**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

THE ACT FOLLOWS ON PAGE 1, LINE 9

Approved by the Governor: July 1, 1980  
Actual Effective Date: July 2, 1980

AN ACT

Creating the Rural Development Council; and providing for  
an effective date.

\* Section 1. FINDINGS; POLICY; PURPOSE. (a) The legislature finds that there is a public interest in the development of a healthy private economic base in rural Alaska, that the rural areas of the state and the many small communities of the state have been in economic crisis for decades, and that in many rural communities a private economic base has ceased to exist, which conditions endanger the economic, social, and cultural well-being of the state's rural citizens and the healthy growth and balance of the state's entire economy. The legislature further finds that while many opportunities for economic growth may be available to rural areas, the problems of the state's rural areas are many and complex, spreading beyond the confines or authority of any one program, any one government, or any one policymaker and therefore requiring a special initiative on the part of all concerned parties.

(b) It is the policy of the legislature that

(1) villages and small communities should have access to economic development opportunities;

(2) there is a special commitment to the development of a private economic base for villages and small communities;

(3) the state should use its resources and financial strength to encourage the development of a healthy, self-sustaining rural economy;

(4) the state has the primary policy responsibility to act and to

Chapter 172

1 catalyze commitment among many interests, including the state, federal govern-  
2 ment, local governments, and the private sector to promote a private economy  
3 in rural areas;

4 (5) the advocacy of a private economy compatible with preservation  
5 of the subsistence economy should be one of the highest priorities of state  
6 policy.

7 (c) It is the purpose of this Act to create a governmental structure  
8 that will function as an advocate of rural areas and small communities pre-  
9 senting development issues before state, federal, and local governments, and  
10 in the private sectors, and which will assist rural people and institutions  
11 in laying the foundations of a healthy rural private economic base.

12 \* Sec. 2. AS 44.19 is amended by adding new sections to read:
