HOUSE FINANCE COMMITTEE

May 28, 1982

8:35 a.m.

Tape HFC 82-60, Side 1, #413

PRESENT

Members of the committee in attendance: Representatives Adams, Montgomery, Fuller, Cuddy, Cotten, Carney, Meekins, Hurlbert and Haugen. Representative Bettisworth was excused from the meeting. Representative Chuckwuk was not in attendance.

Chairman Adams called the meeting to order and informed members that the committee would be considering HCS CSSB 744 (Finance) am H and SB 895.

The first bill to be considered was HCS CSSB 744 (Finance) am H.

HCS CSSB 744 (Finance) am H

HCS CSSB 744 (Finance) am H - "An Act appropriating for the operating expenses of state government; making, amending, and repealing various appropriations; and providing for an effective date."

Chairman Adams began by informing committee members that there was a proposed committee substitute to the bill. He reviewed the sectional changes as included in the committee substitute.

Representative Meekins asked if funding for the acquisition of APU land for the University of Alaska, Anchorage could be considered as an addition to the committee substitute? Chairman Adams stated that he had been in contact with Representative Martin concerning the situation with the APU land and he had asked that it be brought up during Free Conference. Representative Meekins stated that there is to be a request for \$2.3 for the architectural and engineering work on the dorm for Anchorage; however, they don't have land acquisition at this time. He stated that the dorm is a priority of the University for next year and currently they have no way to hold onto the land. Representative Meekins stated that although there is \$1 million included in the senate operating budget it still doesn't mean the University is going to be able to build because they are still going to have to pay \$9.8 the next year.

Representative Meekins MOVED to add \$9.8 million for land acquisition by the University. There were four in FAVOR (Cotten, Meekins, Montgomery, Hurlbert) and three OPPOSED (Cuddy, Adams, Fuller). The MOTION CARRIED.

Representative Haugen MOVED to rescind the previous action taken by the committee on the motion. There were five in FAVOR (Adams, Fuller, Cuddy, Haugen, Hurlbert) and three OPPOSED (Cotten, Meekins, Montgomery). The MOTION CARRIED.

(Representative Carney arrived at this time.)

Representative Hurlbert stated that he would like to see the inclusion of funding for runway repair in Sheldons Point. There was discussion between members concerning the additional inclusion of projects.

Representative Hurlbert MOVED to add \$265,000 for Sheldon Point airport repair. Representative Meekins stated that there was still the main motion of inclusion of \$9.8 million for land acquisition before the committee. Representative Hurlbert WITHDREW his motion.

A vote was taken on the MAIN MOTION to add \$9.8 for land acquisition by the University of Alaska, Anchorage. There were five in FAVOR (Cotten, Meekins, Montgomery, Haugen, Carney) and four OPPOSED (Cuddy, Fuller, Adams, Hurlbert). The MOTION CARRIED.

Representative Hurlbert MOVED to add \$265,000 for airport repair at Sheldons Point.

Chairman Adams reported HCS CSSB 744 (Finance) am H back to subcommittee for additional work.

The next bill to be considered was SB 895.

SB 895

SB 895 - "An Act making supplemental appropriations to the Department of Public Safety for salaries and benefits; and providing for an effective date."

Chairman Adams provided members with an overview of the bill and stated that the appropriations are for contracts already negotiated.

Representative Cotten MOVED to add a new section to the bill which would read "The sum of \$1,150,000 is appropriated from the general fund to the Legislative Affairs Agency for the operation of the Twelfth Legislature - Second Session from the 123rd day through the 145th legislative day". There being NO OBJECTION, it was so ordered.

Representative Meekins MOVED to report out of committee SB 895 as amended. There being NO OBJECTION, it was so ordered. HCS SB 895 (Finance) was reported out of committee with a "do pass" recommendation.

ADJOURNMENT

The meeting adjourned at 8:45 a.m.

Tape HFC 82-60, Side 1, #413 to #603

HOUSE FINANCE COMMITTEE

June 1, 1982

8:30 a.m.

Tape HFC 82-60, Side 2, #001

PRESENT

Members of the committee in attendance: Representatives Adams, Montgomery, Cuddy, Cotten, Bettisworth, Hurlbert, Fuller and Haugen. Representatives Carney, Chuckwuk and Meekins were not present at the meeting.

OTHERS PRESENT: John Katz, Commissioner, Department of Natural Resources and Mark Wittow, Department of Natural Resources.

Chairman Adams called the meeting to order and informed members that they would be considering CSSB 835 (Finance).

CSSB 835 (Finance)

CSSB 835 (Finance) - "An Act establishing a National Petroleum Reserve, Alaska, special revenue fund; and providing for an effective date."

Chairman Adams provided an overview of the bill and called Commissioner Katz before the committee to testify on the legislation.

