

HOUSE/SENATE FINANCE COMMITTEE MINUTES - 1967-1982 2773

CONFERENCE COMMITTEE REPORT

DATE: 5-9-80

Mr. President:

Mr. Speaker:

The Free Conference Committee which has had

CSHB 60 (appropriating for supplemental operating & capital
expenses of the state government & making transfers
between appropriations; eff. date)

SCSHB 60 (same title)

under consideration, recommends that

FCCS HB 60

be adopted.

Senate Members:

George Hohman, Chairman

Jalmari Kerttula

Glenn Hackney

House Members:

Senate Finance Committee

Russ Meekins, Chairman
House Finance Committee

FROM: J. F. Hogan, Director
Legislative Finance Division

SUBJECT: Partial Vetoes - HB 60

The question arises as to whether the Governor incorrectly vetoed two items in HB 60--namely, the change of purpose vetoes in Sections 215 and 232, attached. By the deletion of words and phrases the Governor has changed the purpose of the appropriation in Section 215 from that of a specific Borough study to an unspecified Borough study. In Section 232 he has deleted reference to air service for Atka and authorized any form of transportation service.

In the early 1970's the New Mexico legislature was plagued by a series of "creative" gubernatorial line item vetoes that had the effect of rewriting appropriations. When challenged, the New Mexico Supreme Court in essence established the rule that the Governor had authority to strike or reduce numbers and related language, but that he did not have the authority to rewrite language by the careful deletion of words and phrases (see attached decision, sec. (9,10)).

12 the Department of Transportation and Public Facilities, division of marine
13 transportation, for personal services for southeast vessel operations.

14 * Sec. 230. The sum of \$1,095,100 is appropriated from the general fund
15 to the Department of Transportation and Public Facilities, division of marine
16 transportation, for personal services for repair of the M/V Columbia and
17 overhaul of the M/V Taku.

18 * Sec. 231. The sum of \$625,100 is appropriated from the general fund to
19 the Department of Transportation and Public Facilities, division of marine
20 transportation, for contractual services for overhaul of the M/V Columbia and
21 the M/V Taku.

22 ~~Q~~ * Sec. 232. The sum of \$110,000 is appropriated from the general fund to
23 the Department of Transportation and Public Facilities for ~~payment to Alaska~~
24 ~~air Service for Adak to Atka service, during construction of the airport~~
25 ~~improvements.~~

26 * Sec. 233. The sum of \$202,900 is appropriated from the general fund and
27 \$71,400 is appropriated from the International Airport Revenue Fund to the
28 Department of Transportation and Public Facilities for payment of risk manage-
29 ment premiums.

sult reached, indicate the purpose or purposes for the inclusion of the terms "part or parts," "item or items" and "parts or items" in our Constitution were to extend or enlarge the partial veto power thereby conferred beyond the partial veto power conferred by the constitutions of other states wherein that power is limited to (1) items of appropriation, and (2) to general appropriation bills. However, the extension or enlargement of the partial veto power to cover (1) bills of general legislation, which contain incidental items of appropriation, as well as general appropriation bills, and (2) to "items or parts" thereof in addition to "items of appropriation," does not mean there are no limitations on the partial veto of bills appropriating money.

✓ [9, 10] The power of partial veto is the power to disapprove. This is a negative power, or a power to delete or destroy a part or item, and is not a positive power, or a power to alter, enlarge or increase the effect of the remaining parts or items. It is not the power to enact or create new legislation by selective deletions. *Bengzon v. Secretary of Justice*, 299 U.S. 410, 57 S.Ct. 252, 81 L.Ed. 312 (1937); *Fitzsimmons v. Leon*, 141 F.2d 886 (1st Cir. 1944); *State v. Holder*, 76 Miss. 158, 23 So. 643 (1898); *State ex rel. Cason v. Bond*, supra; *Veto Case*, 69 Mont. 325, 222 P. 428 (1924); *Fulmore v. Lane*, supra. Thus, a partial veto must be so exercised that it eliminates or destroys the whole of an item or part and does not distort the legislative intent, and in effect create legislation inconsistent with that enacted by the Legislature, by the careful striking of words, phrases, clauses or sentences.

We now turn our attention to the challenged vetoes. We shall consider them in the order in which they were presented and argued by the parties in their respective briefs.

[11] The Legislature unconditionally appropriated for the State Planning Office the sum of \$324,800 from the State's general fund and \$712,800 from Federal funds.

This appropriation of both State and Federal funds in the total amount of \$1,037,600 has not been questioned. It was followed by a contingent appropriation to this office of \$150,000, which was stated as follows:

"In addition to the above appropriation, there is appropriated the sum of \$150,000 from the general fund for the purpose of saving harmless the state planning office from loss of federal funds available for continuing the present operations of the office. This contingent appropriation shall be disbursed only upon certification in writing by the state planning officer, approved by the director of the department of finance and administration, that federal funds to continue the agency's operation are not available; provided, however, that no funds shall be disbursed from this appropriation which would allow an operating budget greater than \$1,037,600."

The language shown as stricken or lined out in this and in the hereinafter quoted portions of House Bill 300 are the portions purportedly vetoed by the Governor. He gave as his reasons for this particular veto:

"* * *. This language would have had the effect of negating the contingent appropriation made [in the first quoted sentence] in that no part of the contingent appropriation could be utilized if any federal funds continued to be available to the Planning Office. I do not believe that it was the intent of the legislature to so restrict this contingent appropriation."

It is plain to us that the Legislature placed a very explicitly worded contingency upon the disbursement of this appropriation and a very explicitly worded limiting or restrictive proviso, provision or condition upon the amount of funds from this appropriation which could be disbursed. We do not question the sincerity of the Governor's effort to evaluate the intent of the Legislature, and we do not purport to know upon what he based this evaluation.

MEMORANDUM

TO: Staff

FROM: J. H. Hogan, Director

SUBJECT: HB 60 Backup

The attached list of sections from the operating budget and categorically arranged items from the capital portion of HB 60 are those for which Budget and Management has requested additional information. In my office there exists one set of House and Senate project backup. Please take your list, research the projects in the backup file and call or provide a memo to the appropriate Budget and Management analyst, giving all the pertinent project information you can find in the backup file. Great care should be taken so that the information you provide does not become the alleged cause of a line item veto.

Both chairmen have stated that they do not want Budget and Management analysts leafing through the project backup, since much of the material is in the form of private correspondence from other members of the legislature and/or their constituents.

The information should be submitted to Budget and Management by 5:00 p.m., Tuesday, May 27.

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

May 30, 1980

The Honorable Clem Tillion
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Re: FCCS HB 60

Ch. 50, SLA 1980

The general distressed state of the national economy, attending skyrocketing inflation and interest rates, plus the particular circumstances prevailing in Alaska in the wake of oil pipeline completion and delay of the gas pipeline start-up, prompted this Administration to submit a supplemental appropriation request of unprecedented magnitude.

It was my intent to get underway a substantial capital improvement projects program early this year. Legislative response to this request was wild enthusiasm. At one time, I'm told, proposed inclusions totalled over \$800 million.

After determining the priority requirements to fund the 1981 operating budget of about \$1.2 billion; provide a "rainy day" fund of \$350 million; allow \$400 million in Permanent Fund Dividends and tax relief; deposit \$900 million in the Permanent Fund; pay off the State's debt under the Native Claims Settlement Act of some \$300 million and provide at least \$300 million for loan programs, it appeared that about \$520 million worth of capital improvements could be injected into the economy by way of House Bill 60. Accordingly, I indicated this to the Legislature along with criteria which I would use to trim HB 60 down to size, if necessary.

In fairness, many legislators worked hard to assure passage of my highest priority -- Permanent Fund legislation -- and to conform their capital improvement

May 30, 1980

requests to the criteria I set forth. Accordingly, while absolutely no commitments were made by myself to accommodate a total of \$520 million in supplemental capital improvements, I am today exercising my veto powers only to the degree necessary to trim them to this level. In the process, I am accommodating many items such as rifle ranges, swimming pools, municipal school facilities and other projects which I have vetoed from previous budgets.

Only the economic doldrums of the moment, the unanticipated "excess" revenues, the unprecedented degree of legislative cooperation and the presumption of tacit funding level "commitments" prompt me to accept many proposals which under other circumstances would be vetoed. It should be pointed out that the likelihood of all these circumstances coinciding in the future is remote beyond consideration. Those who delude themselves into thinking otherwise will be rudely shocked. HB 60 should in no way be considered the lead dining car of some new gravy train, but rather the caboose.

In that regard, I am pleased to have received a letter signed by the Co-chairmen of the Free Conference Committee on HB 60 acknowledging that funds in HB 60 for municipal projects will be considered "one-time-only" monies and that there would be no additional money in the future to fund project shortfalls.

That commitment, plus recently passed legislation which requires municipalities to assume all future costs of operation and maintenance before they receive funding for a facility, reduces my concern that these projects will incur downstream collective costs to the State. Be assured that, at least during the next two years, failure to abide by these commitments will invite a veto.

When first submitting my supplemental request I urged the Legislature to act expeditiously. I wanted projects to be underway this year. Unfortunately, because passage was so long delayed, it is likely many projects will not be undertaken this construction season. Others which might have been completed in one season will now not be done until next year. In anticipation

May 30, 1980

of such delay, I directed State agencies to initiate preliminary work some weeks ago on those HB 60 projects which I intended to approve. In view of the above consideration, HB 60 actually should be considered a two -- or even three -- year capital projects appropriation. Without question there are several items in HB 60 which under more normal circumstances would be vetoed. Those programs which I did cut or veto were those most easily identified as particularly questionable as to propriety or justification.

