HOUSE RESOLUTION NO. 5

Commending Rocky MacKinnon and Theresa Sluman.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES:

WHEREAS during the course of the Second Session of the Eighth Alaska Legislature, the members of the House have been privileged to enjoy the commodious commestibles prepared and served by Ms. MacKinnon and Ms. Sluman in the members' lounge; and

WHEREAS the sandwiches, hot dishes and other tasty morsels set before the members of the House and "the other body" have been particularly superb throughout the entire session; and

WHEREAS as a result of the extraordinary cuisine made available to legislators, to an even greater extent than at any previous session, the members have enjoyed the recesses from their legislative labors;

BE IT RESOLVED that the House of Representatives of the Alaska State Legislature commends Rocky MacKinnon and Theresa Sluman for their conscientious management of the kitchen in the members' lounge and for their extraordinary display of culinary art significantly raising to new heights the standards of the domestic sciences as they are practiced in Juneau, but the members acknowledge that, as a result of these gourmet delights and temptations of the table, they have been unable to avoid avoidupois gains made during this session from "snacks" that most assuredly are not bereft of "empty calories."

COPIES of this resolution shall be sent to Ms. Rocky MacKinnon and Ms. Theresa Sluman.