JOHN KATZ, Commissioner, Department of Natural Resources began by stating that the Department of Natural Resources has no institutional interest or statutory responsibility for the legislation and that he was testifying on the request of the House Finance Committee staff due to his knowledge of the events which preceded the enactment of the federal law upon which the bill is premised. Commissioner Katz explained that when the Department of the Navy transferred the National Petroleum Reserve to the Department of the Interior no provision was made for the disposition of revenues or revenue sharing for the state of Alaska. The transfer legislation incorporated principals related to exploration and study. There were several possibilities with respect to revenue sharing with the State of Alaska and local governments.

Commissioner Katz stated that under the law existing at that time no revenue sharing was required and the state would receive no revenues from any future development. Another possibility which was considered at various times was a 50 - 50 revenue sharing split, similar to the one incorporated into the bill which was ultimately enacted. That approach was premised upon the Federal Land Policy and Management Act which in other states, besides

Alaska, provides for 50 - 50 revenue split with respect to oil and gas royalties. A third possibility was a revenue split of 75 percent to the federal government and 25 percent to the local municipality, borough. That is the revenue sharing plan which applies to acquired lands within units of the National Wildlife Refuge system and is the alternative which the Kenai Borough argued for in litigation against the state of Alaska and the United States.

Commissioner Katz explained that after the transfer of the petroleum reserve the pending D-2 legislation raised the possibility that the National Petroleum Reserve would be recreated as a National Wildlife Refuge and that concept was incorporated into Congressman Udall's bill. Another alternative, and one which was supported by the Congressional delegation and the governor, was to apply the 90 -10 revenue sharing formula that exists with respect to public domain lands generally in Alaska managed by the Bureau of Land Management. Under that formula, the state of Alaska receives 90 percent of revenues derived from bonuses, royalties and rentals and the federal government receives 10 percent.

According to Commissioner Katz, there were two basic bills. One was introduced by Congressman Young and provided for the 90 - 10 revenue sharing formula. Another introduced by Senator Jackson also represented a comprehensive approach to the treatment of the National Petroleum Reserve and provided no particular revenues. He stated that the first breakthrough in the state's effort to achieve some sort of revenue sharing split occurred when the Carter Whitehouse and the federal Office of Management and Budget recommended a 50 - 50 revenue sharing formula. The North Slope Borough also met with the White House and Office of Management and Budget to obtain some sort of state/local revenue sharing formula in the bill. Commissioner Katz indicated that the key event in the process occurred when Senator Stevens saw the opportunity to include substantive authorization language upon an appropriation bill relating to the Department of Interior. The language which Senator Stevens was successful in including on the Senate side provided for a 50 - 50 revenue sharing formula which would be utilized for planning and certain other specified purposes. It also contained a proviso that priority in the state's distribution of revenues should be given to units of local government that were directly and severely impacted by development of the National Petroleum Reserve. Following enactment of the legislation, it supplanted all comprehensive legislation that was then pending for the disposition and management of land and revenues from the National Petroleum Reserve.

Commissioner Katz stated that this is the premise upon which the state legislation now being considered, CSSB 835 (Finance), is based. It was Commissioner Katz belief that the legislation clearly fits within the parameters of what Congress contemplated

in enacting federal law. He advised that should the legislature decide to enact them, there are other alternatives which would fit within those parameters.

Commissioner Katz stated that to their knowledge, the federal government has not been closely following the states deliberations on this issue. He did not know of any effort to alter or suspend the disposition of revenues by the federal government to the state under the National Petroleum legislation. According to Commissioner Katz it is difficult to tell what is going on since revenues are only paid by the federal government to the state twice a year with the next payment due in June. He stated that it is also difficult to project what the revenues will be from activities in the National Petroleum Reserve and indicated that the federal government has found their lease sales disappointing.

Chairman Adams asked what is the number of acres transferred from the Department of Navy to the Department of Interior. Commissioner Katz responded that except for critical habitat areas, the federal legislation encompasses the entire National Petroleum Reserve as it was constituted in the early 1920's and is roughly the size of the state of Indiana (23 million acres). He stated that not all of that has oil and gas potential.

Chairman Adams asked how much revenue the state has received in the past? Commissioner Katz stated that although it is not a Department of Natural Resources responsibility, they consulted with the federal government and the Department of Revenue and there has been virtually no revenues dispursed to the state. The federal lease sale occurred late last year and the first time that would be reflected would be in the June disbursement.

Representative Montgomery referred to page 1 (c) of the bill and asked if it would be difficult to establish guidelines concerning the determination of those communities which are most "directly and severely impacted"? Commissioner Katz responded that the terms "directly and severely impacted" do reflect the federal language on that subject. It was his feeling that the language as contained in the bill gives the legislature broad discretion to determine what criteria should be utilized.