The legislative exercise which resulted in House Bill 60 underscores dramatically my concern that, given sufficient resources, government will try to do everything for everybody everywhere. Obviously, there will never be sufficient revenues to do so. Accordingly, I am doubly grateful that we finally have in place the Permanent Fund Dividend concept. It is the only collective countering pressure to what otherwise are selective, special interest pressures on government to provide them with ever more subsidized programs or special dispensations.

Once Permanent Fund Dividends have been distributed, the public will have a portion of the oil wealth with which they can determine for themselves how they wish it to be spent: for energy needs, loan interest payments, day care costs, health insurance, or what have you.

My preference would be to give even more of their oil wealth back to the people and permit them to elect how they wish to spend it, instead of having those in government do it for them. This seems to be appropriate. After all, just as states feel the federal government should permit each state to determine how best their shared revenue be spent, municipalities urge states to share revenue for the exact same reasons. What's wrong with carrying that one step further and permitting each citizen to choose how a portion of their revenues are spent? Only by so doing do I see any hope of curbing runaway government growth induced by those interests which succeed in pressuring political bodies to accommodate them. Under such ultimate "grass roots resource sharing" to the citizens themselves, expenditures in behalf of special interests which could reduce the citizen's share will demand greater public interest justification than otherwise

May 30, 1980

has sometimes been the case. At the same time we could acquaint citizens with true cost of services while providing them with a better means of paying for services they deem most crucial. If the price of achieving this goal was passage of HB 60 it will, in the long term, be considered cheap. Meanwhile, however, I must admit much contained in the bill sticks in my craw, undigested, proving once more that one man's prime rib is another's pork.

Sincerely,

Jay S. Hammond
Governor

#	Description
14	Cross - need to have a public body responsible for use of funding. Selecting municipality is like selecting a department.
20	2 - 2.5. (C) Statute relates to professional services
	Cross - 2 days
	(1) municipality notified
	(2) contract issued & signed
	(time must be accomplished within 30 days)
15	McKinnis - would R.P.'s be included within 60 day limitation?
16	Cross - yes
17	McKinnis - question re experience of one entity over another.
15	Cross - don't think that will become a problem may wish to set criteria for selection urge the legislature to tie down grant funding as firmly as possible.
18	Condon - municipality in case of default situation would not have to repay money but would have responsibility for choosing how to use funds - would not be a grant
19	Cross - would municipality have to bill for work done in administering the grant.

Subject: FCC on 1-18-80

pg # Description

Condon - would specify in bill or purpose of the grant - but certain % of none of grant be used for admin.

Side 2 Tape # 1

510 Gross Sub S.C. (e) - deals w/ native communities which are unincorporated, could

(1) incorporate

(2) form corporation to administer grant

(3) administer through other incorporated entity (Government Council) village corporation

(4) fund through the Department

576 Has to be some entity to fund to (legal entity) Nehman - how long does it take to incorporate 2nd Class City

Barrier - longer than 100 days

590 Gross - could form non-profit corporation immediately.

Have no feelings about that one way or another. Just vehicle for your use.

591 Gross - reading of proposed recording.

592 Gross - would be happy to work w/ committee on document - plans

593 Gross - document - from document to resolve

Subject: FCC HB 60

Log # Description

- 196 Differences between Admin & Legis
Cross - statement re differences and ability
to sit down and work problems out.
- 227 Barrier -
Mickins - preservation of legislative rights
Barrier - cannot agree w/ A.C. but suggested
bill does not forbid principal
or direct grants.
- Barrier - sec. (e) does address question which
comes up from time to time - need for
legal entity to receive grants.
- 267 Mickins - need to draft language preserving
Legis rights
Barrier - technical comment (b) refers back to
Admin. if language is too tight may
cause problems in other Dept's)
- Cross Admin functions under 3105 money
could be transferred thru Admin
- 216 Mickins - Barrier & Cross to confer and
resolve. Need to have the grants bill
cleared for passage (not veto) before
letting HB 60
- Mickins - amending budget
- 215 Mickins - now in Finance Room (2:30 pm)

Subject: FCC on 11B 60

Subject: FCC on NBLOC

Description

597 Discuss the state purchase aircraft but contract for operation. 500.0 cost of downpayment on aircraft - 100.0 contract for operation.

598 Pickens - operation is state getting into aircraft business. Less expensive to purchase aircraft but not directly employ pilot.

599 2 million + 2 million - new aircraft would cost 4 million

600 Pickens will lease from state during winter months for their fire-fighting effort.

601 Example fire to be put out before it becomes too large and more expensive to control.

602 Schuman - question re. who would operate

603 Bogan - re. one specific - re. if people interested - operator would also maintain aircraft.

604 Chairman has type of 10 1/2 " Quikrest

605 Dec 2 sets forth bidding process.

606 Little - do not believe that a unit maintain and operate aircraft in the year

607 Bogan - this basic figure would not include a big - state fire such as Delta - disaster - not including that

608 Chairman - this is a very big question - state - not sure
