of the Order of The Purple Heart and other veterans organizations who all strongly support your bill to establish a second veterans cemetery to serve the desperate need for a final resting ground for those many who have served our country in times of war and peace.

The need for a new veteran's cemetery is urgent as the few veterans' sites available will soon be filled with no provision existing for veteran's grave any where in the interior.

Please share this letter with other members of the Legislature.

For God and Country,

Darrell Peterson, Commander

FAIRBANKS NORTH STAR BOROUGH

RESOLUTION NO. 2005 - 15

A RESOLUTION SUPPORTING THE CREATION OF A STATE VETERANS' CEMETERY IN THE INTERIOR THROUGH LEGISLATION THAT ESTABLISHES AN ALASKAN VETERANS CEMETERY WITH FUNDS FROM THE U.S. DEPARTMENT OF VETERANS AFFAIRS (VA) STATE CEMETERY GRANTS PROGRAM.

WHEREAS, Alaskan veterans deserve a cemetery that is located in the Interior that honors their service; and

WHEREAS, according to the Department of Veterans Affairs National Cemetery Administration, Alaska has more residents in the military on a per-capita basis than any other state. There are approximately 11,164 veterans living in the Fairbanks North Star Borough; and

WHEREAS, the nearest officially designated military cemetery is located in Anchorage at Fort Richardson Army base; and

WHEREAS, the VA National Cemetery Administration follows a 6-step process to build a new state veterans cemetery: site selection; environmental assessment; land acquisition; master planning and design development; construction documents preparation; and construction award and completion; and

WHEREAS, the Alaska Department of Military and Veterans' Affairs can be awarded up to 100 percent of the development costs from the VA State Cemetery Grants Program for an approved project and the VA has awarded 137 grants to establish and improve veterans cemeteries around the country; and

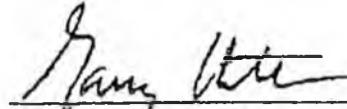

WHEREAS, a State Veterans' Cemetery in the Interior would better serve needs of the veterans and their families, and provide a place that is centrally located, honorable, and would provide a place in the Interior for soldiers to be laid with full military funeral honors, pallbearers, rifle team, flag folding, and flag presentation; and

NOW THEREFORE BE IT RESOLVED, that the Fairbanks North Star Borough Assembly supports the creation of a State Veterans' Cemetery in the Interior and recognizes veterans' sacrifices while serving our country.

46 BE IT FURTHER RESOLVED, that copies of this resolution shall be
47 forwarded to The Honorable Governor Frank Murkowski, the Alaska Interior Delegation,
48 members of the House Military and Veterans Affairs Committee, Major General Craig E.
49 Campbell Adjutant General/Commissioner, Military and Veterans Affairs, The Honorable
50 Senator Ted Stevens, the Honorable Senator Lisa Murkowski, the Honorable
51 Congressman Don Young.

The Honorable David Guttenberg
House of Representatives
State Capitol, Room 418
Juneau, AK 99801-1182

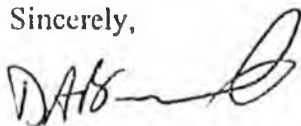

Dear Representative Guttenberg:

I received your request for information concerning the revenues associated with the Veteran License Plate programs. The following schedule shows revenues collected for FY03 through FY06, and for the first half of FY07.

	Standard Veteran License Plates	Commemorative Veteran License Plates - Original	Commemorative Veteran License Plates - Renewal
FY03	\$ 18,330	\$ 0	\$ 0
FY04	18,390	200	0
FY05	22,510	1,800	70
FY06	21,160	1,700	0
FY07 (Jul-Dec)	10,755	970	0

I hope you find this information useful. If I may be of further assistance on this, or any other DMV matter, please don't hesitate to contact me directly.

Sincerely,

Duane Bannock

District 15

House Bill 47

An Act creating the line-of-duty death survivor education benefits fund and relating to special fire fighter and emergency medical service provider license plates.

Alaska is fortunate to have such dedicated citizens willing to face all manner of danger to protect the lives and property of their neighbors. Persons involved in fire and rescue show the spirit and grit that deserves our recognition and support.

Through this bill we aim to honor those who have committed themselves to the safety and preservation of the communities where they live. This bill creates a series of three license plates to be sold by the DMV. The revenue from which will be used to fund a line of duty death benefit.

Subject: HB47

Representative Neumann,

I am writing in full support of House Bill 47, creating a license plate for firefighters and medics and a trust fund for the families of our fallen brothers and sisters. I am a 12 year member of a volunteer fire department here in Ester. I am the assistant chief and as such, I am sending this message not only from myself but the 30 volunteer firefighters and medics also.

