11	It is the intent of the legislature that \$250,000 of this appropriation be used to evaluate		
12	Alaska's education system and make recommendations aimed at increasing student		
13	achievement. The evaluation should not focus on funding, except that it may recommend		
14	redirection of how a district is investing existing funding. The evaluation parameters should		
15	include instructional programs, including comprehensive curriculum, instructional materials,		
16	and effectiveness of professional development and instructional practices; evaluation of		
17	vocational and college preparedness tracks for education; district efficiency, including		
18	efficiency of district administration; instructional leadership, including instructional		
19	accountability; teacher retention and tenure; effectiveness and efficiency of remote-delivery		
20	of education; efficiency and effectiveness of state professional development; barriers to		
21	success that are within school district control, in particular with regard to fourth- and eighth-		
22	grade reading and mathematics scores on national examinations. It should also examine the		
23	length of the school year, length of school day, and instructional time per day. The evaluation		
24	will also provide a comparison of Alaska's districts' practices to national practices on each of		
25	these parameters, including a comparison of Alaskan standards and expectations to those of		
26	other states.
