CHAPTER 2

AN ACT

To authorize departments and other agencies of the Territory to enter into agreements or contracts with each other for the purpose of furnishing necessary and authorized special or technical services, including services of employees, materials, and equipment.

(H. B. 3)

Be it Enacted by the Legislature of the Territory of Alaska:

Section 1. Any Territorial agency or department may enter into and

perform a written agreement or contract with other agencies of the Territory for furnishing necessary and authorized special or technical services, including the services of employees, the services of materials, or the services of equipment. The actual cost of rendering the services, or the nearest estimate of the cost that is practicable, shall be reimbursed.

Section 2. Before any services may be rendered or received a written agreement or contract shall be entered into, specifying the kinds and amounts of services to be rendered, the bases for calculating reimbursable costs, and the maximum amount of the costs during the time period covered by the agreement. To be valid, the written agreement or contract must be in a form approved by the Attorney General and have the advance approval of the administrators of the Territorial agencies which are parties thereto and of the Director of Finance. Where the amount involved is less than Fifty Dollars (\$50.00), no written agreement or contract or advance approval by the Director of Finance is required.

Section 3. No agreement or contract may be entered into or performed which will require or permit an agency of the Territory to exceed its statutory duties and responsibilities, or the limitations of its appropriated funds. In reviewing proposed agreements or contracts the Director of Finance shall consider the following factors, which shall not be considered to be exclusive: (a) Whether the serv-

ices specified are necessary and essential for activities and work that are properly within the statutory functions and programs of the affected agencies of the Territorial Government; (b) Whether the proposed arrangements serve the interests of efficient and economical administration of the Territorial Government; and (c) Whether the specified bases for reimbursing the actual costs are fair, equitable, and realistic and in conformity with the limitations of funds prescribed in the current appropriations act or other applicable statutes.

Section 4. Payments for such services by a receiving agency shall be made from the appropriation items or accounts of the receiving agency from which like expenditures would normally be made, based upon vouchers drawn for this purpose by the receiving agency payable to the furnishing agency. Payments received by the agency performing the services shall be credited to that agency's current appropriation items or accounts from which the expenditures of that character were originally made.

Section 5. Nothing in this Act shall authorize any agency to construct any building or structure for any other agency, unless otherwise specifically authorized by existing law, except that the Department of Education and the Department of Health may enter into agreements or contracts under the terms of this Act for acquisition of sites, construction, reconstruction, maintenance, repair, opera-

tion, or alteration of joint school and community health center facilities; and that the Department of Aviation and the Highway Engineer may enter into agreements

under this Act for acquisition of rights of way, construction, reconstruction, maintenance, repair or alteration of access roads serving public airports.