Our department suffered a line of duty death in 1992 when Christine Pennington was killed while responding to a heart attack call. Her memory is with us each day as we respond to many emergencies. After her death, her family established a scholarship fund that has helped many young firemen and women train and educate themselves at the University of Alaska Fairbanks. I feel a trust fund for families of those whom die in the line of duty is not only an honorable thing to do, it is also responsible. A volunteer puts his life on the line each day to help his or her community, for no pay. If the members dies in the line of duty, the family not only loses a father or mother, but a breadwinner for the family. Education funding for college becomes secondary to just making it through the day. This fund, though hopefully never utilized, will provide a much needed benefit to the families of these brave men and women.

I also like the idea of identifying my folks while responding or on scene. To many time the state troopers assume our personal vehicles are part of the accident scene, even going as far as calling a tow truck once!! With proper ID, we can not only keep our members safe on scene, authorities on scene will know which cars belong to the fire department members.

I am copying my representative and encouraging David to support your bill.

I will be in Juneau next week for the Alaska Fire Chiefs Conference. I have ask the interior contingent of chiefs to contact their representatives to support your bill. If I get the opportunity, I would like to stop by your office to discuss this bill and other fire department related matters.

Sincerely,
Cameron Wohlford
EVFD Assistant Chief

Dear Rep Lynn

I just recently learned about the status of HB 47 (license plate legislation). As an Alaskan firefighter, I think that this is an excellent bill, and hope you continue to support it, and pass it through the committee as written. Thank you for being involved with this bill!

Re: Support for HB 47

Dear Representative Neuman,

I am writing to indicate my support for House Bill 47 that you recently introduced to the current legislative session. It is gratifying to have a representative in the legislature that values, and is willing to recognize, the efforts of the many volunteer firefighters and emergency medical service providers that respond to aid their fellow citizens around Alaska. The creation of a specialized license plate, and extension of educational benefits to survivors of responders who die in the line of duty is a very worthy initiative.

Your bill may also ultimately assist in first responder operations and make an important contribution to public safety by helping in on-scene identification of responders arriving in their personally owned vehicles (POVs). This vehicle identification could aid responders in bypassing the traffic snarls that inevitably result from motor vehicle accidents and other roadside emergencies. It could also assist in scene safety by allowing the easy identification of responders POVs from among the unauthorized vehicles too often found parked in the vicinity that may belong to people such as acquaintances of the victims, media representatives, or curious onlookers.

It is my opinion that the classification that your bill adds to AS 28.10.181 is one of the most important special purpose vehicle designations allowed under that statute. Please advise me if there is anything else I can do to assist you in seeing that this bill becomes law.

Sincerely,

Mark Simpson
President & Firefighter, Ester Volunteer Fire Department, Inc.

TO: Representative Bob Lynn
Chair of the House State Affairs Committee

FROM: Pam Finley
Revisor of Statutes

Enclosed is the CS you requested. Unfortunately, the addition of a reference to AS 43.55.025 on page 2, lines 4 and 6, does not fit well. While AS 43.55.023 has a provision for a cash refund, AS 43.55.025 does not. AS 43.55.025(g) allows for the sale of certificates issued under that section, but does not provide for a cash refund. Therefore, the references to cash refunds on page 2, lines 6, 11, and 13 do not make sense when applied to certificates issued under AS 43.55.025.

ANALYSIS: (Attach a separate page if necessary)

*This bill would authorize the Alaska Retirement Management Board (ARM) to purchase transferable tax credit certificates issued under AS 43.55.023 for 92 percent of the face value of the certificates. The ARM board would then sell the certificates to the Department of Revenue for the full face value of the certificates, unless the commissioner of the Department of Revenue determines that economic conditions are not acceptable for the state to purchase and pay for the certificates. The proceeds of these sales would be used by the ARM board to defray the unfunded pension liabilities for which the board is responsible.

Alaska Statutes 43.55 currently offers three clearly identifiable means of obtaining and selling tax credits for petroleum exploration activity and other capital costs relating to petroleum production.

FISCAL NOTE

STATE OF ALASKA
2007 LEGISLATIVE SESSION

BILL NO. HB 48

ANALYSIS CONTINUATION

AS 43.55.025, known as the Exploration Incentive Credit, offers tax credits for either 20% or 40% of exploration expenditures incurred before July 1, 2016. The certificates issued under this program can be carried forward or transferred. The bill under consideration (HB 48) does not authorize the purchase of these certificates.

Tax credits generated under AS 43.55.023, through excess capital expenditures or net losses, can also be carried forward or transferred. Current statutes allow these credit certificates to be sold to (1) other companies (AS 43.55.023(e)), or (2) to the state Department of Revenue (AS 43.55.023(f)).

