Resolve No.

SCR 9

18

Requesting the Department of Transportation and Public Facilities to examine and report on the feasibility of construction of a road between Wales and Tin City.

---

### BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

WHEREAS an improved surface transportation route between the community of Wales and facilities at Tin City would alleviate problems in moving persons and goods between the two points, especially when weather conditions are adverse; and

WHEREAS an all-weather surface link between the two points would materially assist access between Wales and traditional subsistence hunting and fishing campsites in the vicinity of Lopp Lagoon, augmenting the traditional subsistence lifestyle of the residents of that community;

BE IT RESOLVED by the Alaska State Legislature that it respectfully requests the Governor to direct the Department of Transportation and Public Facilities to study the feasibility of constructing a road between Wales and Tin City, and to submit its report concerning the project to the Second Session of the Eleventh Alaska Legislature.
