Resolve No.

HCS CSSCR 26 (HESS)

45

Relating to the feasibility of creating local advisory boards.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

WHEREAS teachers and parents have limited access to the decision-making process regarding programs, curricula, teaching materials, and textbooks; and

WHEREAS many teachers and parents have expressed concern that the teaching process is often restricted by administrative tasks, pupil-teacher ratios, class size, workload, and other assignments; and

WHEREAS teachers and parents should be able to share their expertise in the decision-making process; and

WHEREAS teachers and parents should receive support from school boards, parents, and administration; and

WHEREAS teachers and parents would play a more instrumental role in the decision-making process if local advisory boards existed, consisting of teachers, members of the community and school administrators that would report to local school boards;

BE IT RESOLVED by the Alaska State Legislature that the State Board of Education undertake a thorough study to determine the feasibility of creating local advisory boards, and report back to the First Session of the Fourteenth Alaska State Legislature with their findings and recommendations.