Although there are qualifying criteria for the state's purchase of credit certificates at AS 43.55.023(f), there are no restrictions on the amount to be paid for the certificates (other than the maximum refund per taxpayer of \$25 million per year), and it is assumed that the state would pay full face value for the certificates. There are also no restrictions on the amount other companies can pay for the certificates, although it is assumed they would pay less than face value and current statutes limit the amount transferred certificates can reduce a taxpayer's liability to 20 percent per year.

Given the three options and their qualifying criteria, it is difficult to assess which program certificate holders will favor. Were the expenditures to qualify under the EIC 40% credit program, then it is likely that would be the first choice. Alternatively, should the expenditures qualify only for the 20% credit, then it is likely that the certificates would be transferred to the highest bidder. The highest bidder could be another company, the state Department of Revenue, or, under this bill, the ARM board.

Exploration Tax Credits

43.55.025

- Extends exploration tax credits six years to 2016
- 20% credit for exploration wells more than 3 miles from an existing well (C.I. deemed separate target)
- 20% for wells more than 25 miles from existing unit (10 miles for Cook Inlet)
- 40% credit if both conditions are met
- 40% credit for seismic operations not associated with a well

OIL AND GAS PRODUCTION TAXES

AS 43.56

Description

Alaska imposes the production tax on all oil and gas produced in Alaska. The Oil and Gas Production Tax and the Conservation Surcharge on Oil are severance taxes.

Rate

The rate of taxation for oil varies depending on the age of the field and the economic limit factor (ELF) which varies depending on field size and well productivity.

The severance tax rate on oil is 12.25% of production value as determined at the point of production, for the first five (5) years of production and 15% thereafter. There is a minimum tax of \$0.80/bbl.

Both the percent of value and the cents per barrel tax rates are subject to the ELF. The effective tax rate is the appropriate tax rate multiplied by the ELF.

The ELF formula results in lower tax rates for smaller, low productive fields and higher tax rates for larger highly productive fields. The formula is difficult to characterize in a simple way because it is based on a fraction that is calculated using fractional exponents and is unique for every combination of field size and well productivity. A field that produces 300 bbl/day per well or less has an ELF of zero i.e. no severance taxes are assessed.

On January 12, 2005 the Tax Division issued a decision to aggregate certain Prudhoe Bay area oil fields for purposes of calculating the economic limit factor (ELF). The Prudhoe Bay Initial participating area, the Aurora, the Borealis, the Midnight Sun, the Orion, the Polaris, and the Point McIntyre participating areas are the fields that were aggregated under this decision. That decision was effective for oil produced on or after February 12, 2005. The decision has been appealed by the taxpayers.

The table below reflects the aggregated Prudhoe Bay area ELF. In Fiscal Year 2005, four of Alaska's North Slope 24 producing fields had an ELF higher than 0.1:

Field	ELF	FY05 Tax Rate
Prudhoe	843033	12.6455%
North Star	834275	10.2199%
Alpine	829133	10.1569%
Kuparuk	050742	00.7611%
Tarn	009742	00.1461%

The 3 largest fields account for 94% of all production tax revenues.

The severance tax rate on gas is 10% of production value. There is a minimum tax of \$0.064/mcf. The gas severance tax rate is also subject to an ELF based on daily gas production per well.

Returns

Returns are filed monthly and due with payment of taxes on or before the 20th day of the month following the month of production.

Exemptions

The tax on oil is levied on all production except for public (government) royalty production. The tax on gas is levied on all production except for public (government) royalty production and gas used in production operations including enhanced recovery, or flared for safety purposes.

Credits

Education - Taxpayers making contributions to accredited Alaska universities or colleges for educational purposes may take a tax credit for 50% of the first \$100,000, 100% of the next \$100,000 of contributions with a maximum credit of \$150,000 per tax year.

Oil and Gas Exploration Incentive - There are two exploration credits available to the producers. The first "Oil and Gas Exploration Incentive" is approved by the commissioner of Department of Natural Resources, and the second "Oil and Gas Exploration Tax Credit" is approved by the Department of Revenue. A producer may claim either one, but not both.

Taxpayers may take a credit for up to 50% on state land (or 25% on non state lands) of oil and gas exploration costs approved by the commissioner of Natural Resources. An approved oil and gas exploration incentive credit may not exceed \$5 million per project and is limited to \$30 million per taxpayer. Taxpayers may apply the credit against 100% of oil and gas production taxes.

Oil and Gas Exploration Tax Credit - Explorers may take a credit against their production taxes of (1) 20% of allowable expenses for exploration wells drilled more than 3 miles from a preexisting well, (2) 20% of allowable expenses for exploration wells drilled more than 25 miles from the boundary of a unit or (3) 40% of allowable expenses for certain seismic work and for exploration wells that meet both condition (1) and (2). Once approved, the credit or any remaining portion of it can be either carried forward month to month until fully applied, or sold to another taxpayer.