Representative Montgomery referred to Section D and E and the three qualifiers as to how the money may be spent. He stated that it was his opinion that those three items cover everything and questioned why they were in the bill. Commissioner Katz stated that he agreed and that those qualifiers "mirror" the federal enactment.

There was discussion concerning the amount of revenue which the state is eligible to receive and the relationship with the federal government with regard to disposition of those funds within the state.

Representative Fuller MOVED to report out of committee CSSB 835
(Finance). There being NO OBJECTION. it was so ordered. CSSB
835 (Finance) was reported out of committee "without
recommendation".

ADJOURNMENT

The meeting adjourned at 9:00 a.m.

Tape 82-60, Side 2, #001 to #481

HOUSE FINANCE COMMITTEE

June 1, 1982

12:10 p.m.

(Tape HFC 82-60, side 2 #481.)

PRESENT

Members of the Committee in attendance: Representatives Adams, Fuller, Montgomery, Cotten, Haugen, Chuckwuk and Hurlbert. (Representatives Carney and Bettisworth arrived later in the meeting.) PRESENT TO TESTIFY: Roger Lange, Division of Adult Corrections, Department of Health and Social Services.

SB 535

Chairman Adams called the meeting to order and brought SB 535 up for consideration.

CSSB 535 (Judiciary) am -- "An Act relating to the criminal laws of the state."

Chairman Adams noted that the Committee had previously reported out HCS CSSB 535 (Judiciary). He explained the Judiciary Committee has provided a second Committee Substitute which adds additional sections addressing the "Guilty but Mentally Ill" statutes. He stated there is a sectional analysis of the 2nd Judiciary CS in the members' bill file.

Chairman Adams stated a fiscal note from the Division of Corrections indicates that \$1729.8 would be necessary to construct and staff the necessary facilities. He invited Mr. Lange to testify on the fiscal note.

MR. ROGER LANGE, Division of Adult Corrections, Department of Health and Social Services, stated the major portion of the fiscal note for FY 83 would be for the construction of 13 additional beds as soon as possible to provide additional bed space for the sections not associated with the mental health portion of the bill. He advised there would be another segment that would require additional staffing at the Cook Inlet pretrial facility to convert it into a 36 bed unit where they would do analysis to determine whether or not a person is mentally ill. He advised there would be a treatment period involved until the person is convicted -- the sentence would be guilty but mentally ill -- and there would be a period for treatment until the person is stabilized and transferred to another state correction center. Mr. Lange said there would also be contractual funds available to continue the treatment.

(Representative Carney arrived at this time.)

Chairman Adams asked when the 100 additional beds would be needed. Mr. Lange said the money would be requested in FY 84. He explained the beds would not be needed until FY 87. He advised most of those beds are a result of section 28 of the bill. Assuming all the people currently sentenced under existing law, with earned good time would get out in 4 1/2 years, Mr. Lange said, by increasing the presumptive sentence to 8 years, the person could get out in 6 years. He said this means that after 4 1/2 years they will be building up their population.

Representative Cotten asked which sections of the bill don't have anything to do with the insanity plea. Mr. Lange said sections 15 through 24 deal with the mentally ill.

Representative Cotten stated he was thinking about proposing a CS that would deal with a single subject and cut the fiscal note down. Chairman Adams stated he would like to keep the bill as it is.

(Representative Bettisworth arrived at this time.)

Representative Cotten MOVED to delete section 1 to 15 of the bill. Chairman Adams OBJECTED.

Representative Cotten asked what effect his motion would have on the fiscal note. Mr. Lange said the fiscal note for just the mentally ill portion of the bill would be \$700.0 for FY 83 and it would go up in succeeding years. Representative Cotten asked if they could cut \$1 million from the fiscal note by deleting the first 15 sections of the bill. Mr. Lange said the first 15 and those sections after section 23. Representative Cotten commented he would want to leave section 26 in the bill. He said he doesn't think members of the Committee have had much opportunity to study the 2nd House Judiciary CS.

The Question was called for. IN FAVOR: 1 (Cotten); OPPOSED: 7. The MOTION FAILED.

Representative Cotten said he thinks a lot of people agree they have to do something about insanity and immunity. He said this bill has 15 sections that this Committee probably hasn't had an opportunity to go over. He said he thinks they are making a mistake in passing this out so quickly.

Representative Montgomery MOVED AND ASKED UNANIMOUS CONSENT to report House CS for CSSR 535 (2d Judiciary) out of Committee with the two fiscal notes and the "commentary and sectional analysis". Representative Cotten OBJECTED. The Question was called for: IN FAVOR: 7; OPPOSED: 1 (Cotten). The MOTION CARRIED. HCS CSSR 535 (2d Judiciary) was reported out with a "do pass" recommendation.

ADJOURNMENT

The meeting adjourned at 12:20 p.m.
