HOUSE CONCURRENT RESOLUTION NO. 31

Relating to the utilization of reindeer products in the tourist industry.

Be It Resolved by the House in Second Legislature, Second Session Assembled, the Senate Concurring:

WHEREAS the State of Alaska is seeking to develop a permanent, sound, and expanding tourist industry; and

WHEREAS many tourists coming into Alaska are not afforded an opportunity to visit all areas of the State due to time limitations and severe limitations on transportation facilities into our vast, remote areas; and

WHEREAS, if reindeer meat were offered on the menus in restaurants and dining rooms throughout Alaska, tourists would be exposed to unusual and enticing food they might not otherwise find; and

WHEREAS, if airlines carrying tourists to and from Alaska offered reindeer meat to their passengers, these tourists also would have the opportunity of enjoying food rarely available elsewhere; and

WHEREAS the private owners of reindeer herds on the mainland of Northwest Alaska have a difficult time marketing reindeer products because the distances are vast and the capital investment is small; and

WHEREAS it would benefit the State to assist in the development of markets for reindeer products produced on the mainland of Northwest Alaska;

BE IT RESOLVED by the House of Representatives in Second Legislature, Second Session assembled, the Senate concurring, that the Division of Agriculture of the Department of Natural Resources and the Division of Tourism of the Department of Commerce shall put forth a concerted effort to encourage all phases of the tourist industry and the food service industry to make reindeer meat produced on the mainland of Northwest Alaska available to tourists.
