

Alaska State Legislature Legislative Affairs Agency Executive Director Subject Files 1953-1977 (10.5 cubic feet)

The above files are being sent to the Alaska State Archives.

Following are photocopies of the first page of each grouping in each of these files. The copies were made so we may know generally what is in each file, and then people may go to the State Archives to see the files.

A numerical list of the files immediately follows this. The sequence of file numbers has some numbers missing because certain files and materials were removed: Legal Service attorneys checked the files and removed all confidential files and materials, and files related to the history of the administration of the legislature were returned to the Executive Director to retain with her other records.

The LAA Executive Director in the early years of statehood performed the bill drafting and research request functions now performed by the Division of Legal and Research Services.
