To the Honorable, the President, the Senate and the House of Representatives of the United States:

We, your memorialists the Legislature of the Territory of Alaska, do most respectfully submit to your consideration the following facts:

That the larger portion of the Territory of Alaska is now well provided with cables, land lines and wireless stations for rapid transmission of messages;

That all such means of communication are owned by the federal government, except one wireless station situate in the town of Iditarod;

That the Kuskokwim, Innoko and Koyukuk valleys are being developed and opened up at a rapid rate and bid fair to become important factors in the progress and advancement of the Territory;

That all portions of said three valleys are hundreds of miles distant from any telegraph station; and

That a number of lives and much property have been lost many and much of which might have been saved had there been any means of rapid communication.

In view of these facts we respectfully suggest that the

Congress of the United States provide for the establishment of one wireless station at some convenient point in each of said three valleys and that such stations, when established, be placed and remain under the management of the Signal Corps of the United States Army.

And your memorialists will ever pray.
